How to say "No!"

Mark Your Ballot with an X after Each Question under the word "No"

1	Are you in favour of the repeal of the Ontario Temperance Act since 1887?	YES	NO
2	Are you in favour of the sale of light beer containing not more than two and fifty-one one-hundredths per cent. alcohol by weight through Government agencies and amendments to The Ontario Temperance Act to permit such sale?	YES	NO
3	Are you in favour of the sale of light beer containing not more than two and fifty-one one-hundredths per cent. alcohol by weight through Government agencies and amendments to The Ontario Temperance Act to permit such sale?	YES	NO
4	Are you in favour of the sale of spirituous and malt through Government agencies and amendments to The Ontario Temperance Act to permit such sale?	YES	NO

Above is an exact reproduction of the Referendum ballot, showing the correct way to Vote in order to sustain the Ontario Temperance Act as it stands.

Everybody should study the four questions and realize exactly what they mean. Do not be misled by the ignominious demand for "light" beer.

The beer of the ballot is 118% stronger than the Ontario Temperance Act now allows, and over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.

Answer Each Question

- Unless you vote on every question your ballot is spoiled.
- You must mark your answer to each question with an "X" only. Anything else would spoil your ballot.
- Unless a majority vote "No" on question 1 the bars will be restored and the sale of all kinds of intoxicants permitted.
- A majority vote "No" on questions 2, 3 and 4 the Ontario Temperance Act will become almost worthless.
- The only SAFE course is to mark your ballot as shown above.

"No!"—Four Times—"No!"

No repeal; No government beer shops; No beer saloons; No government whiskey shops.—Four X's, each under the word "No."

Ontario Referendum Committee

JOHN MACDONALD, Chairman
D. A. DUNLAP, Treasurer
ANDREW S. GRANT, Vice-Chairman and Secretary
(1001 Excelsior Life Bldg., Toronto)

Let—

Ontario's Golden Era Continue

PROGRESS—PERFORMANCE—PROMISE

If we have given worthy service during the trying time of war, may we not be relied upon to serve the nation faithfully and well in hastening the time of still greater prosperity and happiness? As we have begun, so we will continue; fearless in the discharge of duty and ever alert in the service to the people. Conscious of our shortcomings, and grateful for the opportunities we have had to serve our Province, we submit our record with confidence to the electors for their consideration and approval, and ask from a united people a mandate to carry on the Government of this Province.

<p>WAR WORK</p> <p>Ontario gave in men 22,000; in contributions \$34,312,188; in Victory loans \$340,465,350. Ontario provided 50 per cent. of Canada's war effort. The Ontario Government spent in war work over \$10,000,000; maintained in England the most efficient military hospital in Europe; furnished club houses for the British made gifts of food and guns to the Mother Country; made large grants to the British Red Cross; Bright's Scheme relief and other worthy patriotic objects. Ontario's war effort has made the name of Ontario resound in every corner of the world.</p>	<p>EDUCATION</p> <p>Ontario's educational system is designed to provide the most efficient training possible for the boys and girls who are to become the future citizens of the state. Under the leadership of the Minister of Education no expenditure has been denied to accomplish this purpose. Generous grants have been made for agricultural, technical and vocational training; returned soldiers are encouraged to enter the teaching profession; teacher salaries have been raised; a super-annuation scheme inaugurated. This year nearly \$4,000,000 will be spent on education in Ontario.</p>	<p>HYDRO-ELECTRIC</p> <p>Hydro is to-day the most extensive public-ownership enterprise of its kind in the world. Since its inception Hydro-Electric has saved to the consumer a total of fifty millions of dollars. Hydro displaces annually 5,000,000 tons of coal. Hydro develops and distributes 350,000 horse power to over 200 municipalities, 175,000 domestic consumers and 6,000 customers for power. The Queenston-Chippewa undertaking will provide an economical development of 400,000 horse power, and the prospective ultimate development in the whole Province is over 1,000,000 horse power.</p>	<p>AGRICULTURE</p> <p>The agricultural industry in Ontario is in a prosperous and thriving condition. Appropriations amounting to \$475,000 in 1919, \$2,625,000 last year the value of the farm products of Ontario was \$30,000,000, and the value of the combined farm assets was one and a half billion dollars. Within the last three years ten thousand farm mortgages have been paid off. Encouragement has been extended to every branch of the industry, education has been fostered, and social conditions have been improved. Agriculture has received the "carrot" and the "stick" of government action.</p>
<p>FINANCE</p> <p>In 1904 the income of Ontario was \$4,404,000; in 1913 it was \$11,188,302; in 1918 it was \$19,270,123. This has been accomplished without resorting to direct taxation apart from the war tax, which has been repealed. Out of this revenue the Government has returned to the people in larger grants, \$1,907,000 for Education; \$1,676,233 for Agriculture. The public services have been enhanced and ample grants have enabled important public duties to be undertaken.</p>	<p>HIGHWAYS</p> <p>Good roads add wealth and comfort to rural life. The highway improvement programme of the Ontario Government is applied to both urban and rural districts. A complete system of roads, including provincial roads, county roads and township roads with a mileage of 12,570 miles, has been worked out and will be constructed. The entire motor license revenue, with a large amount added, will be spent annually on this work.</p>	<p>LABOR</p> <p>Ontario's industrial leadership in Canada has been maintained by broad and effective labor laws. Under the Workmen's Compensation Act \$10,000,000 has been paid out in awards. Special safeguards have been provided for female and child labor. A minimum wage in Ontario is assured, and a direct representative of labor will sit in the Cabinet. Free employment agencies have been established, and technical education has been encouraged.</p>	<p>HEALTH</p> <p>Ontario's public health service is not excelled at the continent. Public health education, child welfare, sanitary engineering service, and the free distribution of antitoxins and serums have conserved life and prevented epidemic. A scheme of pensions for mothers is to be established. The Provincial Board of Health supplied all the typhoid vaccine used in the Canadian troops in the war. This feature of the work has brought about a saving of over \$100,000 a year to the people of the Province.</p>

As a war measure the Ontario Temperance Act was so passed, suspending for the duration of the war the retail sale of liquor. The promise was given that as soon as the war was over the whole question of the character of the liquor legislation of Ontario would be submitted to the people by Referendum, and the will of the people would prevail. This promise is now being fulfilled.

PROMISE

Greatest possible assistance to Agriculture—Faithful enforcement of the Referendum—Support of Hydro-Electric; cheap light and power for the farmer—Convert railway branch lines into Hydro roads—Good roads in every part of Ontario—State pension fund for mothers—Direct representation of Labor in the Cabinet—A minimum wage—Housing accommodation—Legislation implementing the findings of the National Cabinet Conference—Consideration to returned soldiers with Cabinet representation—Educational progress, technical and agricultural instruction—Improved transportation in Northern Ontario—Timber conservation—Encouragement in raising development—Enlargement of Ontario's free public health service.

H. C. O. L. High Cost of Living in England

The following items are from a letter recently received from England "We have little to complain about in Norfolk." Talking of prices, furs have reached an amazing standard even allowing for the various causes which would naturally account for a rise in price. I have just been looking over the catalogue sent out by one firm. In it I read that a coat of Hudson Seal that you sell for \$285 cost 74 guineas \$370. The smallest things show the determined increase. For example, shoe laces cost a shilling a pair, 24c. I believe you still sell real good ones for 8c. a pair. We are paying nine pence, 18c., a quart for milk with the prospect that it may go up to a shilling, 24c.

All cleaning materials have gone up enormously, soap costs quite twice as much as you sell it for at your store.

Laundry Work is becoming outrageous for besides charging more for each Item there is an additional rate of 50 per cent added to every bill.

It's not a few things, Everything is up. A reel of cotton that you sell for 8c costs sixpence (12c), the Baker, the Butcher, and the Grocer all charge a small sum weekly for the delivery of these goods and the end is not yet, I'll be glad to get back to DEAR OLD SIMCOE.

Falls Furniture AND Home Furnishings Department

is an attractive place---Third Floor.
Three per cent may be all right in some things, but you get a straight 100 per cent. in value at Falls in Furniture every time. Now is a good time to buy.

H. S. FALLS
COMPANY, OF SIMCOE, LTD.
