Russian victory may end Turkish power in Asia.

Washington may decide to-day to break with Germany.

Three alleged German spies have been captured at Georgia.

Weather hampers fighting at Verdun, bombardment is intermittent with no infantry attacks.

The Germans continue to pour shells on Rheims and waste ammunition on the battered city.

A compromise has been reached in London on conscription, says a late despatch from that city.

Sir George Foster stated in the Commons to-day that it is time to prepare for conditions after the war and suggests that Canadian business men send a deputation to Europe on a trade mission.

### An Objective Point.

Dairy Division, Ottawa.

The question has often been asked, somewhat facetiously perhaps "do you keep cows, or do they keep you?" To many dairymen this has started a train of thought resulting in vastly improved prospects.

To come right down to business, why DO you keep cows? Surely it is in order that they may contribute handsomely towards income. If you are already satisfied on that point well and good, but one excellent result of cow raising is the sold fact that it helps men to increase their income considerably; that is one main objective point reached. The same story is repeated in all parts of the Dominion, it runs something like this—

—from a man at Barnston, Que. "My cows average almost two thousand pounds of milk more than two years ago" or again from a man at Petersburg "I have increased fourteen hundred pounds of milk per cow, and hope to go up another fifteen hundred" or this from a man at Hagersville, Ont. "My herd is pretty near double in three years by weeding out" and once more from St. Egnatius, Que. "My seven cows brought in \$145 more this year, my records showed me it paid to care for them better."

The dairy division, Ottawa, will gladly send milk record forms if you write for them. Be sure that each cow pays.
