**So easy—so quick—so cool**

A little pressure of the fingers, a match—and your fire is there—another pressure of the fingers and it is gone. Instantly ready when wanted—instantly gone when you are through with it. That is half the comfort of a McClary Gas Range.

The other half is that you have only just the amount of heat you need and no more—in just one spot—where you require it—not all over your kitchen. Then there is no stooping—work at a convenient height.

A splendidly illustrated booklet describing all McClary gas cooking and heating appliances is sent free on application.

**(CONTINUED FROM PAGE 1)**

branch thereof across or along any street or lay granolithic, macadam, pave, boulevard or improve any street or do any public work whatsoever on any street where any of the Company's mains, conduits or pipes are laid the Company shall forthwith at its own expense elevate, lower, change or remove such mains, conduits or pipes or any of them as requested by the said Council so that such sewer, drain, ditch or branch thereof may be laid, built, lowered, altered or constructed or that such street may be macadamized, paved, laid with granolithic or otherwise improved or such public work or works may be done at the point or place determined upon by the said Corporation.

(f) In the event of any leakage of gas occurring in any pipe or the laying thereof the Company shall forthwith after notice repair such defect.

(g) All mains, pipes and conduits shall be laid not less than six inches below the surface of the said street unless otherwise directed by the permission of the Municipal Council of the said Village.

6. Before laying any mains, pipes or conduits in the Village of Jarvis the Company shall from time to time furnish the said Corporation with a plan showing the streets to be opened, the proposed location of the mains, pipes and conduits (other than service pipes) thereon showing full particulars as to the size of said mains, pipes and conduits to be used and in laying the same shall conform to all reasonable regulations that the Council of the said Corporation shall make with respect thereto, and from time to time as the same shall be laid and within sixty days after such laying shall file in the office of the Clerk of the said Corporation full and complete maps showing the sizes, locations and positions of the said mains, pipes and conduits and the Company shall not at any time break up, dig or trench any street to a greater extent than 200 feet ahead of pipe laying.

6. The said Company will at all times permit any other Company or Companies now holding or hereafter obtaining from the Corporation the privilege of laying gas mains under the streets of the said Village to lay such mains to within any distance no less than six feet of the gas mains of this Company, and where necessary to do so cross the mains of this Company at a distance not less than six inches therefrom, and that upon any claim being made by this Company for the prevention of such other Company or Companies laying their mains within six feet of the mains of this Company this By-law may be pleaded as an estoppel by such other Company or Companies against this Company.

(a) Mains, pipes or conduits for carrying or conveying natural gas underground in any street or streets of the said Village shall not be laid down herein by the Corporation or such other Company or Companies, now holding or hereafter obtaining from the Corporation the privilege of laying gas mains under the streets of the said Village within a distance of less than six feet of the mains, pipes or conduits for carrying or conveying natural gas underground of the Company without the consent of the Company or the authority of the Ontario Railway and Municipal Board.

7. So long as the Company has a sufficient supply of natural gas for its consumers in Jarvis and its consumers in other municipalities than the Village of Jarvis, in which it is now or may hereafter be operating, supplied or entitled to be supplied by the Company under its obligation to such other Municipalities, the Company shall supply all buildings within the Corporation situate upon land lying along the line of any supply pipe within the said Village upon the request in writing of the owner, occupant or other person in charge of any such buildings who agrees to take gas subject to the Company's regulations.

(a) Provided, however, that the Company, in case of a deficiency of gas, shall not be entitled to discriminate against the consumers for the time being in said Village of Jarvis in favor of its consumers for the time being in other Municipalities.

8. The Company will at its own expense make connections between its pipe lines and the service pipes of persons residing in such Municipality such pipes along streets traversed by such pipe lines.

(a) Provided that all persons requiring natural gas shall bear the expense of laying and maintaining their own service pipes from the street line to and upon the premises of such persons.

9. Meters shall be supplied by the Company to the Consumers and shall be furnished at a rental not exceeding Ten cents per month.

(a) The Company in order to increase the capacity of the distribution equipment, shall also install and maintain three four-inch low pressure regulators in lieu and instead of the three two-inch low pressure regulators now and heretofore in use in the low pressure distribution system of mains in said Village. And shall also lay and maintain for a distance of not less than one hundred feet from each of the said low pressure regulators a pipe line of not less than six inches in diameter and in each case the said pipe line is to connect the said low pressure regulator with the low pressure main of the distribution system of the said Village.

(b) The Company shall also install and maintain one two-inch low pressure regulator upon its Low Pressure Distribution System of main in that part of the said Village lying Westward of the Grand Trunk Railway lines from Hamilton to Port Dover.

10. Upon the expiration or other determination of the franchise hereby granted the Company shall if requested by the Corporation so to do remove its property from the streets of the said Municipality and shall restore such streets to as good condition as the same were in before such removal, without cost to the Corporation and in default thereof the Corporation may remove the same or any part thereof and may charge the cost of such removal and the restoration of the streets to the said Company, and the same shall be payable by the Company to the Corporation forthwith hereafter.

11. The Company agrees to maintain a sufficient "cut-off" at its own expense on each service pipe at some suitable point between the main and the building to which gas is being supplied.

12. Natural Gas furnished by the Company for light, heat and power purposes under the powers granted by his By-law shall be furnished and distributed in Jarvis at prices and rates not to exceed the following, that is to say:

(a) For ordinary business and domestic purposes the sum of Thirty-five (35) cents per 1,000 cubic feet.

(b) For manufacturing and Public school purposes where the amount used for such purpose by the consumers does not exceed 100,000 cubic feet per month the sum of Thirty-five (35) cents per 1,000 cubic feet.

(c) For manufacturing and Public school purposes where the amount used for such purpose by the consumers exceeds 100,000 cubic feet per month the sum of Thirty (30) cents per 1,000 cubic feet.

(d) The rates and prices hereinbefore provided for in sub-sections (a), (b) and (c) of this paragraph, No. 12, shall come into force and take effect from and after the 15th day of June, A. D. 1918, and in the meantime the Company shall continue to furnish gas for the purposes defined in said sub-sections (a), (b) and (c) at its former rates and prices and the same shall be in force through, under or along said streets and highways.

14. The Company shall from time to time and at all times during the period in which the rights and privileges in and by the said By-law granted are continued shall save harmless and keep indemnified the said Corporation from all loss, costs, charges, damages and expenses whatsoever which may be occasioned to the property of the Corporation or to any person or private Corporation within the limits of the said Village of Jarvis or to any person using the said streets by reason of the defective condition or construction of any of the mains, pipes and conduits or other works of the Company within the limits of the said Corporation or from any negligence of the Company its servants or agents in opening the said streets or in laying and maintaining said mains, pipes and conduits within the limits of the said Village or in doing any other work incidental to the laying or maintaining of mains, pipes and conduits or other works or in consequence of the failure of the Company its servants or agents to restore the said streets to as good condition as they were before being opened by the Company or for any other act, neglect or default of the Company its servants or agents whatsoever for which the Municipal Corporation would be primarily liable to any person or private Corporation.

15. The Company shall repay to the Corporation all sums paid by it to the Engineer Road Commissioner or other officers of the Corporation for services performed by him or them in connection with the Company's work or the necessary work of inspection and supervision under this By-law and shall also repay to the Corporation the costs, charges and expense of the Solicitor of the Corporation of and incidental to the drawing up and passing of this By-law and of obtaining the assent of the rate-payers thereto and of the agreement hereinafter provided for.

16. If the Company shall commit a breach of or omit to comply with any of the provisions of this By-law or of the said agreement the Corporation may give notice in writing specifying the breach complained of and the intent of the Corporation to forfeit and determine the franchise and privileges hereby granted unless the Company shall within one month after the service upon it of the said notice remedy the said breach and in case the Company shall within the said period of one month fail to remedy the said breach, the said franchise and the privileges hereby granted shall at the option of the Corporation after the expiration of the period mentioned in such notice wholly cease and determine without the Company being liable to the Corporation for any compensation or damage for such forfeiture, and the Corporation may thereupon formally repeal the said By-law and cancel the said agreement.

17. THAT this By-law shall take effect after having received the assent of the electors and after the Company shall have entered into an agreement

(CONCLUDED ON PAGE 2)

**Furniture that Will Stand The Test—.....**

**Time is the test of everything, Furniture and Furniture Sales as well. You remember that at the commencement of this sale we declined to say 'It was to be our greatest Furniture Sale', we knew that it brought merchandise like to make it so, but we preferred to let time, and time prove it so, and time is now proving it beyond a doubt. It has so far been the busiest weeks we have known. Some of the values which you will see this week on the Large Furniture Floor are marked at PRICES LIKE THESE**

- Carpets—Rugs and Linoleums

**Falls Furniture Pleases—Evidently**

It is well made, It is selected with expert knowledge of styles, making, woods, finishes and general attractiveness. It is furniture that greets with a pleasant "Good Morning" everyday—not the kind that gives one a grouch every time one sees it.

Overheard in the Store—"The only difference between trading in Brantford and Simcoe is the Merchandise costs more in Brantford."

It is scarcely necessary to say that additional Salesmen augment our force in the Furniture Department to give you the usual Falls Service.

The past few days a large consignment of old Hickory Furniture has been unpacked—This serviceable furniture has been marked at prices that we believe are not equaled.

We heard it said the other day that a woman who wanted some low priced furniture had been told not to come to "Falls" because all the "Falls Furniture is fine Furniture". But she came and learned the invaluable lesson that "fine furniture" can at the same time be low Priced Furniture. She found that the largest collection of good low Priced furniture within fifty miles of Simcoe is displayed on the Third Floor of Falls' Store, Simcoe.

**H. S. FALLS COMPANY, OF SIMCOE, LTD.**
