Men, Are You in Doubt he to your trouble? Have you some of je there a nervous condition while tent improve in spite of rest, diet as inc. Are you going down hill steed! YOU MERVOUS and despendent, we ebilitated; three mornings; no ambitions; memory gone; easily tatiqued; and irritable; lack of every and conditions and irritable; lack of every and conditions. It is there failing patter, a drain on any Consult the old applicate specialists.

SYMPTOMS OF VARIOUS AILM ENTS Weak and relaxed state of the body, nervousnes, despondency, poor memory, lack of will power, timid irritable disposition, diminished power of application, energy and concentration, fear of impending danger or misfortune, drowsiness and tendency to sleep, unrestful sleep, dark rings under eyes, weakness or pain in back, fumbago, dypepsis, constitution, head-sche, loss of weight, insomnia. Dr. Ward gives you the benefit of 29 years' continuous practice in the treatment of all chronic, nervous, blood and skin diseases. The above symptoms, and many others not mentioned, show plainly that something is wrong with your physical condition and that you need expert attention.

Men, why suffer longer? Let me make you a vigorous man. Let be restore your physical condition to full manhood. Don't be a weaking any longer. Make up your mind to come to me and I will give the best treatment known to adenoe—the one successful treatment based on the experience of 29 years in treating men and their ailments.

Dr. Ward's Methods Unrivalled, Thorough and Permanent.

De you realize that you have only one life to live do you realize that you are missing most of star life by ill health? A life worth living is a healthy life. Neglect of one's health has put many a man in his grave.

I have been telling men these things for many years but still there are thousands of victims who, for various reasons, have not had the good sense to come and set well.

I have been tening men these thousands of victims who, for various reasons, have not had the good sense to come and get well.

Specialist in the treatment of nervous conditions, nervous exhaustion, back-ache, lumbago, rheumatism, stomach and liver trouble, sone, skin disease, catarrh, asthma, rectal troubles, piles, fistula and bleed conditions.

OFFICE HOURS: 9 s.m. to 5 p.m. Sundays-10 a.m. to 1 p.m. FREE CONSULTATION EXAMINATION.

Before beginning treatment you must make one visit to my office for a personal physical examination. Railroad fare will be considered as part payment of fee. Canadian money accepted at full value. DR. WARD. , 79 Niagara Square, Buffalo, N. Y. DR. HERRICK.

CORAL REFES.

Nature's Methods in Building These Seashell Monuments.

Coral reefs surround many of the islands in the Pacific. They protect the lowlands from the washing of the waves, and the still waters inclosed by them are the only harbor of refuge for thing else.

But almost every reef has such an inlet, It is a necessary result of the laws under which the forces of nature work. To understand this we must see how these reefs are formed.

Chemically the reef corals are almost pure carbonate of lime, the substance of ordinary limestone and marble. The reef grows as the shell of the oyster or any other shellfish grows. It is itself the common and undivided shell of innumerable polypi, brought to light and consumed. Comes or minute insects, which are being a day when there is no food of any produced and are dying in successive generations.

These tiny beings get all their living from the waters of the sea. It is from this source also that they derive the saults of lime from which they secrete the bony structure that remains after the animal is dead.

The coral polypi cannot live in fresh water. Their food supply is brought to them by the waves and currents of the sea. As a result it is found that directly opposite the mouth of the stream from the island the reef does not grow. There will be the inlet to the inclosed waters.

cle they would be a danger and no- the twenty-five quit gathering fruit and vegetables. But the entire one hundred con-

tinue to insist upon their right to eat. The daily food supply gradually shrinks. The man with two fish demands three bananas in exchange for one of them. The man with two bananas refuses to part with one for fewer than three fish. Finally the ten men remaining at

work quit in disgust. Everybody continues to eat. The hidden fish are tind. Everybody on the island blames everybody else.

Exactly! We thought you would guess it.

For we repeat that you can't eat, buy, sell, steal, give away, hoard, wear, use, play with or gamble with what isn't.

Minard's Liniment Cures, Colds, etc.

ANARCHY IN THE SCHOOLS.

(New York Sun.) There is no place so unfit for an anerchist, boishevist, communist or other revolutionary radical as the desk of a public school teacher. The man or woman who holds red opinions and still draws pay from the State to educate the State's children must or necessity be of low moral character.

If he or she teach the red doctrines, he is guilty of treason with the added dishonor of taking the State's money while undermining the State. If he or she keeps silent and suppresses opinions really held, it is piain that the individual is willing to sell out his—or her—con-victions for cash. There is no third possibility. As a matter of fact, what generally happens is that direct teaching of subversive doctrines is cunningly avoided for the purpose of keeping within the letter of the law and regularly drawing the salary that the State so liberally pays; but, at the same time, by insimuation, by the coloring of instruction, the

minds of the pupils are led astray and their loyalty is undermined.

The hope of the future for the United States and for the world is in the children. If their innocence is to be betrayed and their impressionability abused with teachings of hatred and application. sh they catch.

Five continue to catch fish, but and immorality—all of which are bound

bond spenly or whe meanly riolate it by secret methods are simply persons of deprayed mind and perverted conscience. They are suitlied to neither respect nor sympathy in their illicit activity. They deserve, is fact even greater condemnation, even severer penalties in proportion to the degree of their offending, than the unstrached madman or mischief maker who hires a half or mounts a souphox instead of morally stealing a platform, in order to diffuse his poisonous fallacies.

We do not assume, naturally, to pass on any individual cases. That is the business of the proper authorities. But on the general principle of cleaning the school system of traitors to the Government, or ridding it of the enemies of civilization, the propagators of lust, spq-

villation, the propagators of lust, spe-atton and murder, we cannot go too far, of only should these be expelled from the places they outrage, but if their overt acts warrant it they should be prosecuted and punished with the full rigor of the law.

Minard's Liniment Cures Distemper

POPPING.

let her pop! These are popping days.

There is no joilier sport than popping If you have no popper, ask "pop" to get you one at on

get you one at once.

Popcorn has a while lot to recommend it to the family.

Besides being "good eats," it is a source of social conviviality.

Many a time has the momentous question been justed over a corn-popper.

The warmth of the fires of love cause the latent sentiment to come to the bursting point.

Some count, like some lovers, won't pop, and consequently it is necessary to be on the lookout for the best kind.

Among popcorn varieties, the White Rice takes the lead, followed by the White cParl, the Eight-Rowed and the Little Tom Thumb. If every home would keep a supply of pencern and a popper on hand, sugar would be saved and evenings at home made delightful.

CANADA'S AGRICUL-TURAL POSITION.

The Hon. S. F. Tolmie, Canada's new Minister of Agriculture, has summed up the outstanding facts of Canada's agricultural position in an article appearing in the November number of the Agricultural Gazette. He presents statistics showing the growth of Canada's financial burden during the past five years and points out means by which our national debt will be reduced. He says in part "I am confident that this Dominion, through the development of her natural resources, will in time wipe out her debt. Forests, fisheries, and mines all contribute their part of the revenue but by far the greatest returns will be derived from agriculture which industry we must continue to establish in permanency and increase in magnitude. One of the greatest responsibilities that falls on either the federal or provincial departments of agriculture is the conservation of the great wealth that lies in the vergin soil. Innumerable considerations are involved in this one problem, but the whole affair can be accomplished if we engage in mixed farming with live stock as a basis. This is a fundamental principle underlying success in agriculture."

Minard's Liniment Cures Dipitheria

Simple Resistance Units.

To a British firm goes the credit for introducing a very simple type of resistance unit which, possesses numercus and important advantages. The wire or strip member is supported on a single rod passing through the centre section of each leg of the zig-zagged wire or strip. Among the special advantages claimed are: Very large radiating surface for a given capacity; small weight for a given capacity; absolute freedom for expansion; owing to the large surface and small bulk of metal they cool very quickly; they are absolutely unaffected by vibration or jelts; units can be run red-hot without danger of sagging; repairs can be effected on separate units; tapping can be taken off anywhere along the centre clamp, the er of units being small compared with a grid resistance of equal capacity, there are not many joints to nee trouble. FORENSIC WIT. HUMOR

About three summers ago a well-known to a small seaside resort on the eas edast, and boarded with a farmer who was in the habit of taking boarders. The next year he wrote to the farmer, and in his letter said:
"There are several small matters that I desire changed should I decide to pass my holidays at your home. We don't my holidays at your home. We don't like Mary; mereover, we den't think a sty se near the house is sanitary."

The farmer replied: "Mary is went, and we haven't had no hegs since you want, away a way a way a way a way."

went away last August. PICKING ON THE LAWYERS. It certainly does do a layman good to pick on the poor lawyers. An attorneyat-law who wished to show his smartness by quizzing an old farmer from the interior of New Jersey began by asking him if there were many girls in his neigh-

"Yes," replied the old man, "there's a dreadful sight of 'em-so many that there ain't half enough respectable husbands for 'em, and some of 'em are beginning to take up with lawyers. The attorney didn't follow up the sub

THE SAFER COURSE. A farmer had a son whose name was Josh, a very lanky boy, who was the apple of his father's eye. guess I will make a lawyer of Josh," said the old man. "But your wife wants him to be a

physician. He's got to be a professional man, and we'd want to show our confidence in him. And I think it would be a heap safer to take Josh's law than his EVIDENCE VANISHED.

Several lawyers were discussing the Inited States Secret Service the other tay in the marshal's office in the Feddirected at a quiet but capable deputy marshal, who took it in silence, until he got an opportunity to counter. The most persistent of his termenters began to tell y of the Government put a "good fellow"

"Well, it was different in my town," exclaimed the deputy marshal, breaking into the confab.
"We had the evidence on the fellow, all right," he continued. "He had made about a peck of silver dollars. The only difference between his product and Uncle couple more grains of silver in his. He got away with it for months, and when began to collect evidence we had bags full of the 'phony' dollars. When the man was placed on trial the learned members of the bar were permitted to

satisfy their curiosity by handling the counterfeits. But the man was acquit-'How was that?" one of the lawyers wanted to know. "You see, the lawyers walked off with the evidence. They didn't leave a single dollar," was the reply. SAFE EITHER WAY.

A young graduate in law of Pennsylvania wrote to a prominent practioner in Arkansas to inquire what chance there was in that section.

"I am a Republican in politics," he wrote, "and an honest young lawyer."
In a few days he received this reply:
"If you are a Republican our game
laws will protect you, and if you are an
honest lawyer you will have no competi-

NOT THAT KIND OF COMBAT. Early in the legal career of Joseph H. Choate, the future Ambassador was opposed to a hot-tempered attorney, who. in the heat of argument, shouted impetuat his young opponent: Why, I can whip six like you!" Choate looked at the other with pro-

cound contempt. "My father owned a buil," he said at length, "that was a wonder to fight. He could lick all the cattle in the neighborhood, and he did it too. But," concluded young Choate significantly, "he couldn't

win a law suit.' A QUESTION OF YOUTH. The following is told of a young lawyer just admitted. The Judge was passing The Judge was passing the sentence, after a verdict of guilty had been brought in by the jury.
"Stand up," he said to the prisoner. 'Have you any statement to make beforce sentence is passed on you?"
"Well, your Honor," the prisoner replied, "I would fust like for you to consider the youthfulness of my attorney."

NEEDED MORE BACON. The late Senator "Bob" Taylor, of Tennessee, told a story of how, when he was "Fiddling Bob," Governor of that State. an old negress came to him and said;
"Massa Gov'na, we's mighty po' this massa Gov ha, we's highly po this winter, and ah wish you would pardon mah old man. He is a fiddler same as you is, and he's in the pen'tentry."

"What was he put in for?" asked the Governor. "Stead a workin' fo' it that good-fo' nothin' nigger done stole some bacon. "If he is good for nothing, what do you

13 jurors instead of 12. What do you want with this extra one?" What is your name?" asked the Judge of the extra man. "Joseph A. Braines," he replied. "Mr. Clark," said the Judge, "take this

man back to the jury commissioners and tell them we don't need him, as we already have here 12 men without Braines. TOO MUCH TO ASK.

"Don't you know," said the policeman to the servant as she was dumping a pail of garbage in an open lot, "that what you are doing is against the law?" "Oh, den't talk to me about the law," replied the girl. "It's all I can do to keep the Ten Commandments."

LIKE GROUND GLASS WINDOW. The old negro hit it off pretty well when he observed: "De law am like a groun' glass window, dat gibs light 'nuff to light as poer folks in de dark passages of dis life; but would puzzle de debbe hisself to see through it." And in spite of the fun poked at lawyers were might quote the words of Mr. Justice Brett, of the Supreme Court of Oklahoma, in re Sitton, No. 17 Pacific Reporter, 555. "The lawyer's life must be one of fidelity, for his clinet's all—his life, his property, and his honor are placed in his hands. to the bosom of his family-that the tot tering form of an old man of the hom may be handed to the grave in peace, that the daily bread may not be taken from the widow's table, and that the orphan's cheek may not grow pallid with hunger."—William McMahon, in Philadelphia Record.

LANGUAGE AND BIBLE.

The Book That Standardized All the Dialects of Britain.

Before the printing of the Bible there was no English language. It was the Bible that standardized all the dialects of England and that bound them together into a living speech, and it was the Bible that was the foundation of the education and culture of England. As the English historian Green says, "The English people became the people of a book. and that book was the Bible."

To a large degree the same is true of Germany, but, it is not necessary to go back to the middle ages to find a nation's culture and fixing its linguage. On many of the mission fields, espe-

cially in Africa, he language of the natives has never been reduced to writing until the missionary provided them with an alphabet in order that the Bible might be translated into their tongues. The Bible has then become both the language extbook and the spiritual suide of these African nations. In mission schools the world over the Bole is the language textbook. The people of the mission lands want their mildren to learn the western tongue, and they send them to the school. Tey learn the missionary's language but in the learning they find the issionary's God.— Christian Herald.

arily deaf. Lit up by the ghastly flashes from the fire of their own guns, they looked like veritable devils. their faces gleaming with fiendish joy as they leaped into the pit to shift the gun trail or sprang to the wheels. at which they tugged and pulled with might and main. It was exceedingly tiresome work for the earnest lads. The rate of fire was so rapid that it was necessary for them to pause occasionally in order to permit the intensely heated pieces to cool.

It presented a thrilling scene to see, in the dim light of the early dawn, a stalwart lad, bareheaded, eyes heavy and red from the burning powder gas, his square jaws grimly set and shirt open at the throat, his arms bare to the elbows and black with grease, standing out there, swabbing out the steaming gun with the slender rammer. A lanyard broke from too constant use on one of the guns. Not hesitating a moment to repair it, the 'No. 1" man simply used his fingers to draw back the "striker." A lad fell limp and exhausted into the gun pit, but was quickly pulled out of danger, where he lay quite still and was undisturbed by the terrible 1 rage. Another man quickly took has comrade's place.

So the terrible fight continued. The great iron orchestra played its terrible symphony madly until ten o'clock in the morning, when the tired musicians began one by one, to lay aside their weary instruments, for the score they had been playing had sent the Fritzies scampering over the hills and far away.

A Pagan Fashion.

The fashion of hopping little dogs as objects of luxury is not at all modern. Both Greek and Roman women used to have small pet dogs, over which they made as much to do as does a fashionable lady of to-day over her

Even men, usually foreigners, were not ashamed to stroll about the Roman streets carrying dogs in their arms. It is said that Julius Caesar, once seeing some men thus occupied, sarcastically inquired of them if the women of their country had no children.
