

# Alcohol is Poison

Doctors Say It Is a Menace in Any and All Forms

**F**IVE ounces of alcohol will kill a full-grown healthy man within ten hours. Taken in smaller but repeated doses alcohol lets him live longer but gets him in the end. All alcoholic beverages are poison, slow or swift.

Medical science has established that alcohol is a poison and a narcotic chemically related to ether and chloroform, and not a stimulant. A man was once brought out of ether who had taken eight ounces, and a man was once brought out of chloroform who had taken 22½ ounces, but no man ever revived who swallowed five ounces of alcohol at a single dose. The unconsciousness or coma produced by alcohol if not broken within ten or twelve hours is followed by practically certain death.

Alcohol as medicine has been expelled from the American Pharmacopoeia by the American Medical Association.

## 2.51% Alcohol in Beer Makes it Poison

**T**HE beer of the ballot contains 2.51% alcohol by weight—over twice as strong as the beer of the Ontario Temperance Act (2.50 Proof Spirits). The Beer of the Ballot is intoxicating. Three glasses of the Beer of the Ballot contains as much alcohol as a glass of whiskey.

When you are asked are you in favor of beer containing 2.51% alcohol by weight—in shops, bars, or anywhere else, vote

**"No!"—Four Times—"No!"**

Save yourself, save your family, save your country for the destiny God intended unhandicapped by "booze."

Be careful—mark your ballot after each question with an X under the column headed "No," or your vote will be lost to Temperance.

THE oven is the big feature of a McClary's Gas Range.

The heat is uniform and is confined. Cooking is on view through the wired-glass oven door. A reliable thermometer banishes the risk of overheating.

McClary's Gas Ranges are finished in hard-baked black enamel. The whole range, inside of oven included, can be cleaned with a damp cloth.

Many styles and sizes. Let us show them to you.

### Memorial Hospital

The project for the establishment and maintenance in Dunnville of a county memorial hospital has taken more definite shape during the past week. When it was first mooted, Mr. F. R. Lalor, M. P., expressed his willingness to contribute his seasonal indemnity of \$2,500 toward it. Since then the present fall session has been called, and Mr. Lalor has generously donated both indemnities to the worthy object.

Mr. Lalor's gift will be applied to the purchase of the building, which will be turned over to the Women's Patriotic Society, in trust for the maintenance therein of a memorial hospital for the County of Haldimand. The building decided on is the Swayzie homestead on Lock street. During the week this building was inspected by the joint committee representing the Women's Patriotic Society, the town Council, the Board of Trade and the Great War Veterans' Association, and also by the doctors of the town, all agreeing that it would be suitable for the purpose intended when certain necessary alterations are made.

It is proposed to make application to the County Council for a grant and to proceed as rapidly as possible with the arrangements for the opening and maintenance of the institution, the need for which has been felt for a long time.

### C.P.R.'S NEW RECORD

The re-employment of returned soldiers has been carried out by the C.P.R. so wholeheartedly that according to the official records up to the end of August, actually more returned soldiers have been given employment than left the Company for service overseas. The exact figures are as follows:—

Total reported as joining the Army	10,538
Dead	1,000
Wounded	1,962
Re-employed in the service	5,024
Other soldiers given employment	5,543
Total soldiers given employment to date	10,567

In finding employment for returned soldiers, the C.P.R. has found by experience that in most cases it is advisable to restate them in the same department as that in which they worked previous to enlistment. The freight handler who has ambitions to become a dining car waiter is not encouraged to change his vocation unless he can prove that he learned something about waiting, for instance, at an Officers' mess during his military life. His military experience has probably made him a better man than before for handling freight but has not qualified him for the skilled trade of a dining car waiter. Baggage men who have served in the Army come back as a rule all the better for their experience, but the Army training has not qualified them to be sleeping car conductors or ticket clerks, and if they prove to be misfits at a new job the only result is friction and discontent. The general experience, however, is that the normal returned man who goes back to his old or a similar job is all right, indeed is often improved by the discipline and teamwork which he has learnt in the Army.

The policy of the C.P.R. has been to find a position at least as good as the position given up, and this policy has been carried out in the higher ranks of the service as well as in the lower ranks. Thus:

Mr. T. S. Acheson, who was employed as General Agricultural Agent at Winnipeg, enlisted in October 1915, was re-employed in the same capacity on January 1st, 1919.

Mr. G. W. Curtis, who was employed as Industrial Agent at Montreal, enlisted in November 1916, was re-employed January 1st, 1919 in the same capacity.

Mr. M. L. Duffy, who was Chief Clerk, Freight Department, at London, England, enlisted October 1914, was re-employed March 1st, 1919 as Agent at Glasgow.

Mr. P. A. L. Gascoigne, who was Superintendent Car Service, Montreal, enlisted July 1915, resumed duty as Secretary Treasurer of the Canadian Pacific Ocean Services Ltd., Montreal, in October 1918.

Mr. Gerald Hiam, who was District Freight Agent at Fort William, enlisted in June 1915, and returned to duty on March 15th, 1919, as District Freight Agent, at Oshawa.

Mr. W. M. Kirkpatrick, who was Assistant Freight Traffic Manager, at Montreal, and enlisted in September 1915, resumed duty on February 1st 1919, as Assistant Freight Traffic Manager at Winnipeg.

Mr. T. M. Leach, who was Chief Surgeon at Moose Jaw, enlisted in February 1916, and resumed duty as Chief Medical Officer at Moose Jaw on June 1st, 1919.

Mr. C. H. Muckleston, who was Division Engineer in the Natural Resources Department at Calgary, enlisted in April 1916, and resumed duty as Division Engineer on March 17th, 1919.

Mr. C. G. Ommann, who was Special Assistant Engineer at Montreal, enlisted in August 1916, and resumed duty in July 1919, as Assistant Engineer in the Chief Engineer's Department at Montreal.

Mr. L. C. Ord, who was Assistant Works Manager at Angus Shops, Montreal, enlisted in September 1915, and resumed duty in the same capacity in May 1919.

Mr. C. W. P. Ramsay, who was Engineer of Construction, Montreal, and who took command of the Canadian Overseas Railway Construction Corps in February 1915, resumed duty as Relieving Superintendent on Eastern Lines in March 1919.

Mr. M. J. Robertson, who was Assistant to the Manager of the C.P.R. Real Estate Department, Montreal, enlisted in June 1916, and returned to duty in his former position in March 1919.

Mr. H. B. Yewdall, who was Purchasing Agent in the C.P.R. Right of Way Department at Winnipeg, enlisted in November 1914, and resumed his former position in June 1919.
