#### THE YUKON.

#### Some Interesting Points for Canadians.

George Brimston, in Dawson Daily News). Yekon Territory contains 192,000

**quare** miles. More than half of the great area of Yukon is habitable.

Yukon is the last great area for grazing and agriculture. Yukon is a paradise when compared with other parts of the world where millions of people have lived

and prospered. Yukon Territory and Northern Alberta and Northern British Columbia are practically without a railway. Yukon has transportation for only

about four months in the year. Yukon can raise turnips weighing from 25 to 44 pounds each.

Canada opened up the Hun in Europe. Canada will open up the Yukon with an electric railway.

Such action on their part will open an a market for Canadian goods. This is Canada's market with no

tariff well to climb over to sell her Canadian people will see that this is done for their own benefit.

hart Co., Tenento, CHI. (Pamely Webse.)

Mineral rusources of the territory have not been scratched. The foregoing are facts for you to

study and take advantage of now. For further information regarding Yukon, apply to the Yukon Deent of Interior, Ottawa, and the Sold Commissioner, Dawson. Yukan Territory sent over 600 men

to the Great War, the largest per **canita in** Canada.

Yukon's patriotic cash contribution is greater than any portion of the British Empire, per capita.

Yukon's subscriptions to the Victory loan are an example for the remainder of Canada. Dawson last November subscribed \$318,000 in cash and got twenty-one crowns on her Victory flag. Dawson and Klondike and not get a dollar back in munitions orders and other war purchases such as flooded the rest 20 Chanda. Now Yukon asks for a railway that she may send more wealth direct, and for immediate and direct aid to roads, mining, and other industries. Is she not entitled to it?

Minard's Liniment used by Physicians DESCRIBED. "Bolsheviki?"

# THAT CHANGE IN **WOMAN'S LIFE**

Mrs. Godden Tells How It May be Passed in Safety and Comfort.

Frement, O.—"I was passing through

the critical period of life, being fortysix years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me

to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it

surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared." — Mrs. M. Godden, 925 Napoleon St., Fremont, Ohio.

Such annoying symptons as heat fashes, nervousness, backache, head-ache, irritability and "the blues," may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound.

If any complications present them-

If any complications present them-Igun, Mass., for suggestions how to suggestions them. The result of forty-pears experience is at your service are part letter held in strict confidence.

#### New Uses of Cotton.

The people as yet little understand the wonderful varity of uses to which established at Columbus, Ga., at a cost of \$3,000,000 a mill whose machinery is capable of producing 53 different. The government has recently placed orders for many million yards, it having been found possible to substitute a cotton weave for the rubber gas masks and rubber coats which airmen year. Secretary Daniels has ordered the purchase of 110,000,000 pounds of cotton for nevy uses and 200,000,000 yards of cotton gauze for surgical purposes. Chemists making researches believe that within a short time additional uses of cotton will be found; and yet only a few years ago about the only use of American cotton was in the manufacture of sheeting,

How Cloves Are Cured. In the Spice Islands the cloves are sometimes cured by being smoked over a wood fire until they assume a deep brown color, when the further drying is accomplished by the sun. Occasionally the buds are scalded before being dried. If bright sunny days prevail artificial heat may be dispensed with and the buds sun-dried from first to last. The crop loses about sixty per cent. in drying.

## THE BEST MEDICINE FOR LITTLE ONES

Thousands of mothers state positively that Baby's Own Tablets are the best medicine they know of for little ones. Their experience has taught them that the Tablets always do just what is claimed for them and that they can be given with perfect safety to children of all ages. Concerning them Mrs. Joseph Therrien. St. Gabriel de Brandon, Que., writes: Baby's Own Tablets are the best medicine I know of for little ones. I thought I would lose my baby before trying the Tablets, but they soon made him healthy and happy and now I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Wit and Humor.

"Bertie," said his mother, sorrowfully, "every time you are naughty I get another grey hair." "My word! replied Bertie; "you must have been a terror. Look at grandpa!"

Magistrate-"How did you manage to extract the man's watch from his pocket when it was provided with a safety catch.' Prisoner-"Excuse me, sir, that is a professional secret. I am willing to teach you, however, for two guineas."

A party of "Waacs" were being shown over a repair factory at one of the bases in France. "This," said the obliging soldier, as they entered a shed, "is the engine boiler." One fair charmer, with a quizzical smile. asked: "But why do they boil the engines?" And her guide softly replied: "To make the engine tender." A soldier was waiting for the Muddleton train, the only one of the day. After he had waited for an unreasonable time the porter hove in sight. "How long will I have to wait," the soldier asked, "for that bally train?" "How long have you got?" asked the porter, with apparent irrelevance. "Fourteen days." "Well," said the "Well," said the porter, "you'd better walk."

Private Jibson's wife coaxed Jibson to send word of his whereabouts in France from time to time, despite the censor. Jibson proceeded to do so by placing dots under certain letters in his epistle, which, when speit out, formed a word. Once he made his dots too large and the censor rubled them out and put some of his own. When Mrs. Jibson deciphered her message this is what it spelt: C-e-ns-o-r-e-d.

#### HOW'S THIS?

HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the Sold by druggists for over forty years.

Price 75c. Testimonials free. F. J. Cheney & Co., Toledo, Ohio.

#### Glucose in Fruit.

The presence of glucose in fruit preserves as an adulterant may be discovered by the following method given by Popular Science Monthly: In the case of jam or marmalade it is necessary to filter off the solid matter by running the mixture through a piece of muslin. Allow the solution to become perfectly cool, and then add an equal volume, or a little more, of strong alcohol. If glucose is present a dense white precipitate slowly settles down. Where no glucose has been employed, there is no precipitate, save, in some cases, a very trifling sediment of proteid matter, which, however, is so small that it could not possibly be mistaken for the sediment which glucose produces. The last named is not particularly hamfulr in itself, but is very frequently used as an adulterant in supposedly pure preserves for extra profit.

Keep Minard's Liniment in the house

WHEN WE ARE RICH. (Spanish River News.)

If any of us don't feel like working -why, we are sick. And we don't have to be at home and in bed in order to be sick.

It is not normal not to feel like working. We are sick if we are short of nor-

mal. The remedy is easy and cheapcheaper to apply than not to applynot only in the cost but in the final economy of doing more with less effort and in eventually earning more. The salesman, for instance, who feels

more like going to a picture show than calling upon prospective purchasers. and thus selling more and earning more, is sick—in the sense that he does not feel normal.

## Miss Flora Boyko Tells How Cuticura **Healed Her Pimples**

"My face was very itchy at first and after that it was covered with pimples that disfigured it hadly. The pimples were hard and red and they were small, and they were scattered all over my face and were so itchy I had to scratch and I could not sleep.

"These bothered me nearly a year before I used Cuticura Soap and Cintment and when I had used fivecakes of Cuticura Soap and five boxes of Cuticura Ointment I was healed." (Signed) Miss Flora II. Boylo, Gardenton, Man., Dec. 26, 1018.

Having obtained a clear healthy ekin by the use of Contours, keep it clear by using the Soco for all toilet purposes, assisted by touches of Ointment as needed. Do not fell to include the emquicitally counted Curicura Talcum in your tollet preparations. Splendid after bething. For free sample each of Cutienra Sop. Ohnomost and Takum achieves performed "Orlinera.

Dogs. A. Roston, V. S. A." Edd overywhere.

Here is the remedy in one or all of the following four stipulations:

First: Don't eat so much; cut down on concentrated food, like meat, eggs and the like, and eat more vegetables, like cabbage, greens and celery, character.

Second: Drink at least eix glasses of water a day and more in summer. Third: Sleep with the windows up and without the head covered with the bed clothes.

Fourth: Walk at least part way to and from work. Walk fast and breathe deeply. The greatest mistake that most of us make is in believing that the more

we eat the more strength we give to our bodies and minds. Excess food of certain type goes to make excess fat, which is the worst

kind of excess baggage. It takes strength to carry this excess baggage around that might be better used in productive effortworking. Some of us become fatigued in carrying this excess baggage around, and the result is that we don't feel

like working. Certain other foods, particularly meat in excess quantities, go to make waste. And if this waste is not eliminated it becomes like clinkers in vent headache, to overcome dragging the furnace—it accumulates in the lower intestines and forms poisons that pallor—to look well, sleep weel, eat penetrate the system and produce that | well and enjoy the manifold blessdon't-feel-like-work feeling, or fatigue ings of sound, regular health, every after work.

The remedy for improper elimination (constipation) is in eating fruits per box. and vegetables of a fibrous kind, and bread with a large percentage of bran in it. Fibrous fruits, like apples, or-

#### LALLKL ABSOLUTELY REMOVES GALLSTONES WITHOUT OPERATION; Cleanasa the Liver, Gall Bladder, Steps Stemach Minery, Princip aides or back, Journalise, Gas, Bound Trouble, Calif., Indignation, Hearthurn, Nurrousness, Dyspapsia and signs of Appendicities, Hearthure, Neuroseases Dyspapsia and signs of Appendicities, caused by gallstones No metter what you have tried without results, if you act ally went relief, with for GUARANTEE, and PROOF of we'll belone for LESS THAN A. R. CHEMICAL SS. BOY CENTS a treatment. WINDSOR ONTARIO F. A. R. CHEMICAL CO. BOX 144 H

anges, grapefruit; vegorous vegetables, like carrots, greens, celery, parsnips, and turnips, not only provide the mineral elements of elimination but form a sweep, or swab, for the lower intes-

Most of the indisposition towards work, and that tired feeling, are a resuit of confusing stomach emptiness with hunger.

The way most of us eat it would take about ten days of fasting to really get hungry. Fill up the emptiness with bulk of fruits and vegetables and go without a meal or two now and to force it up. If in the leg, reach then by filling up on water.

If any of us don't feel like working it is a good plan to keep on working and quit eating. As to what we eat. it is well to follow our own instincts: that is, eat what we want, or what agrees with us, but not so much. The don't-feel-like-work feeling, or

just plain laziness, or fatigue after a normal amount of effort, simply means that we have been using energy, that might have been productive and profitable in digesting needless amounts of food and in resisting poisons that are generated by its accumulated waste.

#### Plant Somothing.

Have you planted anything. Don't miss it if you haven't. The seed you plant yourself means more to you.

Plant something high, like nasturtiım or zinnia. Morning glory rewards you, and so do marigold and gypsophila (baby's

breath). If you want vines, try flowering beans (they grow fast), sweet peas. ornamenetal guordor Japanese hop

The cypress, with its red and white flowers, and the coboes, or cup and saucer, are good vines to plant, and if 'twere done, 'twere well 'twere done quickly! Go to it!

#### Your Blood.

Have you ever thought what it is? It is the nutritive fliud of the tis-

All sorts of valuable elements are in your blood. Among these are water, fibrine, al-

bumen, chlorides of sodium and of potassium, phosphates of soda, lime and magnesia, and other things. In your blood are floated minute solid bodies (called "corpuscles") of two kinds, white and red, the latter

giving the color to the blood. The size of the red corpuscles are only 1-3200 of an inch (the white corpuscles are much larger and less numerous). The red corpuscies have great power to absorb oxygen which they get from the lungs and carry all over the body to form new combinations and changes in the tissues, the results of which are poured into the blood.

#### Women Can Fortify Their Health

With constantly aching backs weary, dragging-down pains, dizzy and nervous headaches, women have a hard burden to carry. It is wise for every woman to fortify herself against those derangements which are present when extra demands are made upon the system by Nature's laws. No better remedy exists for woman's peculiar ailments than DR. HAMIL-TON'S PILLS, which possess tonic properties that act upon the proper organs at the proper time. To preweariness, backache, nervousness and girl and woman should regulate her system by Dr. Hamilton's Pills, 25c.

#### CRAMP IN SWIMMING.

Expert Speaks of This Common Cause of Death

A cramp in the water is probably brought about as a result of too much muscular exertion together with a low temperature of the water. When the water is fairly warm, one is not likely to have trouble of this kind. ually the result of entering the water have the opportunity freely to elect too soon after eating. When a cramp appears, it is simply a vigorous comtracted condition of the muscles, whether of the leg, body or arm, a sort of spasm, and the contraction of the muse's quickly draws up or flexes the affected part. To secure relief, you should try to straighten the cramped limb, first inhaling long, deep breath to carry you over the time consumed in the effort. the arm is affected, grasp it by the wrist with the opposite hand and try down with both hands and in a like manner force it out. Always bear in mind the principle of taking a long, deep breath before starting to straighten out the part of the body affected. Excitement only makes matters worse, inasmuch as a cramp is probably due largely to a nervous impulse or a nervous reaction. The self assured state of mind. therefore, The self-assured state of mind, thereis helpful, and by simply keeping calm the chances are that the cramp

will relax in a few moments. The stomach cramp is by far the most dangerous. It causes the knees to be brought up toward the chin and tends to force the air from the lungs, which naturally causes the body to sink. In most cases it is possible to straighten the body by forcing the knees out and to put into practice one's knowledge of proper breathing. In case the knees cannot be forced out one should simply swim the breast stroke, the arms being free striving also to get what air you can in your lungs and at every coportunity vigor-

#### "Harvester Industrial Plans."

(Chicago Daily News.) Progressive corporations and en lightened individual employers of labor are evincing a gratifying disposition to meet reasonable demands of labor for a greater stake and a direct voice in industry. The way to lessen and gradually remove the danger of serious unrest and strife in the economic sphere is to "peopleize" or democratize industry more and more, and make the wage-worker feel that he is actually a co-partner in industry and that his interest is fundamentally identical with that of the employer and the directorate.

The Daily News has recorded with sincere satisfaction many signs of this growing sense among employers of the wisdom of taking labor into their full confidence and discussing at roundtable conferences the various common problems arising out of the industry that pays wages and dividends. The latest "sign of the times" is the "Harvester industrial plan" of employee representation on works councharged with the important duty

tion, and so on. "Details of the scheme show that it is as genuinely democratic and elastic as it was possible to make it at the The stomach cramps, I believe, is us- start. The housands of employees their own representatives, while the latter have the right to carry an appeal in any dispute over participation in the works councils to the president of the company. The design is start. The thousands of employees to speak frankly and fearlessly at all times on questions that are vital to them. The decision is reserved for the management, but even here there is, of course, unlimited possibility of development of the idea of friendly co-operation and representation on the directorate through stock ownership and profit sharing. How infinitely more constructive

and hopeful are such experiments than the destructive, hate-inspired attacks on the present social system and the propaganda of class warfare.

Minard's Liniment Co., Limited. I was very sick with Quinsy and thought I would strangle. I used MIN-ARD'S LINIMENT and it cured me at once. I am never without it now. Yours gratefully,

MRS. C. D. PRINCE. Nauwigewauk, Oct. 21st.

#### Protection.

The "things our grandmothers did" are so often ridiculed that it is pleasant to read this in the American Agriculturist in an article about protection from lightning:, "Our grandmotuers used to ensconce themselves (as a refuge from lightning) in the midst of a large, thick, feather bed-and this was a wise thing to do, for feathers are a non-conductor." The article goes on: Rubber being a non-conductor, it is well to sip on a pair of overshoes during a storm, so that if the house happens to be struck, the shock cannot prove injurious. It affords the greatest relief for the nerves if the curtains Piles. Try it! The trial is absoluted are drawn down, and the lights turned FREE. Simply send us your name on, for then one cannot see the lightning."

#### The Lute.

The lute has vanished. It was one of the oldest of instruments and had a beautiful vibrant tone somewhat like that of the harp. But its size and complexity were against it. It had a long tail, and many strings, and while its size increased its power and range, it also increased its weight and made it cumbrous. The minstrel of to-day plays on the mandolin, the guitar or the banjo, and the lute is forgotten.
