The Lake of the Woods

AT KENORA:—
 (1) Yachting. (2) Diving and Swimming.
 (3) A Regatta Day.

THE Lake of the Woods, along the line of the Canadian Pacific, is a fascinating link in the chain of lakes between the boundless waters of Superior and the golden grain of Manitoba prairie.

With nature's own loveliness as a recommendation it stands unrivalled in the estimation of the many who yearly visit its island-crested waters and plunge into the pure unadulterated delights which it affords.

Kenora, a town of growing importance in lumbering, mining, flour milling and fishing, possessing a population of 6,000, occupies on the north shore of the lake and holds the unique position of gateway to this attractive body of water.

Keewatin, whose flour milling industry has made the name a household word in the Dominion, fringes the lake three miles distant. It is a mecca for the summer-seeker who has built his artistic and attractive home in the splendid shore line and on the islands adjacent.

For some 20 miles this richly adorned sheet studded with over ten thousand islands stretches along the border line between the provinces of Ontario and Manitoba and the state of Minnesota.

These water fringed bits of land vary in size from a few square feet to several square miles and are richly timbered with spruce, pine, birch and poplar. The northern portion of the lake covers an area of 2,500 square miles. From the middle of May until the end of October, the months are panoramas of beauty to the camper, the lake voyager, the sportsman and hunter who visit this aquatic wonderland. 1,077 feet above sea level.

A few car strokes from Kenora you can rough it in the woods or if you wish to enjoy life more leisurely, an up-to-date cottage can be secured.

Fishing is a very popular pastime for the men, women, and children each season. In the numerous nibbling preserves are found pike, pickerel, rock bass, trout, maskalonge and sturgeon. During the autumnal months exciting raids are made upon the wild duck, geese, and partridge, while enthusiastic hunters.

Coney Island with a shore line of seven miles lies but a ten minutes' glide from Kenora. It is the summer residence of over three hundred people. It possesses a large natural park, a portion of which has been fitted up as playgrounds for children. Kenora Park, a large wooded tract of land, has been set aside for pleasure purposes. Kenora Trap Association Island is a much frequented spot and is open not only to Kenora residents but to the summer guests who come within her gate. Kenora Rowing Club and Keewatin Yacht Club are the rendezvous of many from town and the island. Here the social side of life is indulged in by the weekly dance or the local water races. Regattas and held at intervals during the season, many regatta events being entered from different portions of Canada and United States, a carnival of sports continuing several days. Steamers, launches and various craft cruise about the lake daily and for a small fee the visitor can make a trip of several hours in and out among the islands of the lake. For a long cruise, the steamers "Kenora" and "Arwinda," well-appointed and commodious, leave Kenora twice during the week for Rainyriver and Fort Frances. The Steamer "Kathleen," a popular boat, nips the river, return being made to Kenora same day in sufficient time to permit the traveller to entrain for the east of the via the Canadian Pacific Railway.

Even when the summer is gone it is a great delight to visit the Lake of the Woods district in the Fall.

The Jarvis Record

ISSUED WEDNESDAYS.

We are at all times pleased to receive local news. Send or bring in the facts, we'll do the rest. The comings and goings of Haldimand and Norfolk people are always welcome items of news.

If you wish your address changed, give old as well as new address.

ADVERTISING RATES.
 Yearly contract rates on application to publisher.

Reading Notices.—No reading notice advancing any entertainment or matter by which money is to be made by any person or cause will be inserted in The Record without charge, except when the job-work for the same is executed by the Record Job Department, when extra small reader will be given gratis. The price for the insertion of business announcements is five cents per count line each insertion.

Notice to Advertisers.—Changes of copy for contract advertising must be in the hands of the printers by Monday noon at the latest, each week.

While willing at all times to do what is possible to accommodate patrons, we must, in justice to them and to ourselves, insist on a strict enforcement of this rule.

Judicial, Legal, Official and Government notices.—Eight cents per line (12 lines to inch) for the first insertion, and five cents per line for each subsequent insertion.

Small Ads. Condensed advertisements of such a nature as "Lost," "Found," "Situation Wanted," "To Rent," "For Sale," etc., not exceeding six lines 25c per insertion; 5 insertions \$1.00.

Advertisements ordered for insertion without written instructions will appear until written orders are received for their discontinuance.

The Bar Is Gone

No more will we stroll up to the bar,
 And say a little to each my boys,
 'Tis drinks are all on me,
 No more will we waste our dollar in
 such temporary bliss;
 No more will I fall to such a sin
 As to hear the siphon hiss!
 No more will I meet a funny chap
 'Well never see again!
 No more will I say a "funny" yarn
 And laugh as if insane,
 No more will I stagger out to lunch,
 Then to some silly show,
 No more will I wander with the bunch
 No carfare, no fare, no go!
 No more will I sprawl upon the lawn
 (And jay sidewalk, too),
 No more will I poke the door to find
 A place where key will do!
 No more will I lurch into the hall,
 And grope for match and light,
 No more will I bump into the wall,
 And mumble: "Lord, I'm tight!"
 No more will I tramp the creaky stair
 At three or for a m.
 No more will I wonder "Why?" and
 "Where?"
 When someone coughs "Ahem!"
 No more will I sink to jumpy sleep,
 And wak' to find a peach!
 For this cold water—"Ah, my boy!"
 No more will I come "a peach!"
 No more will I make a bluff to eat
 When breakfast time comes round;
 No more will I push from us the meat
 To groan with sickly sound!
 No more will I wonder: "Where's the
 change?"
 "Our pocket ones was fined,"
 No more our tongues will have the
 sting!
 No more arrested—w—fined!
 No more will I fool ourselves with
 booze,
 And wreck our constitution;
 We'll have a good old sober snooze;
 No more that resolution!
 No more will I have the fuzzy brain,
 And think we're talking straight,
 Once more we'll have a ming that's
 sane!
 "Gimme a 'peach' hosphate!"

Pro-Belgia

The Relief Work for the Belgian Victims of the War, of whom the President is the most devoted General Consul at Ottawa, is editing for some weeks past, the paper "PRO BELGICA" printed in two languages.

This paper discloses the painful condition of the Belgian people so worthy of admiration and shows what Canada is doing for its relief. It is very interesting to observe the manner in which the subscriptions received for the relief of Belgium and French populations of the invaded departments are employed.

The subscribers of "PRO BELGICA" are not only acquainted with all that happens in Belgium, they also contribute to the revivification of this unfortunate country for all receipts of the paper are paid into the receiving office of the "RELIEF WORK," the amount of the subscription is but one dollar which can be sent to the Management of the paper, 119 St. Luke, Montreal.

Give your subscription for "PRO BELGICA" it is a mere trifle, but it is for the relief of the destitute Belgium.

HANDLING FREIGHT on the PACIFIC

THE port of Vancouver is making rapid strides towards becoming one of the finest on the American continent. Many improvements are being made in and about the harbor to meet the requirements of the tremendous and growing commerce that is carried across the Pacific Ocean. Shipbuilding is being taken up with success and enthusiasm. Piers already are being extended and new ones built. The Canadian Pacific Ocean and Steamships Company is the leader in the ranks of progress. Just now they are doing much to aid to the equipment of the already well equipped harbor at Vancouver so that passenger and freight traffic may be conducted with the utmost speed and convenience. They have recently let a contract for a huge sum for the deepening by 30 feet of the water-front between their sheds Number 2 and 7. This improvement will allow the most gigantic of ocean going vessels to berth in comfort.

On Saturday, August 26th last, the Canadian Pacific Liner "Empress of Asia" docked at Vancouver, after one of her voyages from the Orient, carrying passengers, a heavy consignment of mails, and 5,400 tons of freight, which included 1,005 bales of raw silk valued at \$4,000,000. This silk was conveyed by special train to New York. In addition to what has already been mentioned the "Empress of Asia" carried a large quantity of waste silk, 3,100 cases of rubber, and a big quantity of tea. The cargo, which is stated to have been the richest that ever crossed the Pacific, will give some idea of the importance of Canadian Pacific shipping at Vancouver.

The derricks and wharves are kept busy loading and unloading the import and export freight, and realizing the great utility of these machines the Canadian Pacific Company has introduced the latest and best into its system.

Photograph 1 shows a vessel loading. The derrick to the left of the picture has a capacity for lifting 15 tons and that to the right has a capacity for lifting 50 tons. Both are operated by electrically driven motors. The 15 ton derrick, which has a beam of 50 feet, is capable of lifting fifteen tons from the second track along the wharf to the vessel's hold. The 50 ton derrick, which has a beam of 80 feet, can handle lifts direct from cars on any of the three tracks direct to the vessel's hold. This derrick has been recently installed.

The second photograph shows a 15 ton derrick (on the left) taking a two-ton lift out of a gondola car on the second train track. This lift is being taken over a box car. The 50 ton derrick (on the right) is hauling an eight ton lift in the shape of an underframe for a Russian box car.

Photograph 3 shows the 50 ton derrick swiveling a Russian box car underframe from car to vessel. Large cases on the dock shown in this picture are made up of cotton lint, which in size average about 33 cubic feet each.

From these pictures it will be seen that the Canadian Pacific have provided every possible facility of the most up-to-date type for handling heavy freight at its Pacific terminal.
