

YOU'LL HAVE NO BURNER TROUBLES WITH THE NEW PERFECTION

You can't, because the New Perfection is simplicity to the last degree. One turn of the burner knob puts the flame at any desired point. It won't creep up or change.

There are no perforated burner tubes to warp, bulge or become clogged with soot. You can bake a loaf of bread or broil a steak far better than with a coal range because the flame is continuously steady. The New Perfection gives perfect combustion and greatest economy.
