Three years ago—on April 9, 1917—Vimy Ridge was taken by the Canadians—one of the most spectacular and brilliantly successful achievements of the whole western campaign. Those Who Must File Tax Returns

Considerable doubt has existed as to what persons must fill out the Government tax slips obtainable at the post-office, and in order to set this uncertainty at rest the following query was sent to the inspector of taxation:

"Is it necessary for married persons, with incomes below \$2,000, or unmarried persons, widows or widowers, without dependents, who have incomes below \$1,000 to file income tax returns?"

Here is the reply:

"If the total income from all sources falls below the amounts referred to, taxpayers are not required to file unless specially requested from this office."

"The second paragraph of the fine shown under Class 2 (see official notification as published), referring to one hundred dollars per day, applies in cases where taxpayers have received special request to file from this office direct, or furnish additional information where a return has been made. The 25 per cent. penalty refers to persons receiving taxable income, who do not file on or before the 30th of April."

No Hydro for Two Years

Reeve McCarter has been endeavoring to get Hydro power for the village and recently waited on the Commissioner in Toronto regarding the same. The following letter received speaks for itself.

8th April, 1920.
Mr. S. McCarter, Reeve,
Jarvis, Ont.

Dear Sir:
Kindly be advised that the Commission, at its meeting on the 28th of March, 1920, considered your request with respect to supplying power to your municipality, and I am requested to advise you that no power will be available until the year 1922.

The Commission had hoped to be able to take action this summer with regard to the supply of power to Jarvis; however, under the existing power shortage it would not be possible to take on additional municipalities.

It is to be regretted that it has been necessary to postpone the date on which power can be supplied to Jarvis, but you will understand that the present power supply falls far short of the demands of the municipalities already contracted for and connected to the system.

Yours truly,
W. W. POPE,
Secretary.
Hydro Electric Power Commission of Ontario.

Next-of-Kin To Get Tribute From King

Ottawa, April 12—The next-of-kin of every Canadian soldier killed in the war, or who may die within the next six years from causes attributable to his service during the war, is to receive a handsome memorial plaque and scroll, accompanied by a message from his Majesty, the King.

An announcement to this effect was made by the Militia Department to-day. The memorial will come from the British Government, which will bear the entire expense in connection with the issue. The Records Branch here is now preparing nominal rolls for which the number required for distribution in Canada will be sent out.

It is an artistic bronze plaque of emblematic design, and in addition to the King's message will be accompanied by a parchment scroll with appropriate wording. The plaque, which measures 4 1/2 inches in diameter and 3/4 of an inch thick, will bear the deceased's Christian name and surname and regiment.

The letter from his Majesty, mentioned in the regulations governing the award, is a note, signed by the King, and bearing the crest of Buckingham Palace. It reads: "I join with my grateful people in sending you this memorial of a brave life given for others in the great war."

The memorial is not to be confused with the memorial cross, which is now being sent out by the Militia Department to the widow or other immediate next of kin of fallen Canadian soldiers.

Tenders Wanted

A change is about to take place in the village, whereby Mr. William Hodges takes over the barber shop business of Mr. Geo. Blumenstock. The deal has been completed and the new owner takes possession next Monday. A short time ago Mr. Hodges purchased the building occupied by Mr. Blumenstock and was granted a pool-room license by the Council. Mr. Blumenstock made application to the Council for a license, the same being granted at the last regular meeting. Since then the two license holders came to the conclusion that there was not sufficient business for both, with the result that Mr. Hodges purchased the business of Mr. Blumenstock.

Mail Carriers' Grievances.

The rural mail carriers of the country have a grievance, and have put their case before the public so as to try to win popular support for their petition to the Government for redress. The majority of them use horse drawn vehicles on their rounds. They took four-year contracts during the war, basing their estimates on current prices. Since then the prices of hay, oats, and other essentials have risen greatly. The cost of oats alone has nearly doubled in the past year. Very few of the carriers are farmers, or have any other occupation to add to their incomes. They are all under bond for the fulfillment of their contracts, and must "carry on" to the end or forfeit their security.

It may be argued that the contractors should have had the foresight to anticipate the advance in costs, and that risks are inseparable from most transactions of the kind. Certainly they have no legal claims on their employer, the Government. But few men, however shrewd, predicted that prices would soar as they have done, and would rise even more rapidly in peace than in war. Some of the carriers have been compelled to give up and have lost their savings, and there are undoubtedly many other cases of hardship. The Government is asked to grant a bonus retroactive to January, 1917, and to relieve the carriers from their obligations or pay them at a rate of \$60 per mile per year. They ask also that they shall not be compelled to work on statutory holidays. As there were 3,705 rural mail routes in operation last year, a very large sum would be needed even for a small retroactive bonus for each contractor. The financial problem would have to be weighed carefully. But the petitioners have every claim to a sympathetic hearing. They are working for less than living wages, and they can find no one to take their contracts off their hands. They are performing a public service which would not be done so cheaply if the Government had to call for tenders anew. They have to make their daily journeys under all weather conditions. While parliament is sitting it should interest itself in these deserving public servants, who have not neglected their duties despite their grievances, and look carefully into their representations.

Do Hens Pay?

Mrs. John Feeney, of Walpole, has 60 hens which laid 997 eggs during the month of March. When one remembers the high price of eggs at that time it would appear that poultry pays. Here is the daily record: March 1, 30 eggs; 2, 31; 3, 26; 4, 30; 5, 29; 6, 35; 7, 27; 8, 28; 9, 36; 10, 31; 11, 29; 12, 36; 13, 36; 14, 27; 15, 40; 16, 30; 17, 34; 18, 38; 19, 21; 20, 40; 21, 35; 22, 35; 23, 42; 24, 27; 25, 30; 26, 28; 27, 36; 28, 35; 29, 29; 30, 33; 31, 32. Total, 997 eggs.
