HAIG NEVIEWS **OPERATIONS** OF PAST TERM

Says Final Destruction of the Enemy is Appreciably Nearer.

GOOD WORK DONE

And Done Despite Heartbreaking Difficulties of Many Sorts.

London Cable—"The additional strength which the enemy can obtain from the events in Russia and Italy already has been largely discounted, and the ultimate destruction of the enemy's field forces has been brought appreciably nearer," is the contident summing up by Field Marshal Haig, the British Commander-in-Chief in France and Belgium, of last year's work by the British army on the western front. The statement is contained in an official report of Gen. Haig's Spring and Summer campaign, which occupies 26 pages in to-day's Official Gazette.

The report covers the period from the opening of the Arras offensive, April 9, to the conclusion of the Flanders offensive in November. Subsequent events of the year, including the Cambrai battle, will occupy a separate report, which is to be published shortly.

Gen. Haig closes to-day's report with a brief tribute to the Americans.

At the outset of his report Gen. Haig explains how the general allied plan of campaign for the year was settled at a conference at French headquarters in November, 1916.

"The plan," the report says, "comprised a series of offensives on all fronts, so timed as to assist each other situation at present, he said: by depriving any of his fronts to reinforce another.

HAD TO BE MODIFIED.

This plan had to be modified on a wholesale scale from the very start owing to a variety of unexpected developments, such as the Russian situation, the requirements of the allies, and, particularly in later months, to adverse weather conditions.

Notwithstanding these difficulties the whole story of the year's work is a steady continuation of British successes and German setbacks, which give General Haig his ground for his ontimistic conclusion.

'The Flanders offensive was mainained for three and a hair months under most adverse conditions," says Field Marshal Haig. "The weather entailed almost superhuman exertions on the part of the troops of all arms. The enemy did his utmost to hold his ground, and in endeavoring to do so the submarines and building destroyused up no less than 78 divisions, or which 18 were engaged a second or and sink the pirates. The former, it third time after being withdrawn to may be said, should have priority and

Despite the magnitude of his ef- struction of anti-submarine craft and forts, it was the immense natural other engines of offence against the difficulties, accentuated manifold by U-boat. abnormally wet weather rather than the enemy's resistance, which limit | American navy has co-operated with ed our progress and prevented the such good results has worked well, complete, capture of the ridge. What | and the hunting down of the U-boats was actually accomplished under progresses satisfactorily, but there such adverse conditions is the most has got to be more and more improveconclusive proof that, given a nor- ment." mally fine August, the capture of the whole ridge in a few weeks was well within the power of our men.

CONFIDENCE OF ARMY.

"They advanced every time with absolute confidence in their power to overcome the enemy, even though sometimes they had to struggle through mud waist-deep to reach him. As, long as they could reach him they overcame him, but physical exhaustion placed narrow limits on the depth to which each advance could he pushed and compelled long pauses hetween advances. The full fruits of each success consequently were not Latter Makes a Satisfactory always obtainable.

Time after time the physically beaten enemy was enabled to reorganize and relieve his men and bring up reinforcements behind the sea of mud, which constituted his main protection. Notwithstanding the many difficulties much was achieved. Our captures in Flanders since the end of July amount to 24,000 prisoners, 74 guns, and 941 machine guns. It is certain that the enemy losses exceeded ours.

The most important of all is that our new and hastily trained armies again have shown that they are capable of meeting and heating the enemy's best troops under conditions which favor his defence.

IMPORTANCE OF TRAINING. "in this respect I desire to emphasize the supreme importance of adequate training prior to placing troops in the line of battle. It is essential if sacrifice is to be avoided and success assured that the troops going into battle should first be given the opportunity for special training under officers who are to command whem in the task which they are to

be called upon to perform. The general conditions of the struggle this year have been very difficult from those contemplated at the conference in November, 1916. The great general and simultaneous offensive then agreed upon did not materialize. Russia, though some of her leaders made a fine effort, not only faffed to give the help expected. but even failed to prevent the enemy from transferring forty fresh divisions from her front in exchange for fired easy used up in the West, or from remacing his losses on the West by drafts of fresh men from the

Petergrad Cable- Confirmation of 25,000 German soldiers have mutinied suffrage. against being shifted to the western upon the other German troops from serted and who offered to enlist in the international army now being organized to fight for Socialist principles under the direction of the nureau headed by Boris Reinstein, internationalist delegate of the Socialist abor party of America.

The soldiers are named Lieut, Wilhelm Mueller, 237th Infantry, 173rd Brigade; Jarl Friedrich, Reiscold Kun-GREAT MENACE ert and Reinhardt Bregulla, all members of the 88th Sharpshooters, 78th Division. Lieut. Mueller signed this statement given to Reinstein.

"For some time the men under 35 years old have been taken from divisions on the eastern front to go to the western front, leaving only the older men in the divisions. Many soldiers mutinied and were forced into trains, But He is Confident of Finai but deserted in masses in the forest and soon formed a great army of outlaws with rifles, machine guns and even cannon.

> against them. In one battle 250 loyal Kaiser troops were killed.

"Efforts to cut them off from food and ammunition failed, because they descended on villages in force and cut up the troops sent to stop them. They also stopped trains, taking provisions and arms and winning recruits. They have sent word to the front that they will attack the German troops in the rear if the present peace negotiations failed and a new attack is made on war, I feel no doubt. There may

"The camp has been in existence several weeks. The Government is unable to bring troops to attack, as the muntineers capture the approaching trains. Lieut. Mueller says the troops consider the western front certain death. The army is so depressed the Government cannot find sufficient troops of good morale to lead against Russia. Lieut, Mueller's story is corrobor-

ated by the three others. When questioned by a Russian colonel who kne the Kovno region they gave convincing details. All agree that the food situation is serious in Germany, particularly the poorer parts of the cities. Artillery in Berlin is constantly ready to meet a proletariat uprising. Food is better in the villages, although the depots for soldiers are surrounded by starving children. The soldiers are refusing furloughs be- of lish. cause they are better fed at the front.

London Cable-The British Admiralty reports the staking in the past care of. week of 18 merchantmen of 1,600 tons or over, by mine or submarine, as well as three merchantmen under that | States by 50,000,600 tons. DEMAND BATTLE tonnage. Four fishing vessels also were sunk.

The Admiralty statement follows: "Arrivals, 2,085; sailings, 2,244. British merchantmen over 1,600 tons sunk by mine or submarine, including two previously, 18; under 1,600 tons, including one previously, three; British merchantmen unsuccessully attacked, including two previously. 11; British fishing vessels, sunk, four.
