BRITON AND TURK

A Surprise, a Fair Fight and the Way the Battle Ended.

There is a story of Gallipoli that deals with a fight in the open and exhibits the "unspeakable" Turk as a fair and worthy enemy.

A young English officer, doing observation work alone, was suddenly confronted by a Turkish officer, similarly engaged.

Seeing that his adversary was unarmed, the Turk, threw to the surprise of the Briton, threw down his gun and put up his fists in approved prize ring style.

The men were about the same age, the same weight and had equal knowledge of the art of boxing.

Just then the Englishman's hand touched something. It was the Turk's pistol. He picked it up and handed it to his enemy.

TO LIVE IS TO BE WET.

Where There is No Water There Can Be No Life as We Know It.

All life is lived in water. Where no water is no life can be. The necessary machinery may have been already made, as in a completely dried seed, but that seed cannot actually live until water reaches it again.

When the supply of water is withheld from living things they may survive, but their life is slowed down, as it were. In the completely dried seed life is arrested altogether, yet the creature is not dead.

The astronomer tells us that our planet is only one of many belonging to innumerable suns, and he wonders whether this little "lukewarm bullet" of ours, as Robert Louis Stevenson called it, is really unique in bearing a burden of life.

Worth Knowing.

Whites of eggs should be cold if you want to beat them very stiff. It improves prunes to add a little cider to the water in which they are cooked.

Silver knives can be very well cleaned by a paste, made of emery powder and oil.

Always use cotton instead of silk when mending gloves. The cotton will not pull the kid.

Letting and green peas cooked together make a dainty spring dish. Few people know that lettuce is as good when cooked as spinach.

Fruit jars can be easily opened if you will take hold of the top with a piece of sandpaper.

One of the reasons why spinach is such a valuable food is that it is such an excellent butter carrier.

If you wish to make starch and let it get cold before starching the clothes, try this plan: After starch is made and while still hot, sprinkle cold water all over the top, as though you were sprinkling clothes.

Worth Remembering. To remove fruit stains from the most delicate colors, as readily as from white, wet the stain with camphor before putting in the wash.

To make new boots polish, rub them over with half a lemon and let them dry.

A baby's bottle should never be washed in soapy water. The moment it is empty wash it in cold water and then fill with a weak solution of borax, till needed again.

After your blankets have been washed and dried, beat them with a carpet beater. This makes the wool light and soft.

A chocolate stain can be removed nicely by soaking in kerosene and washing in cold water.

Wrinkles may be removed from clothing by hanging garments in the bathroom and turning on the hot water till room is full of steam. This will always remove wrinkles from crepe.

To remove paint from a dress take a camel hair brush, dip the point of it in turpentine and just dampen the stained parts. Let the garment dry, and then rub briskly when the paint will fall off in a dust. If it does not all come off repeat the operation.

RAILWAY POLICY IS CRITICISED

Acquisition of Canadian Northern Imposes Burden of Unknown Magnitude.

The following criticism of the policy of the Government in respect of the Canadian Northern Railway is made:

The Government bill to authorize the purchase by it of the capital stock of the Canadian Northern Railway is half way through the House of Commons and will shortly be in the Senate.

If it becomes law, it will impose on Canada, at a time when the country is under an unprecedented strain, a burden of unknown magnitude.

One certainly greater than any ever before imposed upon this country, with the exception of the war debt.

The purchase of a definite piece of railway property is one thing. The buying of stock in a company with unascertained assets and unknown liabilities is another.

Once the Government becomes the principal owner of the common stock, it must provide out of loans or taxes for all debts of the railway due or to become due and for all future losses in operating.

The estimates of expenditure still necessary to be made run into enormous figures. No one knows what the real extent of its obligations are.

The railway has bonds outstanding and debts unpaid; so have its subsidiaries. There are guarantees given by it to other companies, unpaid balances on contracts and upon accounts, but to what extent is unknown.

What its assets are is equally unknown. It operates and is interested in railway companies, land companies, telegraph companies, tunnel companies, lumber companies, and hotel companies, but no one knows how far it owns them, what their assets or liabilities are, nor to what extent the railway company is responsible for their liabilities.

No other railway company nor any other group of business men would consider such an acquisition except after elaborate examination and reports from accountants and appraisers on the assets and liabilities, and then only subject to a solvent guarantee that all supposed assets would be delivered and that no undisclosed debts or obligations would appear.

To find out these things, where such examination and guarantee cannot be had, the usual course in the United States has been to place the road in the hands of a receiver, whose staff can ascertain them and place them before those interested in an accurate and clear statement.

Systems quite as large, notably the Union Pacific, the Atchison, Topeka & Santa Fe, and the Rock Island, have in the United States been through this process and have emerged from it with capital written down to correspond to the actual values, in a solvent condition and able to perform their duties as public servants.

The only examination so far had into the affairs of the Canadian Northern has resulted in the opinion of two out of three railway experts that the stock proposed to be purchased was worth nothing.

This means that whatever its nominal value may be, the unsecured debts are more than enough to prevent its being sold to any reasonably prudent purchaser.

In view of the fact that no money was paid to the company for the stock and that the company has never been

cellent prospects, but after all is said, it is a business venture which should be allowed to face the consequences of all business ventures.

One thing is certain; the country should not be saddled with any avoidable liability. The debt created by the war is already large, and constantly increasing. New sources of taxation have to be tapped. The outlook is by no means bright in respect to the Dominion finances and before the additional obligation of taking over the Canadian Northern Railway is incurred, it is necessary at the least that we should know precisely what is being purchased in the way of asset, and what is being incurred in the way of liability.

Joy of Pockets. The pocket has to be lacked before it is properly appreciated, the London Chronicle says. This writer had taken his pocket as a matter of course until one evening he attended a fancy dress ball in costume, which he discovered was absolutely pocketless.

The question at once arose what to do with pocket handkerchief, money, check-room ticket, and so on. The handkerchief, of course, went up his sleeve, but it took some minutes to devise receptacles for coins and other necessities in the lining of the cap, the heels of the shoes and the cuff of the coat.

All night long, however, he felt lost through having no place to thrust his hands into. Since then he finds himself frequently putting his hands into his pockets to experience the sheer joy of knowing that they are there.

PLAN GREAT STRIKE. U. S. Metal Workers May Back Shipyards Men.

New York, Aug. 20.—Labor leaders in charge of the strike in shipyards of the New York district to-day asserted that 250,000 metal workers in various parts of the country would be asked to declare a sympathetic strike unless a settlement is reached to-day.

A meeting of labor leaders, to be held in Tammany Hall to-morrow, is expected to take formal action seeking to extend the strike; it was said.

According to those in charge of the strike, the plans include taking out men all the way from Seattle, Wash., to the Delaware River. The meeting to-morrow will be attended by officials of the international unions involved, Machinists, blacksmiths, boilermakers and patternmakers.
