QUEER HAWAIIAN NAMES.

Such as Mrs. Oyster and The Man Who Washes His Dimple.

The natives of Hawaii are singularly picturesque in their choice of names. Mr. Schissors, The Thief, The Ghost, The Fool, The Man Who Washes His Dimple, Mrs. Oyster, The Weary Lizard, The Husband of Kameia (a male dog), The Great Kettle, The First Nose, The Atlantic Ocean, The Stomach, Poor Pussy, Mrs. Turkey, The Tenth Heaven, are all names that have appeared in the city directory.

They are often careless of the gender or appropriateness of the names they take. A householder on Beretania street, Honolulu, is called The Frisky Woman (Wahine Maika); a male infant was lately christened Mrs. Tompkins; one little girl is named Samson; another, The Man; Susan (Kukena) is a boy; so are Polly Sarah, Jane Peter and Henry Ann. A pretty little maid has been named by her fond parents The Pig Sky (Hale Pua). For some unknown reason—or for no reason at all—one boy is named The Rat Eater (Kamea Ole Ole).

The Rev. Dr. Coan of Hawaii possessed the love of his flock. One morning a child was presented for baptism whose name was given by the parents, Makia; when the ceremony was finished the parents assured the doctor that they had named the baby for him. "But my name is not Michael," said the doctor, supposing Mikia to be aimed thereat.

"We always hear your wife call you Mikia," answered the mother. She had mistaken Mrs. Coan's familiar "my dear" for her husband's given name.

An old servant in Dr. Wright's family at Kohala caused her grandchild to be baptised in church, The Doctor (Kauka); that was its only name. By way of compliment to the early physicians, many children were named after their drugs, as Joseph Squills, Miss Rhubarb, The Emetic, The Doctor Who Peeps In at a Door.

Names uncomplimentary, or even disgusting, are willingly borne by their owners; others convey a pleasing and graceful sentiment. Among the latter are the Arch of Heaven (Ka Ria Lani), The River of Twilight (Ka Wia Liala), The Delicate Wreath (Ka Lei ma Lili). The name of Liliu O Kalani, the queen now in retirement, means A Lily in the Sky.—Youth's Companion.

WALKING FOR SPEED.

Arm Action, Body Balance and the Proper Leg and Foot Motion.

In starting on the track the novice should hold himself as erect as possible, without, however, leaning at all backward, the arms at the sides, with the forearms in a horizontal position, at right angles to the part of the arms above the elbows. He should have a feeling of being "well balanced on his pins."

The weight must be kept on the heels—therein lies the chief secret of walking fairly. Speed depends on two factors, the length and the frequency of the stride. Experiments prove that the length of the stride becomes greater as the frequency increases.

Arm action should be carefully cultivated. Properly used, the arms seem to act as levers to lift forward the body, besides helping to balance it. In each stride one foot should be always on the ground and at same moment of the stride some part of both feet should be on the ground simultaneously—that is, the first necessity. Second in importance is to have the walk "heel and toe"—that is, the heel of each foot should strike the ground unmistakably first and the toe of each foot should be the last part to leave it. One should not walk flat footed, with the ball of the foot or any part except the heel striking the ground before the heel does. Lastly, the knee should be "locked" at the end of each stride—the grounded leg should be stiff and taut as the loose leg swings out for the next stride.—Outing.

Story of a Dream.

Of course the medical sharps know it all, but let me tell what happened to me. I had a strikingly vivid dream in which I saw and spoke to a dead friend, and she emphasized what she said by laying her hand on my hair, a trick the dead girl had when living. The subject of her speech has no value. But when I woke I could almost feel her touch still. In a day or two I noticed my hair looked queer where she touched me, and it faded until I had four bars, almost white, across my red mop, just such as would be made by four fingers.—Letter in New York Times.

Homemade Rat Poison.

Farm and Fireside gives the following recipe for homemade rat poison: Barium carbonate is a poison which in small quantities is harmless to the larger domestic animals, but will kill rats and mice. Mix four parts of meal or flour and one part of barium carbonate and place where the rats will find it, or mix ordinary oatmeal to a stiff dough in water, with about one-eighth its bulk of barium carbonate.

Tracing a Thief.

A burglar who broke into an antiquary's shop in Paris was identified by means of a small strip of skin torn from his ear by the broken glass of a showcase. The piece of skin was preserved in a bottle of spirits, and it fitted on to a fresh scar on the man's left ear.

Catty Comment.

"When I have anything to occupy my time, I hate to have a lot of foolish men hanging around me."
"You are never idle, are you, dear?"
—Baltimore American.
