

Are you giving aid and comfort to the enemy?

Any householder in your neighborhood who has a garden plot, or who owns a piece of suitable vacant land that is not being put under cultivation in order to increase food production, is (though he or she may not believe it) giving aid and comfort to the enemy in restraining food production, as really as is the Submarine Commander who sinks an Allied ship laden with food. The difference is only one of degree, not of kind.

Look around you! Look around you!

If you have not yet decided to plant a vegetable garden make up your mind to do so now. You will not regret it. There is still lots of time. Potatoes and beans may be planted up to June 1st and these are the best substitutes for wheat and meat.

For good, practical advice upon how to lay out and cultivate a Vegetable Garden, write for a free copy of the booklet entitled: "A Vegetable Garden for Every Home." This has been prepared by the Ontario Department of Agriculture for the guidance of citizens who will respond to this call for increased production.

Prosperity attracts Merchants; Farmers are springing out the Land

The greatest wheat producing areas in the world to-day are served by Canadian Northern lines. Here the incoming farmer or merchant looks for the greatest development and prospective route through New Ontario's immense forest reserve and colonization lands, and interest and enjoyment to the journey. Comfortable trains leave Toronto at 10.00 p.m. Mondays, Wednesdays and Fridays, connecting at Winnipeg for all points West.

For information, literature, tickets and reservations, apply to GEO. L. MILLER, Insurance Agent, Jarvis, Ont., or write to General Passenger Dept., 48 King Street West, Toronto.

Get a McClary Rust Proof Gas Range

Rust is the chief enemy of the gas range. McClary's have banished rust by coating all exposed surfaces with hard baked, black enamel which is as easily washed as a porcelain cup. In addition, all McClary gas ranges may be equipped with white enameled tile or splash backs.

This range is good all the year round for the most exacting kitchen work—wired glass door with thermometer, warming oven and warming shelf, Clean, cool, comfortable.

"Satisfaction" a beautiful well illustrated booklet telling all about McClary's gas appliances will be sent free for the asking.

Showing how the name of noteworthy engineers is being painted on the insignia of C. P. R. locomotives.

No new policy undertaken of recent years by the C. P. R. has received such widespread expression of approval as that of naming passenger locomotives after the engineers, who by reason of their fine service or deeds of exceptional heroism have earned special distinction at the hands of their Company. If the engineers themselves are pleased, still more so is the general public, which realizes that an admirable system has been devised for paying due tribute to a splendid race of men who have hitherto been covered for their lights under a bushel. The C. P. R. is displaying these names in no niggardly fashion. They are incorporated on the newly adopted insignia of the railway—a circular band enclosing a beaver mounted shield on which gold upon a blue ground, while the green leaf, the white shield and the brown beaver afford a color combination exceedingly striking and effective. This insignia is painted under the windows of the engineer's cab, the most conspicuous, and at the same time most appropriate position that could have been selected.

Jack Hartney, who runs the President's engine when the head of the great system leaves Montreal for the West, has such skill in starting a train that the passengers would not know it is in motion unless they looked out the window.

Arthur Charlebois has been forty-two years in railway service, and comes of a family of engineers—his father, Pierre Charlebois, having been the eldest conductor in Canada when he died. The tradition is being kept up for he has a son a fireman on the C. P. R. to-day. Arthur Charlebois was one of the founders of the Brotherhood of Locomotive Engineers in Montreal. Tom Turner is well known and exceedingly popular at North Bay. He has been in railway life since 1882, when he worked with an extra gang on the to locomotive engineer, and in 1888 to run out of North Bay, where he is still running.

The following is the first list of engineers on Eastern Lines who have been selected for the honor of having their names painted on a locomotive: St. Stephen-Barnston, Jim Foster, Harry Saunders, Alec. McQuarrie, Mottawamkeag-Moosehead Sub. Ed. Cooney.
