Order Complains of Failure and Poor German Morale at Verdun.

London Cable.—Again the British forces fighting in France have attacked German positions at several points

South of Arras the German line was penetrated deeply on a front of about 650 yards and southeast of Ypres on a front of about 500 yards.

There is still considerable artillery activity by both the Germans and the British in the region of Verdun, but elsewhere along the line held by the French there have been no new developments.

The official report from headquarters in France reads: "Successful enterprises were carried out by our troops last night on different points along our front.

The enemy's trenches south of Arras were entered by us on a front of some 650 yards. Our troops penetrated deeply into the enemy's position, inflicting many casualties and capturing 44 prisoners.

The operations at Verdun from October to the present have resulted in serious and regrettable reverses. Incapable officers must be ruthlessly removed.

THAT CHAMPAGNE "VICTORY." Berlin cable via Sayville says—The ground captured by the Germans in the Champagne in the vicinity of Hill 185, south of Ripont, last week, was a well-fortified position which dominated a large amount of surrounding territory and formed one of the pivots of the French line in the Champagne, says the semi-official Overseas News Agency.

GERMAN SUBMARINE MENACE CAN BE BEATEN BY BRITAIN

Sir Edward Carson, First Admiralty Lord, Tells Story in Commons.

Stirring Incidents Recited Showing the Hun U-Boat Losses.

Table with 3 columns: Date, Shipped, Tonnage. Rows for Dec, Jan, Feb, Total ships arriving and leaving United Kingdom ports in the first eighteen days of February.

London Cable.—Discussing Sir Edward Carson's speech on the submarine issue, the Parliamentary correspondent of the Times writes: "Sir Edward Carson, introducing a short review of the carrying activities of the navy up to October 30, 1916, which may be summarized thus: "Personnel, 8,000,000 men. "Explosives, 420,000 tons. "Stock and wounded, over 1,000,000. "Horses and mules, over 1,000,000. "Livestock, 4,500,000 animals."

There were no casualties to the patrol boats and no survivors of the submarines. One of the reports received of this engagement seems to show that one submarine was sunk, but left a degree of doubt about the second.

CONFIDENCE IN JELlicOE. The vote for 400,000 men, which the Government was asking, demonstrated the strength of the navy. He expressed the opinion that the country was extremely fortunate in having Admiral Jellicoe at the head of the Admiralty. In his record of service and experience, Admiral Jellicoe occupied a unique position.

TO RUSH SHIPBUILDING. Referring to shipbuilding, Sir Edward said that not a single ship would be left uncompleted during the coming month and that steps would be taken to meet the demands in this respect.

40 ENCOUNTERS WITH U-BOATS. Raising the veil for a moment on the grim drama of hunter and hunted, the First Lord quoted the fact that the navy has had forty encounters with submarines in eighteen days. This in itself was an enormous achievement.
