had the Jews?

Lesson VII. November 18, 1917. Nehemiah's Prayer Answered.-Ne-

Commentary.-I. Nehemiah's sad-(vs. 1-3). 1. Nisan—This was the first month of the Jewish sacred year and was also called Abib. It corresponds nearly to our April. It was four months after the prayer of Nehemiah which was included in our previous sson. Twentieth year of Artaxerxes -It is evident that in reckoning the years of the king's reign the Jewish calendar was not used, for Nehemia's prayer was offered in one year and the events of this lesson in the next. did the king ask him about his sadaccording to Jewish reckoning, and ness? Why was Nehemiah afraid? both events took place in the twentieth year of Artaxerxes. The king king ask him? What requests did Ne-hemiah make? Who was the keeper probably reckoned his years from the date of his ascending the throne. Wine was before him-It is a matter of history that the Persians were much given to wine. Gave it unto the king-Nehemiah "was the king's cup-bearer" (Neh. 1. 11). It was his task to care for the king's wine, to cleanse the drinking vessel in his presence, to **Pour out a portion of the wine into** his own hand and taste it, to be sure it was not poisoned, and to hand the cup of wine to the king. The position was a responsible one, and the cupbearer often became the king's trusted adviser. Had not been .. sad in his presence. The custom of the times demanded that the cupbearer never appear gloomy or sad in the king's presence, for if he did, the king might spect he was plotting against him. 2. This is....sorrow of heart-Artaxerxes quickly observed that his cupbearer's countenance was sad and correctly concluded that his heart was burdened with some great grief. Very sore afraid—It was an anxious moment in Nehemiah's life. The time and opportunity had come for him to tell the king what was the burden of his heart; and he could not discern what attitude he would take toward his servant's plan to build up the walls of Jerusalem and help his people. He might have feared that the king was too greatly prejudiced against the Jews to listen to his request in their behalf. He might have feared, too, that the king would think that he was plotting against him. 3. Let the king live for ever—This was a common form used in the salutation of reyalty. It expressed high respect for the king and was a fitting introduction to his reply to his question. Why, etc.—Nehemiah's question is full of pathos and meaning. There was great reason for his sadness, for the sacred city was largely in ruins. His noble heart, moved upon as it was by the Lord, could not endure to have Jeruvalem lie waste.

II. Nehemiah's request (vs. 4, 5). 4. For what dost thou make request -This question brought courage and mish did not count his duty done the following results as to composihope to Nehemiah. The king gave when he had in all humility confessed evidence of no pleasure with him, but the sin of his nation and entreated ed an interest in what interested him, and encouraged him to ask what substitute prayer for endeavor, though he wished. So I prayed to the God of he would not make an endeavor until heaven Because he had been praying he had prepared himself by prayer. before this, did not appeal to him as Fortified by humiliation and supplication, he sought to take advantage of any reason why he should not pray his position with the king and to rennow. It was a critical moment and he realized the need of direct help der that position useful to his counfrom God, hence he had instant recourse to prayer. 5. If it please the dressing to the mind of the king a motive for his journey which the monking-If the plan I have in mind arch could understand and appreciate. meets the approval of the king. If... found favor in thy night-Nehemiah had been praying for success in approaching the king, and he was now which even a heathen would defer. encouraged to believe he was favorable to him. Send me-His request involved more than a mere permission to go to Jerusalem; he wished to mindful of the duty of using all legibe sent thither as the king's messenger. That I may build it—He wished to go with full authority, and with means, to repair the walls of the city. III. The request granted (vs. 6-8).

The Apotheosis survival and near what coresight, patient energy and guired faths, sagacity and courage quired faths, sagacity and courage areset to be requests, the largeness the facilities granted him, all invested the king's bettion, the readiness of the king's petition, the readiness of the king's petition that he was a close think anyway."

"In a surver to his requests, the largeness the facilities granted him, all in 'ed that God had ordered events' the large-hearted sanct for his opinion and the large petition in the large-hearted sanct for his opinion and his opinions are such as a constitution of the petition of the pe The queen also sitting by him-It was not a publis banquet, for at euch a function the queen would not have been present. The mention of the presence of the queen may indicate that she was favorable to Nehemiah's request, for how long shall thy journey be-The details of the conversation are not required, but simply the decisions reached. It is not stated how long Nehemiah was gone from Shushan. Some suppose he returned in about a year, having completed the walls, and later acted as governor of Jerusalem for twelve years. Others think that at this time he remained that long, having obtained authority from Artaxerxes to that end. 7. Let letters be given me—Nehemiah took the precaution to make his journey as safe as possible, to the governors beyond the river-The Euphrates River is meant. The governors of the provinces west of the river were generally not well disposed towards the Jews. That they may convey me over-"That they may let me pass through." -R. V. Till I come into Judah-The request included the governors of all the provinces which lay between the Euphrates and Judah. 8. A letter unto Asaph. A still further request was made of the king. The material for the walls of Jerusalem was on the ground, but timber would be needed for the palace, or castle, connected with the temple area and for other purposes. The keeper of the king's forest-Forests were then highly prized. An officer was appointed by the king to care for them. The forest here mentioned is supposed to have been six or seven miles south of Jerusalem, yet its location is not definitely known. The house that I shall enter-The house in which Nehemiah, as governor, was to live.

9. gave tnem the king's letters-Nehemiah made use of the letters which the king gave him. It is not stated what route he took to reach Jerusalem or through what provinces he passed. He made use of the means within his power to make his undertaking a ccess. the king had sent captains .and horsemen-Ezra was ashamed (Exra 8:22), and trusted God for security; Nehemiah was no less a man of prayer and faith than was he, yet he accepted the protection afforded by

the king's army. These soldiers would

be of assistance in giving to Nehemiah

a standing among the people of Jerus-

alem upon his arrival there. 10.

This product, it will be seen, cononly that it was the sepulchre of his sists approximately of 50 per cent. fathers. That was an argument to wheat, 40 per cent. wild buckwheat (5 per cent. of which is hulled), 2.5 Deeply prayerful and dependent upon per cent, light oats, 1 per cent. flax seed and 6.5 per cent. weed seeds, chaff, etc., which may be classed as feed available and it gives satisfacrefuse.

complaints. The boys have been real good to me: I have got to respect Englishmen, which feat I never expected to accomplish. They're good to animals, aliens, kids, women and other hostages to fortune, and I have never found Squareheads giving way to similar weekness."

The average composition of wheat the pullets into winter quarters at and wild buckwheat may be given as

Wheat. Buckwheat Water ... 10.2 Protein 12.4 Carbohydrates 71.2 Fibre 2.2 Ash ... 1.9

Comparing these two grains, the wild buckwheat seed contains approximately four-fifths the protein of wheat, and is slightly richer in fat and has a much higher fibre content. In carbo-hydrates, the two ahe practically equal.

From analyses and study of wild buckwheat made in these laboratories in 1906, we concluded that this grain, while not highly nitrogenous or oily seed, is of fair feeding value and may be considered of special value for feeding poultry by reason of its comparatively lo wfibre content. Theoretically, wild buckwheat seed may be said to possess about 75 per cent. the

value of wheat for feeding purposes. Ground Buckwheat Screenings-The analysis of this sample has furnished the follonwig data:

Protein ... 11.84 Fat 2.07 Carbohydrates 64.53 Fibre 5.36 Ash 2.13 100.00

These results agree very fairly well with those which would be obtained from a mixture similar to the whole buckwheat screenings and we may therefore presume that this ground sample had before grinding essentially the same general composition as the sample of unground screenings.

It has a feeding value intermediate between wheat and wild buckwheat. From its composition it should prove an acceptable and valuable poultry feed, with only a small percentage of waste. It is sufficiently high in protein for general grain feeding, with a fat content not exceeding that of wheat—which may be considered an advantage for laying stock, that ration of which is usually enriched by crushed green bone or meat meal. The comparatively low percentage of fibre is a feature that enhances its value make use of high fibre feeds."

Now for the actual feeding results. From the very first the fowl took kindly to the ground screenings and ate it with relish. They did not take will throw it out and pick out the wheat, but where they have to eat the buckwheat before they can get the wheat they clean everything up just as they go and seem to make as good growth as they ever did on ordinary rations. The ground screenings are being fed to the layers three parts screenings to one part beef meal and production has never been better at this season than it has been this year.

Poultrymen may feel perfectly safe in buying this feed; it is the cheapest tory results.—Canadian Countryman.

inon proportion. Simply boil the water and then pour

The quantity of water varies according to the qualities of rice, but five parts of water to four of rice, or six parts to five, by volume, will be com-

HOW JAPS COOK RICE.

the rice, previously washed, into this boiling water, at the same time increasing the flame. The pan cover must fit the pan edge as tightly as possible and also must be a heavy one, enough to withstand the high steam pressure in the pan, and if it is not heavy enough, put some weights on it. Keep the fire strong. In three or four minutes the steam pushes out of the pan; but let the fire be strong for three or four minutes more, and hen, as quickly as possible, withdraw the blazing fire (in case of wood fuel) or make the fire very mild (in case of gas) and let the pan stand on little under fire or very mild flame for 20 or 30 minutes. Then remove the pan from the furnace and let it stand fourteen minutes more. This is all the

Rice thus cooked is very delicious to taste and may be exten by itself without any milk or sugar.

Rolls the old world ever right, dear-Sun by day and stars by night, dear; Here is a rhyme and here is a reason Still the red rose comes in season.

In the fields the toilers, sowing, Hear the harvest bugles blowing; Life, my dear, is joy and weeping. Sowing time and time for reaping.

Take thy task-if joy or sorrow; Still the dark will bring the morrow. In the storm the birds are singing. And the bells of heaven are ringing.

HAVE FAITH IN GOD.

Have faith in God. Whosoever shall say unto this mountain, be thou iemoved, and be thou cast into the sea: and shall not doubt in his heart, but shall believe that those things which he saith shall come to pass, he shall have whatsoever he saith. Therefore I say unto you, what things soever Bucks and culls shall believe that those things which ye desire, when ye pray, believe that ye receive them, and ye shall have them.-Without faith it is impossible to please him; for he that cometh to God must believe that he is, and that

Is anything too hard for the Lord? -With God all things are possible. Lord, increase our faith.

(By the late Rev. H. T. Miller.) This is an Anglo-Saxon word, very old. It means a cause, a suit at law, a purpose, claiming regard and reasonable respect. We read Noah walked with God. Come thou and all thy house into the ark, for thee have I seen righteous before me in this generation. I will establish my covenant with thee. Was it for Noah's sake that

his family was saved in the ark? The Egyptians were blessed for the sake of Joseph. Isaac was blessed for the sake of Abraham. Lot was saved for Abraham's sake, and Solomon was blessed for the sake of his father David, while Cyrus was called and blessed long before he came for Jacob's sake. How wonderfully is man related to man, and how high the standard of values in some men more than in others.

Paul says we are fools for Christ's sake, ourselves are servants for Jesus' sake. God for Christ's sake hath for-

Look at that storm-tossed ship with three hundred frightened passengers on board. Death stares them in the face, but there is one man there and the angel of the Lord finds him in the dark, saying "Fear not, Paul, Lo. God hath granted thee all them that sail with thee.'

Learn here, that no man stands alone, no man liveth unto himself. God has a right to every man. "All souls are mine." God sets a peculiar value on His own. He hides, conceals, reserves, calculates for them, is always ahead. When you come to a crisis you confess, God has been here

He delivers a ship, a city, a soul, after His own wondrous fashion. This ment, a defence, a purpose, a final cause. It gives to life its value, beauty, dignity and relation. their sakes I sanctify myself." If you will carefully look at the

prayers of Paul you will see how rich they are. How much superior and fuller the elements of true prayer are as compared with what is called the Lord's Prayer. In that prayer there is son. When he was well inside the room he seemed to recollect sometifing and removed his helmet.

A smile fliekered across the Brigadier's face. "Not this time, Corporal" he said. "You can keep it on." "Sorry, General," said the latter, replacing it, "force of habit, I guess. It took me six months to learn to take it off, and most likely it will take me another six to know when to keep it or." "Well, Corporal," said the General genially. "I have received a very good account of your behavior last Thursday, Your officer states that you showed great courage and determination, and that your conduct was very largely responsible for the success of the expedition."

"Well, General," replied the other, "I'm real glad to hear that, but I only did my duty as the Crown Prince relief to me."

"Well, General," replied the other, "I'm real glad to hear that, but I only did my duty as the Crown Prince relief to me."

"O'Sake", no intercessor, no Name, lict. "VanDyke says "Religion is a preson by a pexson." In the Lord's Prayer there is only mention of two. That prayer was for Jews and Jews only; it was the best and fullest the Master could give at the time. The blood had not been shed, the argument was not complete, the Holy Ghost had not been given, for Jesus had not been given, when you say at the end of every prayer, "This we beg for Christ's sake," you say what the disciples could not say. But now He has gone into Heaven and is on the right hand no "sake", no intercessor, no Name.

Squareheads giving way to similar weakness."

He saused. The Brigadier got up and shook him warmly by the hand. "What you have said has interested me very much. I'm proud to have you undering command, and shall certainly recommend you for the D.C.M., and if at any time you think of trying for a commission, come to me.

"Thank you very kindly, General." relied the Corooral. "as O. Henry, W. Shakespeare or some other purveyor of high-class fiction once remarked, when I set out to seek the bubble-reputation at the cannon's larynx, the only list I hoped to honor was the list of survivors; but I'll be proud to wear the ribbon, but as for the commission, I reckon I'd rather stay with the boys."

So saying he saluted and retired, still with a pleasant smile on his lips, his jaws still moving with a circular moliton, and a gentle odor of peppermint still emanating from his person.

"Well, said the Brigadier, "it seems to have been a very successful little show; they bagged both bridges, killed as good few Bulgars and got away with

The Use of Candy.

Pure candy is good for children. Pure sugar is good for grown people. Of course there are exceptions to every rule. If the doctor prescribes a diet and orders a patient to refrain from sweets the patient is bound to obey his adviser. What is the use of calling a physician and paying him for "sake" is an atmosphere, an argu with indifference? People in ordinary suggestions if the latter are treated health need not be afraid to gratify an appetite which craves sweets. Those the march hold out better if they have been telling us lately that soldiers on the marke hold out better if they have rations of sugar than if their food omits this useful commodity. A fondness for sugar is often a defense against the temptation to use alcoholic stimulants. The inebriate does not care very much about pure sweets.

Father of the American Navy.

A native born Irishman that the members of his race are particularly proud of is Commodore John Barry the "Father of the American Navy." He was born in Wexford, Ireland, in 1745. His father put him on a merchant ship before he was twelve years old, and at fourteen he was employed on a ship sailing from Philadelphia. He was a master of ships before he was twenty-one years old. When the Revolution began Barry was employ-You can say with boldness that He fleet which sailed from Philadelphia. ed by Congress to fit for sea the first Barry commanded the Lexington, which captured the first British war vessel taken by a regular cruiser. Blockaded by a superior British flect in the Delaware, he landed with his sailors and marines and joined Wash ington's army.—Detroit Free Press.
