Waste Not—Want Not

Food waste in war time is a crime. People in Europe are starving for food. Belgium is devastated and the crusts Canada throws away would be picked out of the dirt and eaten by the starving Belgians, Serbs, Poles and other unfortunates of the war zone.

Canada wastes an enormous amount of food every year. The statistics gives \$50,000,000 as a conservative estimate. Expressed in wheat at \$2 a bushel, this would be 25,000,000 bushels, whereas we are asked to save but 12,000,000 this year out of normal consumption. Expressed in meat at say 40 cents a pound it would be 125,000,000 pounds, or enough to supply a Canadian army of 500,000 men for 200 days.

The bones thrown into garbage pails every day contain the essence of hundreds of plates of soap.

The bread thrown there every day is a waste of thousands of loaves.

No bone should leave the kitchen until every scrap of marrow has been boiled out of it; no scrap of bread should ever be thrown away.

The woman who wastes a crust, wastes the war effort of the farmer, the miller, the storekeeper and the transportation and the delivery men. This is a time when every man's work is valuable to the country to supplement the invaluable work of our soldiers.

Watch everything. Watch against waste in the kitchen and in the pantry. Watch against waste in the cellar and in the dining room. As much food is wasted in the eating as in the cooking.

3-Cent Postage Stamps

It is officially announced by the Dominion Post Office Department that the special three-cent stamp issued to commemorate the 50th anniversary of confederation is to be put on sale Sept. 15. The stamp consists of an engraved reproduction of Harris' well known painting of the Fish-ers of Confederation. It is beautifully engraved and its size is somewhat similar to the Quebec tercentenary stamp of 1908. Said stamps are in circulation in this vicinity although the Jarvis post office has as yet not received any but expects to in the course of a few days.
