Always Serve Under Own Flag, Not Union Jack

Reply to Statements of U. S. Politician

Washingto nreport—Ronaldo Lind-say, Charge d'Affaires of the British imbassy, to-day made public a letter, in reply to an inquiry as to "how many Egyptian soldiers fought under the woman with a builet through her the British flag during the war and head. Near her body was the rewhat was the number of casualties suf- volver. fered by them?""

ed by the brief recently presented by weapon. Only two bullets could be Joseph W. Folk, former Governor of found. Missouri, to the Foreign Relations Committee of the United States Senate, in which Mr. Folk called attention to the fact that 1,000,000 Egyptian troops fought on the side of the Al-

"The British Government," wrote Mr. Lindsay, who was in Egypt all through the war, "has carefully avoiddestroying Egyptian sovereignty. Egyptian soldiers always serve under the Egyptian and not under the British flag. The Union Jack does not fly in Egypt except over the British military establishments in the country, elsewhere the distinctive Egyptian flag is displayed. To answer your question literally, no Egyptian soldier joined the British colors.

"Of course this is only a partial statement. In February, 1915, when the Turkish army attacked Egypt, a battery of Egyptian artillery joined the British force defending the line of the Suez Canal. I believe they lost two killed and half a dozen wounded.

"No other Egyptian armed forces were in action during the recent war, but later on, three or four Egyptian battalions guarded lines of communication in Sinai while General Allenby was conducting his campaign in Syria; and an Egyptian detachment was at one time in the Hadjas. Neither of these forces was ever under fire.

"In addition to this, large numbers of Egyptians were enrolled in labor and transport corps auxiliary to the British forces. These men were enlisted for short terms of from three to six months and did the manual and cil to-day decided to send an ultimaunskilled labor for General Allenby's tum to the Roumanian Government

"How many of these men passed through the labor corps cannot be and with a time limit, will be delivstated, but the total number at one moment amounted to between 80,000 Should Roumania refuse to comply and 90,000 men."

The Foe of Indigestion.—Indigestion is a common allment, and few are free from it. It is a most distussing complaint, and often the suffering attending it is most severe. The very best remedy is Parmelee's Vegetable ever, that it will deal mainly with the Pills taken according to directions.

They rectify the irregular action of Hungary by the Roumanian the stomach and restore healthy action. For many years they have been a standard remedy for dyspensia and indigestion and are highly esteemed

Chicago Girl Murders Wealthy Employer.

And Then Suicides in Her Room.

Chicago despatch—Police of the Fillmore street station spent yesterday untangling Chicago's latest triangle tragedy, the murder of Charles W. Richards, 55 years old, wealthy vicepresident of the D. W. Bosley Company, by Marie Meyers, 35 years old, his employee, and her suicide Saturday afternoon at 4220 West Adams

The factors used in solving the mystery were varied. There was the tinydiary, on the pages of which for more than a year Marie poured out her heart secrets.

There were two telegrams, one denying the contents of the other, which Marie had sent Saturday morn-

There was the murder scene, with the telltale position of the bodies and the revolver. There was the revolver itself.

And, last, there was a rusty and broken water pipe in the basement of the death house.

Each of these threads of evidence brought the police to the conclusion British Prime Minister, Mr. Lloyd Miss Meyers, who confessed friendship with and jealousy of Richards in her diary, had planned the murder for more than a year, up to the minute of the grime that left Richards' wife heartbroken and ill in their pretentious home at 3228 Washington boule-

vard last night. . First the diary itself told a tale of unrequited love, of deep-seated jealousy for other women in its earliest entry, made apparently in July, 1918. In this passage the girl intimated she had been wronged, that other girls employed by the Bosley tirm had taken the same path, and that Richards was

trysting with them. The last page bore a hint of death. It was a carefully written antidote for ichloride of mercury poisoning. Other passages directed that should she be found dead her body be return-

ed to the woman with whom she had been living for years Mrs. James Fahey at the Adams street address. Then the telegrams. 'Mrs. Fahey told Capt, James Gleason of them yesterday afternoon when she returned

from Evansville, Ind., where she had been vacationing. my morning. It stated that Marie cant.

was well, and directed Mrs. Falley to posting her stay for another week. A few hours later the second tele-gram reached Mrs. Pakey. It asked her to hurry back to the city because

Mise Meyers was ill.

The police declare that in the interval between the sending of the two messages Marie had realized the possibility of ending her blighted triangle

The murder scene indicated that Richards was struck in the back of the head by a builet fired from behind him. One of his feet was still up on a cedar chest when the death missile struck. He might have been seated, looking out of the window in the flat where Miss Meyers lived. Or he might have pisced his foot on the chest with the intention of jumping out of the window when she fired. Almost within reach of his body lay

Here enters an element of mystery. The enquiry, it is said, was prompt. There were three empty shells in the

> This was taken by the police to confirm their theory that the woman had planned to murder even to the extent of practicing with the pistol. Its bore was marked as though it had been

fired repeatedly.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted, and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful curative agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

Allies Order the Evacuation of Hungary.

Seized Goods Must be Handed to Them.

Paris Cable—The Supreme Counregarding her course in Hungary. The ultimatum, couched in drastic terms ered by an envoy of the Council. with the terms within a given time, diplomatic relations will cease and him from Bucharest the Allied diplo-

matic representatives there. The text of the ultimatum will not be given out until it is delivered "COLD IN THE HEAD" ever, that it will deal mainly with the is an acute attack of Nasal Catarrh. Per-

With regard to reparation ,the Allies, it is indicated, will insist that Roumania recognize that all goeds, rolling stock, etc., requisitioned by the Roumanian army in Hungary must be handed over to the Allies, to be distributed among the states having claims against Hungary, in a proportion to be assigned by the Peace Conference. Roumania must undertake to pay the Allies for re-

quisitioned material, foodstuffs, etc., as she is unable to return. The envoy has not yet been se-

lected, but it is believed he will he a Frenchman. The name of Charles Jonnart, formerly Governor-General of Algeria, is mentioned for the

Simultaneously the Roumanian diplomatic representatives in the various Allied capitals will be summoned by the Foreign Ministers, who will explain to them the very drastic character of the ultimatum and the extreme gravity of the situation that will arise if Roumania refuses to

Their Goods Already Appear in Britain.

And Wative Industries Are Alarmed.

London, Cable — German goods once more have made their appear-ance in the London market, although Great Britain only opened her trade door yesterday. Samples of German goods, with circulars containing prices, are reaching English merchants in every mail, and reports have reached the National Union of British Manufacturers that German represents already are busy in London and provincial towns offering merel every inducement to take goods for immediate delivery.

German merchants are sending small fancy goods by post, some of these samples having reached London to-day, despatched apparently shortly after Premier Lloyd George announced the restrictions would be removed. Monday's invitations, marked "con-

fidential." were sent out by representatives of German houses to British houses to inspect the samples sent and to note that the prices were below British quotations for similar goods. In some instances the Germans offered to pay freight to Antwerp. Others declared they had goods in Scandinavian countries waiting for shipment.

The situation is considered alarming that various sections of the federated British industries will hold meetings immediately, and the view expressed will be submitted to the Board of Trade.

German postcards, hairpins, curling irons and toys were placed on sale in several parts of London to-day at prices 40 per cent. under local quotations. In most cases, perhaps nine out of ten, British firms will refuse to make any purchase in Germany, but it is the tenth buyer who will eventually force the others to buy cheap German goods or lost trade.

"It may seem unpatriotic to buy German goods," said one textile manufacturer, "but you must remember that British manufacturers cannot afford to pass up such goods from Germany when they cannot get anything so suitable or so cheap elsewhere. The great peril of protection is that it protects the inefficient or backward methods. It doesn't en-courage the British dye manufacturer to improve his processes. It only forces the user of dyes to pay a

price for an inferior article." same philosophy has reached other lines of activity, with the resualt the Allied envoy will bring away with that British trade with Germany will probably reach pre-war proportions in the near future.

Reds Say Kolchak Has Gone to Irkutsk.

Trotzky Calls For Defence of Petrograd.

London Cable A wireless des patch from Moscow received dere reports that Admiral Kolchan, head of the all-Russian Government, has evacuated Cmsk, and transferred his

leadquarters to irkutsk. It has been ascertained that the despatch from Berlin on Tuesday giving German reports from Riga to the ien army, had issued a proclamation to the population of Petrograd that an attack was about to be made on that city, is untrue. General Gough left Helsingfors Aug. 19 for home, and at the present time is in England. He did not see Admiral Cowan, commander of the British squadron operating in the Baltic Sea, before his de-

parture for home. Leon Trotzky, the Bolshevik Mili-tary and Naval Commissary, addressing the Petrograd Seviet on Sept. 1, declared that the Bolsheviki must stand proudly and impenetrably in the defence of Petrograd, according to a Soviet Government wireless message from Moscow. Trotzky added that unless Finland gives guarantees of her sincerity and the cessation of further provocation, the Bolsheviki will make every preparation for an

overwhelming advance into that coun-The Soviet approved unanimously a proposal to offer peace to Esthonia.

Ancients Get Undeserved Credit. Asphaltum, gathered from the fountain of Is on the banks of the Euphrates, was used in building the walls of Babylon. Much of the talk about the skill of the ancients and their lost arts is all a myth. They should be given full credit for what they did, but such walls as those of Babylon and such structures as the Pyramids could be built far more eastly and quickly at the present time. Now, however, people have more im-

portant work to do, and greater things to achieve. a chance to come across. Any number of young Dutchmen are also determinwages that they really believe Bri-
