APPETITE **TEASERS**

"Lost my appetite." That is a cry one often hears on all sides when the warm, gentle days draw near. To be sure, one begins to tire, as winter comes to a close, of all the things which come from cans and bottles" and of prunes and corned beef. One looks forward to asparagus time and spring lamb days.

But until those times come within reach of the pocketbook, tease the appetite with a few of these dainty

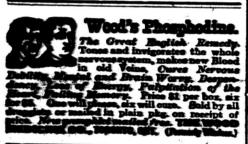

ORANGE ROUNDS.

Peel, and cut round, medium slices from a well flavored orange. Remove seeds and marinate for-ten minutes in cool, heavy French dressing. Drain and dust the slices of orange lightly with crushed mint, then las them on crisp toast rounds, with a spray of fresh cress on top, and serve at once. PINE AIGRETTES.

Chop six slices of canned pineapple, or four fresh pineapples, and set to Add two tablespoonfuls of grated Canadian cheese, a half saltpoonful of sugar, two teaspoonfuls of toasted crumbs and the stiffly beaten white of an egg. Mix lightly, then heap on bread rounds and brown in he oven, but do not dry or burn. Serve at once.

Would Not Be Without Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. The Tabets are a perfect home remedy. They regulate the bowels and stomach; drive out constipation and indigestion; break up colds and simple fever and make baby healthy and happy. Concerning them, Mrs. Noble A. Pye, Beum Secum, N. S., writes: "I have found Baby's Own Tablets of great benefit for my children and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville,

What Good is the Robin?

"Now what good is the robin? Everybody knows the robin. A boy came along the road with a .22 rifle, saw a robin sitting there, and killed it. I went over and picked, the robin up. Two cutworms were squirming on the ground; the robin had them in his beak. I held the bird up and two more fell out of his mouth. Remember one cutworm will cut down five tomato plants in a night. The cutworm does his work and then hides under the soil; Mr. Robin comes hopping along, picks in there and pulls him out and turns him into a robin. If anyone tells you that a robin will destroy one hundred cutworms in a day, take it from him that it is true." -Jack Miner, at the National Conference on Game and Wild Life.

Wooden Toles.

Wood enters more and more into shoe-making. The high price of leather had led

to the use of wooden soles. Beech wood makes good soles, it is stated, and the advantages of wooden soles are great.

The wood is a better non-conductor than leather and serves better to keep the feet warm and dry.

It is said that in Paris fashionable footwear is often provided with woeden soles, with small pieces of leather to deaden the sound in walking. People with tender feet, accustomed

to soft, pliable leather soles, might find descomfort in wooden soles, but there are many who wear them without apparent discomfort.

CURE YOUR COLD WITHOUT MEDCIINE

Just Breathe "Catarrhozone", Its Balsamic Vapor Does the Rest.

It's a tiny germ that sets up the irritation that makes colds so agreeable. Colds die quickly if Catarrhozone is used, simply because the vapor of Catarrhozone instantly destroys the germ that keeps the cold

alive. Every breath you draw through the inhaler fills the whole breathing apparatus with pure piney essences that stop colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the nose and throat, the head is cleared, and every trace of cold or catarrh is cured. Catarrhozone is so sure, so pleasant, such a safe remedy for winter ills that you can't afford to do without it. Wholesome and Timely

This is a good time to play up oranges, lemons and grapefruit in your dietary scheme. These truts are somewhat less costly and can be used to advantage. Above all, they are wholesome for most people.

LEMON CRACKER PIE. Mix together four tablespoonfuls of rolled cracker crumbs, one cupful of hot milk, one cupful of sugar, two tablespoonfuls of melted oleo, half a teaspoonful of salt, the juice and grated rind of one lemon, and one lightlybeaten egg.

Turn into a pie plate lined with pie crust, dust over with grated nutmeg and bake until set. If desired, the top can be covered with a meringue made from the stiffly-whipped white of one egg and one tablespoonful of powdered sugar.

ORANGE BREAD PUDDING. Beat three eggs lightly and add half a cupful of sugar cooked to a caramel and dissolved in half a cupful of hot water. Also add hilf a cupful of additional sugar, three cupfurs of milk. two cupfuls of sifted dry bread crumbs, half a teaspoonful each of ground cinnamon and salt, juice of two oranges and the grated rind of one, and one cupful of dried currants. Butter an ornamental mould, dredge with sugar and turn in the pudding mixture. Set in a pan of hot water and cook as for custard. Serve with a foamy sauce flavored with orange.

ORANGE MACAROON BISQUE.

This is very simply made. Heat one cupful of thin cream with a few grains of salt and add the yolk of one egg beaten with three tablespoonfuls of sugar. Remove from the fire as soon as the cream has thickened slightly and add, while hot, one tablespoonful of finely grated orange rind. Allow it to cool and fold in one cupful of double cream whipped solid, three-quarters of a cupful of crushed macaroon crumbs, the juice from two oranges and the juice of half a lemon. Freeze slowly as for ordinary ice cream. This cream is particularly delicious served in individual portions with a crushed and sweetened strawberry sauce.

GRAPEFRUIT SHERBET. Boil one pint of water and a cupful and a half of sugar for ten minutes: then stir in half a teaspoonful of gelatine softened in a teaspoonful of cold water, and when dissolved strain the syrup. Cool, add the juice and pulp from two grapefruit, and half a cupful of Maraschino cordial. Turn into a chilled freezer and when the mixture begins to congeal blend in the stifflywhipped white of one egg and two tablespoonfuls of the chopped cherries. Continue freezing until firm and

GRAPEFRUIT AND ORANGEADE. Slice into a large bowl one grapefruit and two oranges. Add one cupful of sugar and place it on the ice for two or three hours. A Livery Fest

Mr. Humpher Ward, in the reminhoances which are is publishing in the
Carabili, talis of a wonderful episode in
which Henry James translated at sight
Mr. Kipling's "McAndrew's Hymn," into
splendidly idiomatic French. M. Bourget was of the company, and though he
reads and speaks English fluently, he
complained of the technical expressions
made use of by Mr. Kipling in the poem
in question. "Whereupon," says Mrs.
Ward, Mr. James took up the book
and there and then put 'McAndrew's
Hymn' into vigorous idiomatic French
—an extraordinary feat, as it seemed to
M. Bourget." As it would seem to anyone, even though possessed of a complete mastery of both languages, for McAndrew is at home with such expressions as "thrust-block," "coupler-flange"
and "crosshead jibs," etc., which is a
good deal more than can be said of the
rank and file of Kipling's readers.

Shoveling Out Gas.

Weighing considerably more than the atmosphere, the poisonous gases employed in modern warfare always seek lower levels. Thus the gas clouds penetrate trenches and deep dugouts, and in most cases it is a matter of many hours before they become sufficiently diluted with the atmosphere to permit of safe breathing. So the matter resolves itself into a probelm of driving the possenous fumes out of the trenches and underground shelters, or at least thinning them out until the air is again made safe.

For this reason American soldiers in France literally "shoveled" poisonous fumes out of their trenches. Attached to a shovel is a sort of cenvas scoop or "flapper" which permits the men to heave the heavy gases over the parapets and beat the fumes and air.

ASPARAGUS

Cook and Serve This Dainty.

Asparagus is a great delight to many. However, it must be well cooked to retain its delicate flavor. It may be boiled or steamed; in either ease, cut off lower parts of stalks as ar down as they will snap, untie ounches, wash, remove scales and retie, as this makes the servinys easier and the tips likely to be broken.

For boiled asparagus, cook in boil-ing salted water 15 minutes or until noft, leaving tips out of water first cen minutes. Drain. remove string. and spread with soft butter, allowing one and one-half tablespoons of butter to each bunch of asparagus. Asparagus is often broken in inch pieces for boiling, cooking tips a shorter time than stalks. Some prefer a white sauce to drawn

outter. Put two tablespoons butter in a

saucepan, stir until melted and bubbling, add two Mablespoons of flour mixed with 1/4 teaspoon salt and few grains of pepper, and stir until thoroughly blended. Pour on gradually one cup milk, adding about one-third at a time, stirring until well mixed, then beating until smooth and glossy.

Asparagus may be served with success with sauce Hollandaise. Put 1/2 eap butter in bowl, cover with cold water and wash, using a speon. Divide in three pieces; put one piece in a mucepan with the yolks of two eggs and one tablespoon lemon juice; place sancepan in a larger one containing boiling water, and stir constantly until butter is melted; then add second piece of butter, and, as it thickens, third piece. Add one-third cup boiling water, cook one minute, remove fro mfire, then add 1/4 teaspoon salt and few grains of cayenne. sauce over boiled asparagus.

Casadepage Head

This remarkable looking rock is known as a schist which is wathered and crumbled into a human expression which is startling. Not only is there a distinct resemblance to a man's profile but the head is apparently dressed in a periwig of the style of the last century, such as the soldiers of Cornwallis wore. The rock is located on the top of a 2,000-foot hill on Seward Peninsula, Alaska, and is called by the natives of the Big Head, or the Casadepaga Head. The fact is about eight feet high.

Food to Make Giants.

A new substance, called tethelin, has been discovered in the human body by scientists engaged in physical research at the University of California.

It is found in the thymus gland at the base of the brain, and it is this that makes people grow, or so the scientists in question allege. By utilizing it, it is the stature of human beings. A child fed upon it will grow up a giant. We may be able by this method to breed regiments of giants of a size and stature to throw completely into the shade those spant Grenadiers of Potsdam which gave so much pleasure and pride to one of the Kaiser's most distinguished ancestors. Animals, too, and even insects, it

is claimed, can beinduced to "grow big" by similar means. It is to be hoped that no evil-minded person will elect to breed tethelin rats the size of tigers or wasps that will be veritable flying dragons.—Tit-Bits.
