Subscriptions.—One dollar per year strictly in advance; if not paid in advance a dollar and a half will be charged. United States papers 50c extra, strictly in advance.

We are at all times pleased to receive local news. Send or bring in the facts, we'll do the rest. The earnings and goings of Hamilton and Norfolk people are always welcome items of news.

If you wish your address changed, give old as well as new address.

ADVERTISING RATES.

Yearly contract rates on application to publisher.

Reading Notices.—No reading notice, advertising any entertainment or matter by which money is to be made by any person or cause will be inserted in The Record without charge, except when the job-work for the same is executed at the Record Job Department, when one small reader will be given gratis. The price for the insertion of business announcements is five cents per count line each insertion.

Notice to Advertisers.—Changes of copy for contract advertising must be in the hands of the printers by Monday noon, at the latest, each week.

While willing at all times to do what is possible to accommodate patrons, we must, in justice to them and to ourselves, insist on a strict enforcement of this rule.

Judicial, Legal, Official and Government notices.—Eight cents per line (12 lines to inch) for the first insertion, and five cents per line for each subsequent insertion.

Small Ads.—Condensed advertisements of such a nature as "Lost," "Found," "Situation Wanted," "To Rent," "For Sale," etc., not exceeding six lines 25c per insertion; 5 insertions \$1.00.

Advertisements ordered for insertion without written instructions will appear until written orders are received for their discontinuance.

CHINA'S FIRST LOCOMOTIVE.

Wily Old Li Hung Chang's Rebuke That Was Linked With a Wink.

There is a curious story concerning the first locomotive ever seen in China. Li Hung Chang was given permission to construct a railway from the sea to his mines upon the condition that steam power should not be used, and for several months the cars were hauled by mules.

Then Mr. Kinder and some of the foreign machinists secretly constructed a locomotive out of such material as they could find in China. It was a rude affair, and it was never able to make more than five or six miles an hour, but it was a great advantage over the mule teams, for it could haul seven or eight cars of coal at that speed, where it took four mules to haul one.

But when the mandarins at Peking learned that foreign devils were using a fire eating monster on the railway they immediately made a tremendous fuss about it and called Li Hung Chang to account for violating his concession.

The old gentleman took it very coolly and pretended not to know anything about it, but he afterward restored himself in favor by issuing an order rebuking Mr. Kinder and his associates for their presumption and forbidding them to introduce any more new fangled foreign notions into China. Shortly after he secretly petted them on the back and raised their pay.

The excitement quieted down and was soon forgotten. Then Mr. Kinder got up steam in his clumsy old engine again and was allowed to run it without interference. Later a couple of regularly made locomotives, were imported from Europe and have since been hauling the coal trains on that road.

ELECTRIC SPARKING.

Light on a Puzzle That Has Worried Many Car Owners.

It is a sad and common experience to men in motorboats, automobiles, etc., to find that something is wrong with the spark. Often it is the case that when the spark plug is taken out and tested in air it shows up all right, and will ignite gasoline poured around it, but when put back into position it will not work. This is a puzzle to a great many people today.

The reason lies in the simple fact that the spark, when it takes place in the cylinder, has to spark in compressed gas, and when in the air it doesn't. It is a well known scientific fact that the pressure of the gas determines how far a spark will jump under a given voltage. If the spark jumped a quarter inch in the open air and was placed in a vessel with most of the air pumped out, it would jump several inches; and, on the other hand, if placed in compressed air it would not jump more than a fraction of the quarter inch. Of course the thing to do in the circumstances is to get new batteries, and if so situated that it is impossible the two little terminals of the spark plug should be pushed closer together. Then the spark will pass in the compressed gas inside the cylinder.

If explosion does not take place then the spark is probably so small that it is wholly immersed either in air or in the gasoline vapor, and to have an explosion it must be immersed in a mixture of the two. The carburetor should then be tinkered with. The probabilities are that a part of the time explosions will take place and will be sufficient to keep up a forward motion at reduced speed.—Chicago Herald.

Literary Inspiration.

It is enough to stun and scare anybody to have a hot thought come crashing into his brain and plowing up those parallel ribs where the wagon trains of common ideas were jogging along in their regular sequence of association. A lyric conception hits me like a bullet in the forehead. I have often had the blood drop from my cheeks when it struck and felt that I turned as white as death. Then comes a creeping as of centipedes running down the spine, then a sudden flush and a beating in the vessels of the head, then a long sigh and the poem is written.—Holmes.

Sad Camels.

It is a well established fact that even young camels never play. They are born sad, and thereafter their life is one protest against being made to work, although work has been their portion since the beginning of the memory of man. How largely they have been domesticated from the earliest times we know from the statement that Job possessed 6,000 camels.—London Opinion.

Crime Cut Two-thirds.

Prohibition in Portland Leaves the Wheels of Law Idle. Grocers and Dry Goods Men Benefit

One month of prohibition in the State of Oregon has apparently won over the "Portland Oregonian" a newspaper which was none too friendly to the measure prior to its enactment. It now sums up the result as "All well and then some" in the city of Portland grocery stores have replaced saloons. Firms are improved, more money is in circulation for groceries, dry goods and other staple articles, according to the statement of C. C. Colt, President of the Portland Chamber of Commerce, and others. Assistant City Attorney Stadder says "One can mention a thousand things, it seems, cured by Prohibition." "It is safe, to say that 80 per cent of all crime involving liquor" is the treatment of Judge Stevenson, retiring police court magistrate of Portland. For nearly every crime committed he has repeatedly heard the single excuse "Judge, I was drunk when I did it." The comment of all the Police Officers is similar. Arrests for January, 1915, were 1,774 and in December, 2,004; in January, 1916, when Prohibition commenced, there were 776. The value of Prohibition to the safety first movement is shown in the statement of Harry P. Coffin, Chairman of the Public Safety Committee of Portland. "Last December," he says, "we had 13 cases of driving motor cars while intoxicated; this month we've had none. Accidents have been decreased. Reckless driving has been reduced by Prohibition from 21 arrests in December, to five arrests in January, and speeding has dropped from 41 cases in December to nine this month."

Dunnville Agricultural Students Organize

On the closing day of the Dunnville Agricultural Course conducted by the Department of Agriculture, Cayuga, members of the class organized themselves into the East Haldimand Junior Farmers' Improvement Association. The following officers were elected by a vote of the class: President, B. B. Havill, South Cayuga, No. 2. V. C. President—E. J. Hamilton, Dunnville, No. 5. 2nd Vice President—F. J. Serge, of Dunnville, No. 5. Secretary Treasurer—L. S. Ricker, Canfield, No. 2. Board of Directors, C. W. Misener, Dunnville, No. 2; F. J. Newman, Dunnville, No. 7; J. A. Loughy, Dunnville, No. 2; C. G. Ricker, At. c. ffe Station No. 1; W. E. Baldwin, Attercliffe Station, No. 1; H. Lyons, Dunnville, No. 7.

This Association has for its objects the investigation of the most modern agricultural methods recommended by experiment stations and the testing out of superior varieties of grains and seeds for the County. A number of experiments have been planned for various members of the Association covering cow testings, spraying of potatoes for the control of blight and insects, proper methods

of cutting potato tubers for seed, manuring vs. sugar mangles for venage of feed per acre.

There are over seventy young men in the County of Haldimand at the present time that have taken agricultural instruction in classes organized by the Cayuga Agricultural office.

It is the purpose of Mr. Wells, the representative of this office, to have each of these young men perform some experiment or carry on some line of original investigational work with regard to certain phases of agriculture. At the conclusion of the year there will be a general rally of these young men at which results of this investigational work will be given by the investigators and later published in bulletin form for distribution over the County. This is very important work from the standpoint of the agriculturist and should receive the hearty support of every one interested in the uplift of rural conditions.

St. Paul's Church

St. Paul's Rectory,
Jarvis, Feb. 23, '16.

Dear Friends,—

Whilst we have been meeting every Friday night for penitential prayer and intercession, the coming season of Lent (March 9 to April 23) bids us do so with redoubled vigor and earnestness.

I hope on the Sunday mornings in Lent to address you on the subject I commenced last year, viz: "The Communion Service and our part in it." On Friday evenings we will continue our present War Intercessions, and study the morning and evening prayer of our Prayer Book.

A faithful attendance and attention at these services, with their practical subjects for study, should result in much profit and spiritual benefit to ourselves, and make our services before God more intelligent and more fervent.

We must further remember that the season of Lent is essentially one of discipline and self-denial. Let us not forget this wise and loving counsel of our Church and try to follow it out in some real way. What can we give up which will mean a real self-denial to us, and what can we do for others which will help them and at the same time be a discipline to ourselves?

I earnestly ask you to co-operate with me in this Lenten endeavor of 1916.

Faithfully, your Rector,

J. HIRST ROSS.

The One Reason

Above all others in this February Sale of Linens, Cottons, Bedding, Blankets, Mattresses, Beds, China, Silks, Furs, Coats and Suits, Trunks, Suit Cases and Hand Bags, Prints & Wash Goods, Cotton Bats, Yarns, Underwear, Men's Wear, Etc.

- WE have the most Merchandise but it isn't that,
- The largest variety, and it isn't that,
- The lowest prices, but it isn't that either,
- The most pleasing exhibition, but that isn't enough,
- All these are merely superlatives.
- The doing better, what some other Store might do, not enough.
- BUT, our February Sale is dependable, and people know it, and that's the main Reason.

The only Argument we have for this Store is Quality and Reliability. If the buyer is set solely upon cheapness in price, irrespective of quality.

PLEASE EXCUSE US

Merchandise must have integrity and so must the merchant when he speaks of the goods and fixes the price. The Pilot of FAIRLY BIG and EVER INCREASING BUSINESS will not sail in business fogs or shifting winds, being bound to steer undeviatingly by a chart upon which the lights are always plain and over a course laid down by long experience which assures perfect safety to all who takes passage with us.

The LAST DAYS of Falls February Sale of Furniture, Carpets and Rugs

It is never a part of the policy of this Store to cry the alarm. Our goods are not the kind that need "Rushing." But, when higher costs of goods become inevitable, it is our duty to tell our customers so that they may provide in time.

Furniture prices have gone up. Carpet prices have gone up. Rug prices have up. They have gone up even since this February Sale began. The reductions shown upon the price tickets in this Sale are from the

old market value, and there is every sign that the people know it.
