Phenomenal Strides Made By Canadian Northern Railway System In First Year As Transcontinental

New Systems in the Past Year Carried Approximately 131,000,000 Bushels of Wheat, an increase of 125 Per Cent. Over Previous Year, Company's New Mileage on Pacific Coast and Northern Ontario Makes Astonishing Showing Right from Commencement of Operation. Company's Lines Most Favorably Located.

From Our Own Correspondent Toronto, Feb. 12.—The phenomenal gains that the Canadian Northern Railway reports for its year as a transcontinental line makes the statement one of the most important that has ever been issued by any railway in Canada. It is even doubtful whether the tremendous increase in business handled have even been duplicated by any system in the world.

Right along it has been the contention of Sir William Mackenzie and his associates that it was only a matter of a very short period before Canada and the Empire would enjoy the benefits of the big system that had been built up across the Dominion, and the showing made in the report indicates that these hopes have been realized much earlier than it would have been thought possible when the transcontinental system was set in operation a little over a year ago.

IMPORTANT GAINS OF YEAR. A few of the outstanding features of the report are as follows: An increase in freight traffic during the year of 35.7 per cent., equivalent to an increase of 45,727,246 or a gain of 12.5 per cent.; an increase in total operating revenue of \$5,644,368, or 36.31 per cent. over the previous year.

COMPANY'S EARNING POWER. The development that is sure to be most favorably received by everybody who is following the growth of the larger Canadian railways will come from the fact that the Canadian Northern Railway has
