

OUR BOYS' AND GIRLS' CORNER

By Aunt June

Registered According to the Copyright Act

My Dear Boys and Girls:— It is a perfectly splendid encouragement to read through the letters you send me about your many deeds of service, and as I see new letters coming in week by week I am delighted to know that in all parts of Canada more and more boys and girls are coming in to swell the number who try to live up to our motto, to "Do a little kindness to someone every day Scatter rays of sunshine all along the way."

As I write to you there is a pretty scene from my window. This particular window looks out over a little park where yesterday, the grass still showed fresh and green and the trees are not yet entirely bare. Today, however, while the sky is still that beautiful shade of blue which we in Canada love so much, the grass is covered with a first thin coating of snow, and now and again the flakes fall between bursts of bright sunshine. Yesterday there was the first real touch of frost in the air—the first real touch in this part of Canada, and today with the coming of snow our little winter visitors have commenced to call. Five sparrows they have started early, but they know that there is a friend behind the window pane and this friend (not Aunt June this time) had already prepared for their visit, several days ago by scattering crumbs over the wide ledge in anticipation of a freeze up.

You who are living in the country will have plenty of opportunity for feeding and helping the birds. This is one of the particular privileges of Helpers. To be able to do something for the little feathered friends who otherwise would find our cold winter days hard indeed. In other years Helpers have written in very interesting accounts of their bird friends. You will be well repaid for any trouble when making this box for a gentleman you should choose material that has stripes or sharp patterns rather than the flowers. This will make a difference to the ladies' box which can be the flowery one.

material large enough to cover the whole of the box and a pot of paste. Stand the box on the material and cut the material from the edge to each corner of the box. Now bring up each piece of the material separately over each side of the box having first covered the side of the box itself with a thin coating of the paste. Press the material down smoothly against the side and tuck in well at the top or turn over onto the side of the box. Be sure to make your corners very neat. It will not be necessary to paste the material on the bottom of the box if the sides are fastened securely. Colored acetate, or any kind of silk scraps can be used for the inside lining of the box. Cover the top in the same manner.

PLAN NO. 2 is rather more interesting to make but can only be done if your box itself is a pretty color to begin with and in a clean condition—or if you have a box of paints with which to give it the first coat of color. Choose a color then, either blue or green, red or whatever shade you like best. Now take your colored stuff with the prettiest flowers or patterns and with a pair of scissors carefully cut out a single flower or pattern. Make a little heap of ten or twelve of these and paste them here and there over the box arranging them so that they look to be a part of the box itself. Cover your lid and sides with flowers. Now take a piece of silk or any other thin material and line it with another piece of thicker stuff such as flannel, woolen stuff or flannel. Make this large enough to line the inside of the your box all round with the silky stuff outside. For the bottom of the box inside, make a little soft flat cushion of the silky material with flannel or equally soft material underneath it.

Both boxes when finished should be tied up with a pretty piece of ribbon. When making this box for a gentleman you should choose material that has stripes or sharp patterns rather than the flowers. This will make a difference to the ladies' box which can be the flowery one.

AUNT JUNE'S ADDRESS: Please note that all letters for Aunt June must be sent to Box 516, Station F, Toronto.

LETTERS FROM HELPERS. Fletcher. I have done the dishes for mother also stayed at home to get my father's supper while my mother went to Calgary, taken care of the children and done many more errands. I have also been trying to get some more boys and girls to join the Service League. Yours truly,

JENNIE MACNEILL. By this time, Jennie, I hope you have received your badge and that you will like it and wear it to show that you are giving good service. I am so pleased to know that you are a member of the Girl Guides. That is splendid. Keep on trying for more members. We want every boy and girl in Canada to be a real Helper.

ARCHIE BALL. I hope your concern was a great success Archie. You are certainly taking a good part in it. How much I would like to see you doing the drill. Let us hope that the Nigger wheat does not live up to its name and turn out to be black. Aunt June not being a farmer, does not know very much about this but I am sure Uncle Jim could tell me a great deal. Your letter was very neatly written.

MARY E. RUSSELL. Mary's riddles are so good that I am going to print them separately. Now to answer Mary's letter. I can see Mary that you find plenty to do near home in helping mother and feeding the animals. I wonder which you like doing best of all. Your guess about Uncle Jim was not right. He is just a very nice uncle and has little boys of his own but he is not Aunt June's husband, but both Uncle Jim and I love little boys and girls, and big boys and girls too, so that is why we like to have your letters and to write to you.

Riddles Sent By Mary Russell. If a farmer can raise 250 bushels of corn in dry weather, what can he raise in wet weather? Answer—His umbrella. What is that which when thrown you may catch without hands? Answer—A hat. What Miss is always making trouble? Answer—Miss Chief. (Mischievous). Who will be the first to send in a bird story? I shall look out eagerly for it. Yours lovingly, AUNT JUNE.

SWAT THE FLEA! Eight of the five thousand different kinds of fleas, conveys plague. That is why fleas as well as house-flies, to which we owe the dissemination of typhoid, cholera, dysentery, and tuberculosis, should be relentlessly swatted. Bugs are known to be carriers of that malignant malarial malarial known as Kala Azar, while it was proved during the war that the louse conveys typhus. No fewer than a thousand species of mosquito are known to science, eighteen of which occur in the British Isles. Of the latter one known to carry malaria. An old colored man was burning dead grass when a "wise guy" stopped and said: "You're foolish to do that, Uncle Eb; it will make the meadow as black as you are."

Spanking Doesn't Cure! Don't think children can be cured of bed-wetting by spanking them. The trouble is constitutional, the child cannot help it. I will send you any mother my successful home FREE treatment, with full instructions, if your children trouble you in this way, send me money box, write me to-day. My treatment is highly recommended to adults troubled with urine difficulties day or night. Write for free trial treatment. BOX 8. Mrs. M. Summers. WINNIPEG, Canada.

HERE was a little girl,
And she had a little curl,
Right in the middle of her forehead;
She battered up her toys,
She made a dreadful noise,
And in fact she was generally horrid.
Find two other horrid persons.
Answer—Upside down in her dress; upside down in her petticoat.

A GRUESOME FIND. An extraordinary story comes from Shanghai (China) of a find by some railway men at Harbin. A box car addressed to Colonel Bulikoff who is the Russian representative at Harbin, was opened and found to contain apparently bags of flour and firewood. Underneath these were found eight caskets, each one duly labeled, six bearing the names of grand dukes and duchesses and the other two the name of a priest and a valet of one of the grand dukes. To make sure there was no ruse one casket was opened and a body revealed. In addition to the names of the dead there was also written who had killed them and where. The question is being asked who had forwarded these bodies and for what reason and where they were ultimately destined to be sent. In these days when railway men expect to find hidden away gold, jewels and other precious metals, to be confronted with caskets containing murdered persons is indeed a gruesome and unwelcome find.

See 25c. Ointment 25c. and 50c. Talcum 25c. Sold through the Dominion, Canadian Dispensary, Limited, 344 St. Paul St., W., Montreal.
Cuticura Soap always without name.

LIVE STOCK REPORTS

Toronto (Union Stock Yards)—Receipts for sale were made up of eight thousand and seventy-six cattle, seven hundred and sixteen calves, seventy-one hundred and thirty-one hogs and fifty-three sheep. Approximately thirteen thousand cattle were billed through to points across the border and two hundred and ninety-six hogs to out-of-town packers. A heavy run was expected because of the snow falls at the close of the previous week, but to the contrary, receipts were light. Shippers are holding off largely because of repeated warnings against making heavy shipments to a very weak market. No Christmas quality of beef has as yet arrived, feeders stating that they will not ship until the conditions look better, as these cattle were bought at high prices and at the present time feed is cheap and plentiful. The market is glutted with inferior grades of cattle and even with light runs there were two thousand cattle left over for next week's market. In view of the possibilities of further price reductions, the packers were not inclined to load up. Choice butchers steers sold from \$10 to \$11.50, fair kinds from 7 to 10 and common from 5 to 8. Choice butcher heifers moved from \$9.50 to \$11, fair from \$8.50 to \$9.50, and common from 5 to 6; these prices are about \$1 lower than the opening prices of the previous week. Choice butcher cows sold from \$7 to \$8.50, fair cows from \$5.50 to \$6.50, and canner around \$3, a drop of 25 cents. Good milk cows were sold at prices ranging from \$100 to \$150. Good spring-fairly good trade in stockers at reduced prices, good kinds changing hands from \$8 to \$9 and fair from \$6 to \$7.50. Quite a few farmers were on the market looking for good feeders with a little flesh on them. Prices however, did not meet with their views, and this coupled with the cause of a very dull market. Good feeders were quoted from \$9 to \$10.50, and fair kinds from \$8 to \$9.50. Notwithstanding the light run of calves there was a steady decline in prices on account of the drop in the Buffalo calf market. Choice veal opened on Monday at \$18 for tops and closed on Thursday at \$17. A lot of heavy rough calves were received and these sold at low prices from \$5 to \$8. There is a fairly good demand for choice veal.

Lambs were \$1 weaker all around. Culls were hard to dispose of. Good lambs sold on Monday at \$11.00. At the end of the week there was a little stronger tone and a raise of 25 cents for all grades. Handy weight sheep moved at \$7.50, and yearlings from \$8.50 to \$10.

A light run of hogs was responsible for steady prices on Monday and Tuesday, but on Wednesday there was a drop of \$1. Fed and watered selects selling weaker at \$15.25 to \$15.75. Packers seem determined to reduce prices to something near the level of other markets. Hogs are \$10.50 in Buffalo and \$10 in Chicago; these are pre-war prices.

Woods' Great Peppermint Cure

Woods' Great Peppermint Cure
Tones and invigorates the whole nervous system, makes new blood in old veins. Used for Nervous Debility, Mental and Physical Exhaustion, Loss of Energy, Palpitation of the Heart, Falling Memory, Price \$2 per bottle for \$5. Canada's apple crop last year amounted to 3,334,680 barrels, having a market value of nearly \$25,000,000.

In Ye Olden Time

hoop skirts were worn by those who first asked the druggist, and I insisted on having the genuine Golden Medical Discovery put up by Dr. Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago and never contained alcohol.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

At this time of the year some people feel "all out of sorts"—their vitality is at a low ebb—the blood becomes surcharged with poisons! The best blood medicine and tonic is called Dr. Pierce's Golden Medical Discovery. It puts vim, vigor, vitality into the blood. Try it. This is what folks say about it:

LINDSAY, ONT.—"Doctor Pierce's Golden Medical Discovery is the best medicine I have ever taken for stomach trouble. For many years I suffered with gastric stomach trouble and nervous indigestion. I would be so bad at times that it was necessary for me to be in bed two or three days at a time. I have doctored and taken many different medicines with little relief. Just recently I began taking the 'Golden Medical Discovery' and it has given more relief than all the other medicines I have ever taken. My stomach does not bother me and I have not had any indigestion since taking this medicine. I can highly recommend the 'Discovery' to anyone who suffers with this ailment."—Mrs. GEO. WELLINGTON, No. 2 John Street.
