

The Expenditure of \$610,000,000

**How the last
Victory Loan
was spent**

**For
Demobilization**

**For Trade
Extension**

BEFORE buying Victory Bonds again you may want to know how Canada used the money you loaned her last year

Canada borrowed the money to carry on the war and to provide credits for Great Britain and our Allies

CONSIDERABLY more than one-half of the Victory Loan 1918 was spent on our soldiers. This included \$312,900,000 for paying them, feeding them, bringing them home, separation allowances to their dependents, maintenance of medical services and vocational training schools

\$59,000,000 of the Victory Loan 1918 was paid on account of authorized Soldiers' gratuities

\$9,000,000 was spent at Halifax for relief and reconstruction after the disaster

Other disbursements were not strictly speaking expenditures, but National Re-investments

To Great Britain for example

\$173,500,000 was loaned for the purchase of our wheat and cereals

\$9,000,000 for our fish

\$30,000,000 for other Foodstuffs

\$2,900,000 for Canadian built ships

\$5,500,000 to pay other British obligations in Canada.

Making in all \$220,900,000 advanced to Great Britain

To our Allies, we loaned \$8,200,000 for the purchase of Canadian foodstuffs, raw material and manufactured products

The Re-investments will be paid back to Canada in due time, with interest

These credits were absolutely necessary to secure the orders for Canada because cash purchases were impossible

They have had the effect of tremendously helping agricultural and industrial workers to tide over the depression that would have followed the Armistice, had we not made these credit loans

As far as money is concerned, 1919 has been, and is still—just as much a war year as 1918. Our main expenditures for war cannot be completed until well on into 1920. Thus another Victory Loan is necessary—*Get ready to buy.*

THE MUTUAL LIFE OF CANADA

DIVIDENDS

Our Annual Dividend Policy is the "last word" in life insurance. If the dividends are used to reduce premiums the substantial reduction of the second and subsequent premiums is "felt in your pocket."

If the dividends are accumulated under the P. and M. method they provide for the early maturity of your policy—and in the event of prior decease, the accumulated profits and interest are added to your estate, for example:

Under the P. and M. method Ordinary Life Policies have become fully-paid-up life policies in from eighteen to twenty-five years, according to age, thereafter receiving annual cash profits. Ordinary life policies have also matured as endowments.

Twenty-Payment Life Policies have become fully paid up in less than fifteen years, receiving annual cash profits thereafter. They have also matured as endowments.

Endowment Policies have been paid in cash several years earlier than the date set forth in the contract.

McClary's Gas Ranges

FINE pastry and juicy meats are easy to prepare if the gas range is a McClary's.

McClary's Ovens are built to retain the heat: have reliable thermometers, heat evenly: no danger of oven rust.

Finished with hard-baked, black enamel. No black-leading is required. A damp cloth keeps it looking like new.

There is a model for every need—Come in and see them.
