THE oven is the big feature of a McClary's Gas Range.

The heat is uniform and is confined. Cooking is on view through the wired-glass oven door. A reliable thermometer banishes the risk of overheating.

McClary's Gas Ranges are finished in hard-baked black enamel. The whole range, inside of oven included, can be cleaned with a damp cloth.

Many styles and sizes. Let us show them to you.

The Brunswick Ultona

Plays ALL Records At Their BEST

ONLY on The Brunswick can you obtain this great feature—the Ultona all-record player. It is a year or two in advance.

With the Ultona you are not restricted to one make of records. You can play them all. And each is played as it should be, with the proper diaphragm, weight and needle.

Another determining feature of the Brunswick Method of Reproduction is the All-Wood Tone Amplifier, made entirely of wood on the violin principle. All metal construction is avoided, bringing out in rich clarity tones hitherto lost.

Once you know The Brunswick, all other phonographs lose their appeal.

Let us play it for you.
