## The Canadian Poultry Situation

No branch of food production has suffered during the war to a greater extent than that of poultry and eggs. In many countries of Europe it has almost disappeared, while in others scarcity of feed and high prices and the closing of markets compelled serious reductions of poultry flocks. The need thus created is regarded by Mr. W. A. Brown, chief of the Poultry Division of the Federal Live Stock Branch, as Canada's opportunity to pave the way for a permanent place in the export trade to Great Britain. Mr. Brown expressed this opinion at the first Canadian National Poultry Conference, held in Ottawa this year, the report of which has been published and is available at the Publications Branch of the Department of Agriculture at Ottawa. It was strongly urged at that conference that this is the time of co-operation. The provinces were recommended to co-operate with the Dominion as the great clearing house of operations calculated to promote the industry. The poultry was recommended as a means of soldiers' re-establishment by Mr. W. J. Black, chairman of the Land Settlement Board. He expressed that he would see a small flock of Poultry about homes of every returned soldier who becomes settled on the land.

## Armenian Relief

(Concluded from Page 1)  
now: second, to enable them once more to support themselves, by restoration to their homes, and by all the help that is needed to enable them to start life again. A large proportion are orphaned children, who will have to be educated and taught industrial pursuits. It is an immense work, and while the Christian and humanitarian motive to give well and to give quickly is predominant, let us not forget also that we owe the Armenian people a debt for very real help given in the war. Armenians formed a valuable percentage of the Russian troops in Caucasus, his Armenian troops in Palestine were highly praised by General Allenby, and Armenian volunteers under General Andranik, were able to hold back the Turks, advance in the Caucasus for many valuable months in the later stages of the war. The date of Mr. Lewis' lecture in Jarvis is to be Tuesday the 25th, inst. in the Presbyterian Church. We hope he will have, as the cause deserves, a very large attendance from Jarvis and neighborhood.

The Brunswick Ultrona

Plays ALL Records At Their BEST

ONLY on The Brunswick can you obtain this great feature—the Ultrona all-record player. It is a year or two in advance.

With the Ultrona you are not restricted to one make of records. You can play them all. And each is played as it should be, with the proper diaphragm, weight and needle.

Another determining feature of the Brunswick Method of Reproduction is the All-Wood Tone Amplifier, made entirely of wood on the violin principle. All metal construction is avoided, bringing out in rich clarity tones hitherto lost.

Once you know The Brunswick, all other phonographs lose their appeal. Let us play it for you.

Since, Nov. 18.—The following verdict was returned by the jury which investigated the death of Homer Waffle: We, the jury empaneled to enquire into the death of Homer Waffle, find that he came to his death accidentally, being caught in the gears at the Wood Stock Company's mill in the Township of Woodhouse at about 4.30 p.m. on Monday, Nov. 10th, 1919.
