BEST TREATMENT FOR HIGH BLOOD PRESSURE

When the Blood does not circulate freely through the Veins you have High Blood Pressure and this is but a symptom of some other disease or trouble. There is usually Kidney Disease, Heart Disease, Nervous Trouble, Hardening of the Arteries or Brain Trouble.

There is always the danger of a rupture of a Blood Vessel and on the Heart, the Blood Vessels and the Kidneys are all associated with High Blood Pressure, the best and most satisfactory treatment is

Hacking's Heart and Nerve Remedy and Hacking's Kidney and Liver Pills.

This treatment will reduce the Blood Pressure by removing the cause and driving out the Poisons from the system. We are firmly convinced that this treatment will reduce the blood pressure below the danger mark and thus free your mind from the constant worry of death.

People who have been ailing for years should not expect a complete cure in a few days, one should take at least six boxes of Hacking's Heart and Nerve Remedy and three boxes of the Kidney and Liver Pills. Be sure to get Hacking's. If your dealer does not have them, he will be glad to get them for you.

Mrs. Walker, formerly of Port Elgin, now living in Flint, Michigan, says: "The neighbors are perfectly astonished to see me getting along so well. I contribute my good health to the persistent use of Hacking's Heart and Nerve Remedy and gladly recommend it to all my friends."
