The Late Pte. Chester A. Rodgers

Killed in Action on March 1, 1917, son of Mrs. Lois Rodgers, Hagersville.

The toll of war has again struck this vicinity in the announcement in Monday's issue of the death of Pte. Chester A. Rodgers, son of Mrs. Lois Rodgers, of Hagersville, formerly of Jarvis.

Pte. Rodgers was born in this vicinity some 37 years ago. He spent his youth and received his early training here. At the outbreak of the Boer war he joined the colors, proceeding with the Canadian troops to Africa and passing through the engagements with safety. Upon his return to Canada he settled in the West, farming in British Columbia and Alberta, and during late years railroading.

In June of 1915 he again enlisted for active service with the 56th Batt. at Calgary, later joining the Royal Engineers at Ottawa, and going overseas last spring. He has been in the trenches and his letters home were full of life and hope. His end came on Thursday, March 1. Particularly as to his death are unobtainable.

He leaves to mourn his loss his wife, a mother and two sisters, Miss Zelma, of Hagersville, and Mrs. B. Hair, of Renton. The bereaved relatives have the sympathy of the entire community.

Charles McQueen of Port Dover, will hold an Auction Sale of Farm Stock and Implements on Lot 1, Con. 2, Township of Woodhouse, on Thursday, March 22. John Deming is the auctioneer.

Letter of Appreciation

West Sandling Camp, Kent, Eng. Feb. 11th, 1917.

Dear Mrs. Saunders:

I was the lucky boy to get your socks and thanks for the same. I guess by this time you will have given up hopes of ever seeing me again. They were ever fine. I got them February 9th.

I am one of the Dunnville boys of B. company, Brock's Rangers. I suppose you know they are broken up. I am in the 3rd, C. R. Bn. but last week I got in a draft to go to the 4th Bn., France, so I am just waiting to go across to do my little bit. The boys of Old Brock's have been here just three months so far. I guess it is about time we were getting over in France to take a turn at the hot lead. There are quite a number of the boys who have been over there for some time. We had some very bad weather over here at first, rain and fog. I was commencing to think the sun never shone over here, but the last three weeks have been fine. It has frozen up and a little snow with a little sun shine makes things better and look like dear Canada, the land of milk and honey where I hope to be before another year goes by.

We are living in huts and we are all in good heart although we can't help thinking of home and our loved ones and hoping to be back with them again before many months. I will drop you a few lines from the trenches when I get over there. I hope you, your husband and family are in the best as I am. Once again I must thank you for the socks. I remain Yours very truly

Pte. Russel Degear, No. 737363, 4th Can., France.

P. S.—Keep the home fires burning until we come home. Excuse poor writing.

The above letter was received by Mrs. Joo. Saunders, of this place, in appreciation of a pair of socks received by the above member of the C. E. F.

Before Board of Trade

Toronto, March 19—Before the Board of Trade of this City recently Dr. William J. Jones, M. P. P. for Haldimand, made a strong plea on behalf of the farmers for cooperation by Municipal bodies to provide help during the coming season. The greatest obstacle towards achieving the result desired from increased production was want of help. If the cities were sincere in their propaganda to see a greater amount of foodstuffs grown on the farms Ontario during the coming season all interests should get together and devise means whereby help could be sent out. With the labor shortage as acute as it is today he believed much could be done if the need for this was well emphasized from a patriotic standpoint. One way of dealing with the problem was to organize a commission for getting better help to the farmer. Anything along that line that could be done would to some extent relieve the situation. The need was particularly felt in the southern section of the Province where there those engaged in fruit culture were severely handicapped in their work because they could not get the necessary help to secure the greatest return from their fields and orchards.

To meet a difficulty that has developed in many sections of the Province by the distribution of fowl seed in the refuse from the commercial fanning mills Dr. Jones was urging the Government to introduce a clause into the Municipal Act empowering county Councils, by by law, to pass regulations prohibiting the sale of fowl seed to farmers either as stock food or fertilizer. He points out that the growth of noxious weeds is spread in this way and has already received favorable consideration from the Government for his proposition and is hopeful that it may become law this Session.
