'Samson Roofing'

fills every one of these requirements. The felt body of Samson Roofing is thoroughly saturated with the waterproofing compound. It is upon this thoroughness of saturation that the life of a roofing depends. Its surface is hard and absolutely unaffected by any weather conditions and cannot be ignited by sparks or burning brands. The cost of Samson Roofing is much less than shingles, slate, tin, etc., and very little labor is required to lay it. Complete directions for applying and a supply of nails and lap cement for cementing the joints are furnished with it.

We carry it in one and two ply.
