DOING IT NOW!

The WEST-END Shop

To the Public

I wish to announce that I have opened a first-class Butcher Shop on the stand formerly occupied by Mr. George Highwood.

My ambition is to serve the public with the best of high grade meats, and with a service that will be satisfactory to everyone.

A CALL SOLICITED

FARM TOOLS

We search out the best Farm Tools of every sort and make it worth your while to come to us for whatever you want.

Samson Farm Tools

ROPE !

You already know from experience that it pays to use the best goods. Just as we know that it pays to sell the best.

We can give you better value in Plymouth Manilla Rope because we can sell you whatever length you want for little or no more than you must pay for other kinds and because you will find Plymouth far stronger and more durable.

The Plymouth Cordage Company doesn't make any second grade.

E. T. CARTER.

Call the Flock

The urgent need of conservation demands that all poultry not paying its way in either eggs or growth be killed for eating.

The present high prices of feed also make the keeping of such classes of poultry de jure unprofitable as well as unpractical. Therefore, for your own good and for the good of country, kill them.

There are in every poultry yard birds that have outlived their usefulness and others that will never pay their way, these might profitably be finished and marketed, not necessarily all at once but as soon as practicable, taking into account the market etc.

In these classes might be mentioned, in the order in which they should be disposed of, the following:

1. MALE BIRDS. The breeding season being over, all males should be finished and killed. It will cost \$2.00 or over to keep each male until next breeding season. Therefore, get rid of them, it will also be better for the layers, the eggs and the growing chicks.

2. TURKEYS AND WATERFOWL. Toms and turkey hens, geese and ducks, not absolutely needed for next year's breeding should be disposed of.

3. HENS. All hens of the heavier classes that are 2 years old and over might better be marketed now. In even the light classes many of this age ought to go. Others that are laying but that are not worth keeping for another year should be kept until the egg yield does not pay for the feed. Better still keep culling out those that show signs of early moulting as you go along.

The best of the one and two-year-olds of the lightest breeds might pay to keep all summer but only the year-olds should be kept over winter and even these will stand culling fairly closely.

4. BROILERS. If broilers are early it pays best to sell the cockerels when two or three pounds in weight rather than to keep till heavier. This is especially so when the sexes cannot be separated and where the runs are small, the pullets will soon require all the room and green feed available.

Light breed cockerels should be sold early; it seldom pays to feed them to maturity.

5. ROASTERS. Don't leave the marketing of all roasters till late in the fall. Distribute the sale over as long a period as possible. Never market without finishing.

The Western Fair London, Ont.

The management of the Western Fair, London, Ontario, have this year added \$200.00 in cash to what was already a very liberal Prize List in the Poultry Department. This is the fiftieth year for this Popular Exhibition and the Board are making every effort to eclipse all previous Exhibitions, good as they have been. In order to do this, one of the first things decided was to have \$2,000.00 for this amount for their department, and have placed it on the list without adding anything to the entry fee. This will make a very attractive List, in fact one of the very best. Prize Lists, entry forms and all information may be obtained from the Secretary A. M. Hunt, London, Ont.
