CHEAT RAIDS BY AVIATORS OF THE ALLIES

BIG FLEETS NOW

Prance and Britain Have Increasen Their Air Forces Greatly Lately.

London Cable - For some time the aeropiane factories of France and Britain have been working at exceedingly high pressure, turning out machines for army service. Almost every ship arriving from America also brings aeroplanes to be used at the front by the alites. The result of this great increase in the number of available aeropianes is seen in the frequent air raids upon a large scale new launched from the French and British lines. German munition factories, important railway punctions, military camps, bivouacs and railway stations over a wide area of country are now subjected to terrific bombardments from above, the effect of which cannot fail to shake the morale of the Germans, as well as inflict material damage upon the places visited. The record of the past two days shows aerial offensive movements on a scale never before attempted. It is not improbable that the attention paid to railway tracks, junctions and stations is indicative that important troops movements will take place very soon all along the front in the west. Almost the entire 500 miles of the front in the west was embraced in aerial raids officially reported by the French to-day. In one of the raids the number of machines mentioned as taking part is 62, the largest number acting together during

Jackson, Ky., Report-Mrs. Mamie Hamlon, who says her home is at Chicago, and that she is a daughterin-law of a former Governor of Illinois, was arrested at Portsmouth, this county, to-day, charged with the murder of Mrs. Polly Davis, a wealthy Widow.

Mrs. Hamion, an artist, some months ago came to Portsmouth to paint a series of eastern Kentucky pictures. She met and became attached to Mrs. Davis.

Mrs. Davis is said to have explained to Mrs. Hamlon that she was making her will to charity, and asked her in case of her death to see that her property was not appropriated by her ielatives.

Shortly afterward Mrs. Davis died of poisoning, physicians say, and then came confusion about the will.

Mrs. Hamlen was indicted by the Breathit circuit court grand jury yesterday on the charge of having potsoned Mrs. Davis and forged a will which purported to leave the dead woman's property to her. Mrs Hamlon is said to have two children in Illinois. Her husband is dead.

TO GERMANS

Berlin Cable, via London, 2.30 p.m. -The Russian fortress of Olita, on the Niemen River, 30 miles south of Kovno, has been evacuated. Official announcement to this effect was made here to-day.

In all the wide sweep of Russian territory south of the Baltic provinces, which has been covered during the great Austro-German offensive movement, the fortress of Grodno is now the only strongly defended position remaining in the hands of the Russians. Olita was on the principal Russian line of defence, midway between Kovno, already in the hands of the Germans, and Grodno. It is about 50 miles southwest of the important railroad centre of Vilna, which is on

the direct trunk line to Petrograd. Olita is the ninth important Russian fortress to fall before the invaders in the last three weeks.

PROF. SCHUSTER

Attack On British Scientist by

London Cable — (Montreal Gazette Cable.)—The Globe, an evening paper, which has become conspicuous among journals engaging in anti-alien agitation, recently made an attack on Professor Arthur Schuster, who has been chosen to preside over the forthcoming meeting of the Brit-

ish Association. The Manchester Guardian rebukes the Globe, saying:

"There are few more honored names in connection with our university than that of the man who, because of his name, and because of his birth, the 'Globe' in its ignorant malice, calls upon men of science in this country generally to insult by refusing to attend the meeting over which he presides.

"Happily, the readers of science, and those animated by its high and

interested spirit, do not take their

instructions from the Globe, and the

genius of science and its whole tra-

dition are far removed from such attempts to narrow its domain and pervert its mission. "Science is nothing if it is not international; or, rather, it ignores nationality, and honors only attainment and truth; but, apparently, in. the eyes of the Gobe and its followers, to possess a German name is an unpardonable sin, although you may be British to the backbone in feeling and have sent your only son, as, we believe Professor Schuster has, to fight Eritain's battles, and have yourself rendered a whole life's
