Fifteen breeders took part in the White Wyandotte competitions, and out of a total score of 96 points, Mr. Martin won 65, leaving the other fourteen breeders to divide the balance.—SIMCOE REFORMER

The addresses on good citizenship by Mr. W. L. Clark, the noted lecturer, author and traveller and which commenced in the Jarvis Methodist church on Sunday morning last, has been attracting large and interested audiences, and the most favorable comment is heard. Mr. Clark's lectures possess a grip and fascination which, together with an everready Irish wit, are drawing larger and larger andiences. The lectures will close on Friday evening the last sub. iect being "The World's Greatest Need" Thursday evening's subject is "Is God Dead? # **Conserve Gas Supply**

WEATHER

Mostly Fair and Mild.

One great problem facing the natural gas companies in Ontario, is to conserve the life of the fields which contain the gas. Though many thousands of customers use gas in their homes for cooking and heating, the greatest consumption has been by using it for industrial purposes.

In the United States the use of natural gas in factories is being discouraged. It is too rare a commodity to be used for other than domestic purposes. Natural gas once gone can never be replaced by any fuels as economical, and which so satisfactorily adapts itself to use in the home.

Although natural gas is cheap, do not waste it, the supply is not everlasting.
