DAZEY GLASS & METAL CHURNS PAY FOR THEM SELVES

THE DAZEY is the Speediest Churn Made

It makes rich granular butter in from 3 to 10 minutes. It's simple in construction and runs so easy a child can do an ordinary churning. You can clean the DAZEY just like an ordinary jar, because it has no bearings or rough surfaces inside and all receptacles are free from frames or gearing. By actual test the DAZEY has made from the same quantity and quality of cream 5 per cent more butter. Just think what that means on increased butter yield and profits! The DAZEY makes rich granular butter of uniform size grains—butter that is firm and solid—butter that can be washed entirely free of milk right in the churn—no butter you don't have to work. By the DAZEY principle the water and milk is squeezed out in the building up of the globules into grains. You will have to use one to appreciate its true worth in the saving of labor and time. We want to show this churn to you. Made in many sizes of glass and metal.
