WILL NOT TRUST RUHR ZONE TO GERMAN ARMY

France Refuses Ebert Govern-SHORT ITEMS ment Its Permission

Which Had Been Expected, and Force Advanced

Paris, The request of the German Government that it be permitted to send troops to the Ruhr district, in the neutral zone near the German border, has been denied by the Government of France.

Conversations over the German request have been in progress between Premier Millerand and Dr. Von Mayer, the German Charge d'Affaires, in Paris. M. Millerand yesterday indicated he would give the German Charge an early reply, and it was handed to Dr. von Mayer to-day. The reply read:

"Replying to your note of yesterday, I have the honor to confirm to you the conditions to which the Government of the French Republic desires to subordinate its eventual authorization to permit German troops to enter the Ruhr valley.

"Such an authorization, which would constitute a derogation of articles 43 and 44 of the treaty of Versailles, could be justified only by imperative and evident necessity. The commission charged with the control of the execution of the protocol of Aug. 21, 1919, has expressed to me, as I informed you in our conversation yesterday, its formal opinion, confirmed, also from other sources, that military intervention in that region at present would be useless, as well as dangerous."

"Thus, circumstances do not permit me at this time to grant the request of your Government. I must, therefore, reserve my definite reply to the proposition which you made me yesterday."

FRANCE'S COSTS ARE ENORMOUS

Spending 139,000,000 Francs Each Day.

Ten Times That of Year War Broke.

London special cable says: Lord Marsal, Minister of Finance, speaking in the Chamber of Deputies to-day on the financial position of the country, said:

"The daily expenditure of France was 41,000,000 francs in 1914, 68,000,000 francs in 1915, 82,000,000 francs in 1916, 104,000,000 francs in 1917, 127,000,000 in 1918, and 139,000,000 francs in 1919."

The deputies listened breathlessly as the Minister dealt with the formidable figures, giving the total expenses for 1920 as 50,052,000,000 francs, of which 22,000,000,000 were recoverable from Germany. This year's deficit was 8,-000,000,000 francs. The treasurer's disposable amount at the Bank of France was 700,000,000 francs.

"Foreign treasuries are closed to us, and we cannot consider the possibility of raising an important loan abroad. The Minister explained the high cost of living by the inflation of paper money, the Bank of France's advances, and the issue of National Defence Bonds. He said that as France multiplied in the face of continued decreased production, the purchasing power of the franc diminished.
