The Present Cost and Selling Price of Hogs

(Experimental Farm Note.)
When a man states there is no money
in hogs he bases his contention largely on
more or less accurate records of feeding
costs, and feeding costs only. If the
market hog cannot even pay for his feed,
what then of interest on investment,
labor, risk, losses, marketing expenses
etc., etc.?

The feed cost to produce one hundred
pounds of pork may be calculated by in-
cluding the cost of maintenance of the
breeding stock responsible for the mar-
ket hogs.

Applying this method, one hundred
pounds of pork would require about 600
pounds of meal. American farm survey
figures indicate even a higher meal cost,
615 pounds. Valuing meal and grain at
\$70.00 per ton which is conservative
enough, the herd feeding charges per
hundred pounds of pork would amount to
\$21.00 on the 6 to 1 basis. Even this
does not cover all farm costs.

Figures available from herds on the
Experimental Farm System compare very
closely with those obtained in farm sur-
vey reports i.e. that approximately 78 per
cent of the cost of pork production is for
feeds and the remaining 22 per cent to
cover farm costs exclusive of shipping
charges. To produce 100 pounds of pork
under average Canadian conditions re-
quires from 450 to 500 pounds of grain or
the equivalent. At \$70.00 per ton for
meal this would represent a feed cost per
cwt. of pork of \$18.62 which figure rep-
resents only 78 per cent of the total cost.
One hundred per cent or the feed plus the
farm charge would amount to \$21.28 per
cwt.

The above figures may appear startling.
There are hundreds of small feeders who
can feed a litter or so of pigs on a much
cheaper basis. Otherwise there would be
very little pork produced. Why can a
few hogs be raised comparatively cheaply
on the farm? Simply because of the fact
that a considerable proportion of the feed
is in the nature of a by-product or per-
haps home-grown. Multiply the swine
activities on the farm and it is necessary
to purchase more meal and grain at mar-
ket prices. The costs to produce mounts
alarming. So with the farm flock of
poultry.

What shall we feed hogs? Grain, mill
feeds and by-product feeds are becoming
scarce than ever. Wheat by-products
are practically off the market. The feed
markets of the future are most discourag-
ing in prospect. The wholesale price of
hogs has not appreciated correspondingly.
The man who can feed hogs profitably
to day must have a comparatively cheap
product or by-product to replace meal as
largely as possible. Such are scarce.
Milk products form the greatest of all.
City and hotel refuse is another. Green
feed intelligently used, soiled or under
the right conditions, pastured, is a
third. Barley is one of the best of Can-
adian hog feeds—too little appreciated.
Elevator screenings, if of standard qual-
ity, must be utilized wherever available.
The man who is raising young pigs, who
plans to feed them almost entirely on a
grain ration, who has little or no milk or
green feed available, will almost certainly
be forced to place a high valuation on
manure and experience if he is to get an
even break next fall.—G. B. Rothwell,
Dominion Animal Husbandman.

Dancing and Music

The emotional side of the major-
ity of people cannot be satisfied by
Free Libraries, Gymnasiums, Play-
grounds, etc. The love of moving the
healthy body to the rhythm of music
in some form of dancing is an in-
born peculiarity of the average man
and woman; with liquor and indec-
ent music, however, dances may do
more harm than bacteria. It is path-
etic to see in our large towns and
cities young men and women rush
to some dance hall to satisfy a
desire for amusement.

People who have used up their
strength in Dancing, Late Hours,
Rich Foods or have, perhaps looked
too long upon the Wine when it was
Red and have let Old John Barley-
corn sap their vitality will find a
tonic in the use of
Hacking's Heart and Nerve Remedy.
It will dispel "that tired feeling,"
take away that feeling of depression
and nervousness that comes from
lowered vitality and brings back the
healthy rich, red color to the cheeks.
It will make your beauty sleep more
satisfying so that you will awake in
the mornings full of life and hope
and more able to carry on with the
day's work. The "habits that hurt"
can more easily be overcome if you
will use Hacking's Heart and Nerve
Remedy to strengthen the Nerves, to
add power to the Heart and to re-
vive and stimulate the circulation of
the Blood. Buy them from your
dealer. 50c a box, 6 for \$2.50.
