Tall Hats of the Past.

In spite of statements made to the contrary, tall hats were invented long before 1813. A Mr. Toft of Tottenham, who died in 1767, left £50 to the governors of the Hottenham free grammar school, the interest of which was to he devoted to the purchase of three tall hats as prizes for the three best

The hats used to be purchased from a hatter in Bishopsgate street named Greenway for 24 shillings. But in 1811 he informed the governor that a duty of 1 shilling each had been imposed and the cost raised to 27 shillings. The duty was again raised to 2 shillings each and in 1813 to 2s 6d. The duty was afterward repealed, but by that time the governors were purchasing Bibles instead of hats for the boys.-Pall Mail Gazette.

The Coffer River Railroad in Alasruns over a glacier for seven miles.

PREDICTS THE TIDES. One of Uncle Sam's Machines That Does Wonderful Work.

A macnine known as the United States time predicting machine No. 2 and which is in usily operation in the United States geodetic survey at Wasn- Hoorah! No More Suffering ing the pain, is easing your distress ington, makes mathematical calculations which would otherwise require 100 persons to do.

Its work is nothing less than the predicting of the times and heigths of high and low tides a year in advance. Its mechanism is of brass and steel, its house a huge mahogany and glass case and its tender one observer, who turns a crank and copies off on paper the reading of several dials and later removes from the machine a roll of paper on which is plotted the tidal curve for the particular spot along the coast the tides of which have been

Every year the United States issues a book on tide tables, primarily for the use of its navy, and, secondly, for the use of all who go down to the sea in ships. This book of tide tables gives the time to the minute and the keight to the nearest tenth of a foot of every high and low tide during the year for seventy of the world seaports, and by means of an auxiliary table the same information of 3,000 other places. -Scientific American.

CHILDHOOD AILMENTS

Constination and indigestion; colie; worms, colds and simple fevers, and all the other minor ills of little ones can be promptly cured by Baby's Own Tablets through their action in regulating the stomam and bowels. Concorning them Mrs. H. H. Mills, Haidimand, Que., writes: "I have found Pahy's Own Table's of great service in relieving my little one of constipation and stomach trouble." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

What Are Children?

What are children? Flowers they are the flowers of the invisible world, indestructible, self perpetuating flowers, each with a multitude of angels and evil spirits underneath its leaves, toiling and wrestling for dominion over it.

Bloseoms—they are the blossoms of another world, whose fruitage is angels and archangels. Or dewdronsthey are dewdrops that have their source not in the chambers of the earth nor among the vapors of the sky, which the next breath of wind or the next flash of sunshine may dry up forever, but among the everlasting fountains and inexhaustible reservoirs of mercy and love. -John Neal.

THAT AWFUL ACHE OF LUMBAGO RUBBED AWAY FOR ALL TI

-Every Ache Goes Quick.

RUB ON NERVILINE

Lumbago is a peculiar sort of rheumatic trouble that affects the muscles about the loins and back. At times its agony is intense. Severe spasms of pain shoot in all directions, and become more severe on stooping.

In treating lumbago or stitch in the back, it is necessary to keep warmly covered to prevent a sudden chill. Attend to this and then apply Nerviline

Almost instantly you feel its warm soothing action. Right through the cords and muscles the healing power of Nerviline penetrates.

Quick as a wink you feel the stiffness lessening. You realize that a powerful pain-subduing remedy is cur- Catarrhozone Co., Kingston, Canada.

Nerviline quickly cures backache and lumbago because it has the strength, the power and penetrating force possessed by no other known remedy. Its amazing curative action is due to certain extracts and juices of rare herbs and roots, combined by a secret process, and forming a truly magical medical marvel.

Any sort of aches in the muscles and joints Nerviline will cure quickly. It eats the pain right up-relieves stiffness, restores the muscles to their wonted elasticity and vigor.

It's the quickest thing imaginable for rheumatism, sciatica or neuralgia. As for earache, toothache, sprains, or strains, nothing can excel good old Nerviline.

Get the large 50 cent family size bottle, it's the most economical; trial size, 25 cents. All dealers or the

The Distinguished Guest.

Captain Raabe was a man whose, came had weight in the French cavairy. He was a tall man, belonging to the middle-aged trooper type. With military qualities of the hignest kind, he had a singular bearing, a savage sort of misanthropy and a cynical tongue, which stood in the way of promotion. When he was in the Sixth Lancers, on garrison duty at Commercy, one of his comrades brought his father to dine with him at the officers' mess, a man of humble position and unpretentiously dressed. Captain Raabe, considering that this guest had not been fitly received, gave expression to his opinion, saying that if the executioner of Commercy had come in evening dress he would have had a tetter reception. The officers demurring, he made no rejoinder, but shortly afterward came to mess with a guest whose dress was irrepreachable. Every one lavished attentions on the unknown. When dinner was over Captain Raabe, raising his glass, proposed the health of "the executioner of Com-

PERU.

Peru in the abundance of her minerals is the real treasure chest of South America. The country has a territorial extension of upward of 600,-000 square miles. Callao, the chief port, by the ocean route through the Panama Canal is within 200 miles as e years ago the German Colonel be placed in tin. It should be used Mexico by rail. The Amazon port of Iquitos, 2,100 miles from Para, is reached in shorter time by steamers from New York than by the overland journey from Lima, the capital. The country, which has about 4,000,000 inhabitants, is divided into three distinct zones, with as many varieties of climate, products and soil. These are the coast zone, the sierra or mountain zone, which includes the great table lands and valleys of the Andes, and the montanic or forest region, which stretches from the eastern slopes of ground coffe to a cup of water and the Andes to the vast river basin of "one for the pot" is the usual rule for he interior. was in plain clothes in a home-He was in plain cioties in a nome-ward bound train. His battle-worn uni-form lay wrapped up on the rack above his head. Ine train slowed down and a clergyman entered the rarriage. He looked at Sampson, V.C., with a stern,

disapproving eye.
"Are you not doing anything to help your country?" he asked.
Sampson, V.C., smiled. This was get-

pression four heaping tablespoonfuls Army!

Sampson, V.C., smiled. This was getting amusing.

"A man of your stamp ought to be in the army," continued the clergyman.

Sampson, V.C., was a sailor, so he replied quite truthfully.

"I have no intention of joining the Army!" This was the last straw. The clergyman blazed out:

"You're a stacker!"

"I think it would suit you better still if you had khaki on," Sampson at once retorted. The atmosphere of the railway carriage became strained.

On leaving the carriage Sampson took down a parcel from the rack. It was his uniform and part of it showed through the paper. The clergyman saw it. There was a rush of apology. "I thought you were one of the lads who wouldn't go!" he said.

Sampson, V.C., simply smiled, and they parted good friends.

An Earthquake.

The horror of experiencing an earthquake has over set down by F. S. Lyman, who was in the Havaiian 15lands some years ago, when there by gan a series of earth makes on the inthern banks of a so-miled "quiet

"irst the earth swaved to and fro from north to south, then from east to west, then found and rolled up and down, and finally in every imaginable direction, for several minutes, everythirg crashing around and the trees thrashing as if torn by a hurricine. and there was a sound as of a mighty wind. It was impossible to stand, We had to sit on the ground, bracing with hands and feet to keep from being rolled over. The villages on the shore vere swept away by the great wave that rushed upon the land immediately after the parth make:"-Exchange.

Anyone can live sweetly, patientto draw the flowers and figures, which ly, lovingly, purely, till the sun goes she afterward worked in gold thread. down. And that is all that life ever really means. R. L. Stevenson.

PORCES OF MATURE.

Soft Their Touch, but Constant and Effective Their Work

What ages to the wonder of the ertn s grist is that the milistones that uid the work and are still going it are tue gentie torces that career above our heaus-the sunneam, the cloud, the air, the irost. 'The rain's gentle fail, the air's vervet touch, the sun's noiseless rays, the frost's exquisite crystais, these combined are the agents that crush the rocks, pulverise the mountains and transform continents of sterile granite into a world of fertile

It is as if baby fingers did the work of powder and dynamite. Give the clouds and the sunbeams time enough and the Alps and the Andes disappear before them or are transformed into plains where corn may grow and cattle

The snow falls as lightly as down and lies almost as lightly, yet the crags tumble beneath it; compacted by gravity, out of it grew the tremendcus ice sheet that ground off the mountain summits, that scooped out lakes and valleys, and modelled our northern landscapes as the eculptor his clay image. - John Burroughs.

DR. JACKSON'S ROMAN MEAL IS

A FOOD, NOT A FRAUD. Many so-called cereal foods are frauds. To prove it, try to live entirely upon them for a few days. Many live entirely upon Roman Meal. A recent letter from California says: Dear Dr. Jackson: A friend of mine has lived upon Roman Meal for thirteen months. His case had been pronounced hopeless. He is now in perfect health." No fraud here. Roman Meal is scientifically balanced by an expert dietitian. It's the perfect food. and positively relieves constipation. Ask your doctor. Make it in porridge. pancakes, gems. At grocers, 10 and 25

The Normal Baby.

Have you measured the baby? The normal baby has been meas-

The experts have arrived at a standard for babies.

If your baby is a year old, here is he correct measure: Height, 30.0s inches; chest, 18.10; bdomen, 17.80; around the head, 18.20; eight, 22.30 pounds.

At 2 years baby should weight 28.60 pounds, be 34.56 inches tall, 19.54 inches chest and 19 inches around the abdemen.

At 2 years the normal weight is 33.95 20.74 inches; abdomen, 20 inches, and the circumference of the head, 19.78 The increase in height, weight and

circumference of chest and abdomen are regularly progressive with age. while the increase in the circumference of the normal baby's head is decidedly less after 15 to 20 months of

NEEDLES FOR ZEPPELINS.

The French War Office has in operation an invention which seems to offer an excellent method of combating Zeppelins. The inventor is M. Antony Jacques, of Grenoble.

The new weapon consists of a long needle carrying a small shell. These needles are very light, and so is to shell they carry. When the needle pierces cloth or any light substances -and not till then-it explodes the shell. Fired against a brick wall it is harmless.

The needles are so small that good quantity can be carried on an aeroplane. They can be fired from a very light gun, and when once they strike a Zeppelin and explode they will also explode the gases contained in the envelope, and so destroy the whole machine.

The invention came to the French War Office after careful and ex-haustive experiments made by the Chief of the Fire Brigade at Grenchle.

AN APPEAL 10 BOWLERS

To the Bowlers of Canada:

Gentlemen,-It has been felt for a long time that it was incumbent on the lawn bowling fraternity to take a more distinctive part in some of the various patriotic movements which have been launched in Canada. for the purpose of assisting the men who are fighting out battles at the front.

The opportunity has arrived. The Militia Department of the Y. M. C. A. pounds; height, 37.38 inches; chest, is in urgent need of funds carry on their indispensable work. and at a largely attended meeting of the residents of the Toronto Bowling Clubs held last week, for the purpose of organizing a campaign to raise a patriotic fund among the bowlers of the country, it was unanimously decided that the funds so raised should be devoted to this

The D. L. B. A. has been asked to bring the matter formally before the the various Provincial association that the movement may be truly no tional in character and in every worthy of the devotees of this histor pastime. -

It is cheerfully recognized that lawn bowlers in common with other sections of the community. have ready contributed as generously any other class to the various funds which appeal in common to every patriotic citizen, but it must also be frankly recognized that we are not through contributing, and that the least we can do-who have not yet donned the khaki and shouldered the rifle—is to support to the limit of our resources those who have sacrificed not only their prospects, but in many cases their lives as well.

We who have enjoyed our sports this summer-our pleasure marred only by the recurring thought of should be particularly responsive to an appeal which is largely for the purpose of raising funds in order the front-should have some recrea-

The undersigned have solemely pledged themselves to do their part. and we feel confident that an appeal to the lawn bowlers will not be made

in vain. The committee in charge of the Toronto end of the fund have set \$15,000 as the sum which should be raised by bowlers in the Queen City, the estimated bowling population of the city being approximately three thousand. Every bowling club affiliated with the O. B. A., the W. O. B. A. and the E. O. B. A. will be invited to participate and expected to contribute in proportion to their numerical and financial strength. It is confidently heped that every club recognized by the provincial associations will at least be represented in the movement.

Can you spare \$5 to make, life a litmore comfortable for the boys in trenches? Will you do your pair and do
