### Council of Four Confirms News of Plan for General Treaty.

HOLD TREATY

WITH GERMANY

### NO SERIOUS DELAY

Reason is Need to Get Definite Policy On Bolshevism

(From Herbert Bayard Swope.) Paris, Cable.—Peace with Germany is to be held up until a treaty embracing all other enemy nations shall be ready. 'Accompanying this statement, which was authorized directly by Premier Lloyd George and Premier Clemenceau were unofficial assurances that this plan will "not entail any serious delay." Those best informed fear the contrary will be true, and that it will be well into May before the Teutons will be asked to sign the peace document.

opinion is worthy of serious attention whole alimentary and excretory passsay there are reasons behind the age. They are not drastic in their change in the programme which do work, but mildly purgative, and the not appear on the surface. One primary reason has to do with the need of developing a definite policy toward Bolshevism and applying it to Hun-gary, and another is found in the need of settling certain differences among the allies concerning reparations and other matters, time being required for adjustments.

in respect to the matter of reparations the important fact should be noted that the French and British within the last few days have come nearer the American attitude than ever information that I got regarding a secret meeting held last evening justifies the expectation that the conference will define reparation as applicable to war damages and not to war costs.

REPARATION \$30,000,000,000. It is possible to say further that claims aiready approved will run slightly above the German capacity to pay, but there will be possibility of questions of punitive indemnity, as the claims provide, only for actual reparations, as provided in the armistice

Latest calculations indicate no reason to change the estimate previously made of \$20,000,000,000 to \$50,000,000,-000 as the amount of the penalty, tas exact sum to be contingent upon the territorial and economic conditions to be imposed upon the defeated country. If the Saar valley should be taken from Germany, and if a Rhenish republic should be set up, the financial potentiality of Germany proper will be correspondingly lessened. Germany will be further limited in ability to pay if her pre-war ocntracts are to be abrogated and her trading restricted.

There seems reason to believe that Premier Lloyd George and President Wilson have shown a tendency to swing toward the French view and to take from Germany the Saar valley, to separate the Rhine previnces from Germany proper and also to prevent the union of Germans in Austria with the German state.

These matters and that of reparation have engaged the attention of the British, French and Italian Premiers and President Wilson for the last two days. As was predicted in these despatches last week, this quartette has taken over the work formerly done by the council of ten. In forecasting this condition these despatches said that the British Premier and the President wished to expedite work, and believed it could be done through the agency of a smaller conference than that of the council of ten.

settle entirely the fare of the entire world, but they must feel that it is their absolute duty to solve essential questions and agree on a policy which will permit the reduction of the allied military forces and the gradual abolishment of chaos.

"The frontiers of Germany have to be fixed and decisions have to be taken with regard to Italian demands. The questions in which Belgium is interested have to be solved as well as the territorial claims of the Czechs. The Poles, Jugo-Siavs and Roumanians have to be conciliated. Common danger will make it easier. It is necessary to say that the Allies have a right to demand payment for and to stipulate guarantee for this payment. It must be decided whether parts of Germany will or will not be occupied.

"The League of Nations must be established if it is needed to bind the Allies together, and to continue the work of the Peace Conference. These are the chief questions which a peace treaty ought soon to solve.

"The German Government may reforehand that it cannot accept discussion on the basis fixed by the Allies. ments of the allied countries are qualified to sanction the final action of the Peace Congress and must sanction it."

Any such scheme must obviously be e'astic, Mr. Crammond said, and the amounts invested in different parts of the Empire and foreign countries ourst be in accordance with the flowe of emigration and other conditions, but the provisional adoption of such programme would give great confidence to British manufacturers.

One of the most beautiful of the German countries, Bavaria is also one of the wealthiest. It covers an area of 29,286 square miles and at the outbreak of the war had a population of

about 7,000,000, about 70 per cent. of whom were Roman Catholic and 29 per cent. Evangelical. Almost a quarter of the inhabitants live in the cities, the principal of which are Munich, Augsburg, Spires, Vurzburg, Regenburg, Landshut, Bayreuth, Ansbach and Nuremberg.

Munich, the capital, was one of the show places of Europe, with its great art gallery, and its attractive beer gardens. The ancient cities of Augsourg and Spires, once great imperial centres, are historic centres. At Landshut Napoleon won the great victory that opened the gates of Vienna to him, in the campaign which won him a Hapsburg bride; and Bayreuth is the scene of the great Wagner festivals where the noisy but fashionable operas of the great composer were produced. Every one in America has heard of Wurzberg, which will be remembered with regret by the opponents of prohibition as the place "where the Wurzburger flows."
