Canada As Senior Partner

LORD SHAUGHNESSY looked strategically at the situation in New York on the afternoon he stated that he had been deeply impressed by the Mother Country's attitude toward Canada, and seems thoroughly imbued with the liberal spirit, which is now the keynote of British policy.

He went on: "Britain's policy is turning to the very best advantage the fact that which her interests will be bound together as never before. It has been a long time for years that only a silver cord connected the Mother Country with her overseas dominions and colonies. That time is past. The war has demonstrated that unity of effort and direction must continue. Canada has assumed a heavy portion of the burden of the war—far greater than anyone anticipated. Canadians have stood in critical positions and have held them. They have done great work, fulfilling the terms of the partnership that exists between the various members of the Empire. Canadians have won a name which will forever distinguish them. Never will they be confused with other nationalities on this continent.

"Canada will, in fact, be a senior partner in the British Empire, bearing an equal share of the burdens; reaping an equal, proportionate share of the profits and filling a prominent seat at the council table. Lloyd George's elevation to the premiership, undoubtedly is the outcome of a desire on the part of the more aggressive party in the House of Commons to have a Government that will prosecute the war with more vigor. The change merely indicates that the people of Great Britain wish to utilize every resource and every force at their command to ensure victory. Britain wants peace just as soon as the demands made by her and her allies are won from Germany. Anything less is not victory. The masterful way in which Britain is financing the war is no less impressive than the achievements at the front. Her wealth and resources are almost limitless and are being freely and gladly pledged. This war is developing the individual. Every man, woman and child must do a share. Women in the United Kingdom are taking the men's places at home. They have demonstrated that they can do the work heretofore done by men and just as efficiently. They work on the railways, manufacture munitions, do the farm work, in fact, there is nothing except the actual fighting in the trenches that they are not doing. Every woman at man's work, puts another rifle on the firing line.

"As to Canada's future, I have always been certain. The war has only hastened development. With a population nearly equivalent to that of New York State, and a territory larger than the United States, her possibilities are vast. The quality of her fighting and her share in the war has carried her fame to remote corners. Before the war immigration was regarded but as a measure to what it will be when peace is declared. I firmly believe that Canada will have an influx of population not unlike that in the United States about fifty years ago. A great deal of money and many thousands of settlers have already gone to Canada from the United States. The investor finds there a good field for his wealth, and the settler a fertile soil for his plow. Rewards have come quickly to both. Canada leads to the United States more than ever she did before for two reasons, money and men are plentiful here and the supply from overseas is cut off."

Why not come in and get a new Couch?

Dear Mary:—
When you bought your new furniture did you overlook buying a new bed couch? Well, I did and when company came all four of us tried to pile into one bed: We put James and Ruth in the middle to keep them in—and what do you think? I fell out. It was so funny, but I might have broken my arm.

I just must have a new couch which, when needed, can be converted into a bed. Don't you, too, need one.

Hastily—**HELEN.**

P. S. Let's go down to-day and look at new couches at
