Why Canada Needs More Money

UP to date the war has cost Canada about \$700,000,000.

Canada has spent in Canada over \$400,000,000 on her own account.

Canada has spent in Canada on behalf of Great Britain over \$300,000,000.

What Canada spends for Great Britain is really loaned to Great Britain and will be repaid or credited to Canada later on.

Great Britain needs so much ready cash to finance her own expenditures at home for herself and for our Allies that she must buy on credit from Canada, and from every other country where she can get credit.

Of course Great Britain's credit is so good that other countries, in order to get her trade, are quite as willing to give her credit as we are in Canada.

Canada wants to help Great Britain not only because Canada wants Britain's trade but because we are Canada and she is Great Britain—both members of the same great Empire, kin of our kin, our motherland.

For Canada it is both a filial and patriotic duty to supply Great Britain's war needs and remember, her needs are our needs. Also it is in Canada's self-interest to supply those needs and thus keep open a market for our products.

★ ★ ★

Now, Britain needs our wheat, our cheese, cattle, hogs, and many manufactured articles.

Canada also needs many of these things—between the two it amounts to more than a million dollars a day in cash.

And the producers must be paid in cash.

Neither Canada nor Great Britain could go to a Canadian farmer and buy his wheat or his cattle on credit.

The farmer and all other producers might be ever so willing to give their country credit but they could not do it because they have to pay cash for wages,

for rent, materials, etc. They must be paid in cash, or its equivalent.

So Canada says to Great Britain:—"I will lend you the money so that you can pay cash to Canada's producers for what you want.

"I will borrow this money from our own people just as you borrow money from your people.

"I will also borrow from the people of Canada money to pay cash for all the products that Canada, as well as Great Britain, needs in Canada."

That is Canada's practical, patriotic part in helping to win the war.

Without this credit the Canadian producer could not sell to Great Britain, and without these Canadian products the war would be prolonged.

So it is necessary for Canada to give to Great Britain the credit in order that Canada's own producers, who need a market, will have one; and in order that Great Britain which needs the products to win the war, will get them.

★ ★ ★

Now how does Canada get the money by which both Canada and Britain can pay cash for Canada's products?

By borrowing it from the people of Canada through the sale of Canada's Victory Bonds to be offered in November.

That is why Canada's Victory Bonds are offered to the people—to raise money to help to finish the war.

"Canada must keep her shoulder to the wheel even though it be a chariot of fire," and the way for Canada to keep her shoulder to the wheel is by buying

Canada's Victory Bonds

Next week this space will tell why Canada raises money by selling Canada's Victory Bonds

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

Deanery Meeting

A Deanery Convention of the Women's Auxiliary of the Church of England for the county of Haldimand was held in School Room of St. Paul's church on Wednesday last, Oct. 17. The attendance was large and the addresses were both instructive and interesting. Rev. Mr. Eley, of St. Catharines, a returned missionary from the North West, gave some graphical descriptions of a missionary's experience among the Indians. The meeting closed at 4.30 and was considered one of the most successful ever held. A barrel of fruit was contributed to the Indian Home at Sault Ste. Marie. The next meeting will be held at Dunnville.

Mrs. Bryce Allen received word from Toronto of the illness of L. Merrill with pneumonia.

Letters of Appreciation

To Mrs. Parsons.

Dear Friend,

I take great pleasure in writing you a few lines thanking you so much for the parcel I received on the 8th of Aug. I'm sure it is kind of the ladies of the Jarvis Institute to think of the boys. We all enjoy the parcels very and it helps to remind us of the good time we had 2 years ago. It all helps to cheer us up being miles from home and often in great danger, then the time the parcels show we are not forgotten. I am sure we will all be glad to thank the ladies personally and I hope we'll all be spared to do so, of course we know some must go under but we trust that there will be peace before the winter, but the allies are so determined to fight to a finish, which of

course is the only thing to do to have a lasting peace. Dear Mrs. Parsons I see by the papers, I have received, that two of the Jarvis boys have returned. Poor boys that were badly cut up but it must be a great joy to them to be back alive. I think I'll have to close for this time I remain,

Yours Truly
W. H. GIRLING.

France, Oct. 11, 1917.

Women's Institute of Jarvis.

I am just scribbling a few lines to say I have received the parcel that you sent me. Please accept my thanks for it as everything was very acceptable and it came O.K. I am getting along fine and am grateful to say I am in good health and I am standing the noise pretty good or it is certainly some noise. Eric Greer was the last one of our boys that got

wounded, but it was not serious. We are having grand weather over here but it is cold enough at nights though just like Canadian weather. Well dear friends I will close.

Yours Sincerely,
Lance Corporal Pettitt.

Don't Miss the Point!

There is a man in this part of the world who represents, to our way of thinking, a pretty good average of human nature. Whenever the preacher in his church delivers a very hot sermon against some special kind of sin, this man gets enthusiastic and goes around to the vestry to tell the preacher what a fine sermon it was. Then he goes home and repeats it to his brother, and they talk over the points and the people the sermon hit the hardest. But this particular man never sees when the sermon hits him.

Early next month the biggest public campaign ever put on in Canada will be opened to get subscriptions for the fourth Canadian war loan, the Victory Loan. The thing people in this district must bear in mind is: that the appeals are directed to each and every one of them. It is not merely the well off men and women who are being asked to invest. It is everybody. The little sermons which will be "preached" in the advertising should not be taken as hints to the well-to-do people only. Every man and woman should watch for these advertisements and start now to gather up the necessary money to buy either a fifty or a hundred or a five hundred or a thousand dollar bond. In the United States there were about 4 subscribers to the first American loan out of every 100 persons. They only received 34%. In Canada for the last war loan there were only about 4,000 subscribers or say 4 in every 700. Yet in Canada the interest was much higher—on the Victory Bonds that will probably be issued to yield about 3%.

The first thing anyone should do, in our opinion, is to get rid of the idea that there is any sacrifice involved in investing in this loan. It is true that the patriotic spirit is appealed to and it is equally true that a great and generous response is expected on that ground. But the new war loan is a straightaway business proposition: safe, profitable and convenient. Every man and every woman with as much as fifty dollars to spare should own one of these bonds, and not only that, but should help to show others the worth of these bonds by recommending them to every where. The readers of this paper are among the most thrifty, prosperous and public spirited in the Dominion. When the subscriptions to the Victory Loan are added up from the various districts and sub-districts we expect them to show that this part of the great Dominion has been true to its traditions and just to its opportunities.
