BRITISH LABOR IS WARNED NOT TO TRY VIOLENCE

Lloyd George Says Mine Nationalization is Against the Country's Interests

Any Attempt to Convince Country by Force Will be Fought to the Death

London Cable — William Brace, president of the South Wales Miners' Federation, speaking in the House of Commons in behalf of Labor to-day, moved an amendment to the reply to the Speech from the Throne expressing regret for "the absence of any proposal to nationalize the coal mines of the country along lines recommended by the majority of the members of the Royal commission on the coal industry, which was appointed to advise the Government as to the best methods of re-organizing the industry."

In outlining his scheme for Nationalization, Mr. Brace said there would be a committee to manage each pit and a committee for each of the 14 districts into which Great Britain would be divided. Finally, there would be a body with a president of mines as chairman, to supervise all the coal fields of the country. The miners, the officials and the general public would be represented, and each would be in the minority.

Mr. Brace declared that his plan was not one of confiscation but of fair purchase. The Government would give the shareholders bonds for their present shares. He asked that a tribunal be established to fix a fair price for such shares, and he would favor even a generous price. He said coal would be sold to exporters under the nationalization system as freely as at present, with the proviso that the exporter divide with the district mining councils all the profits over one shilling per ton.

LLOYD GEORGE'S REPLY.

In replying to some of the arguments advanced, Premier Lloyd George argued that it would be impossible to have nationalization without bureaucracy. It would be useless, he said, to esatblish another system unless Mr. Brace was able to prove that it would be better than the existing system. He declared there was no guarantee that under the plan proposed by the member the present output would be increased. The Premier ridiculed Mr. Brace's idea that the miners would work harder for the State than for private interests. Mr. Lloyd George created something of a scene by quoting from Leon Trotzky to show that the Bolshevik experiment of nationalization in Russia had failed, and that the Bolsheviki had been obliged to revert to conscription of labor. This brought forth excited shouts of "thanks to your fighting." Mr. Brace's scheme, the Premier contended, would discourage the development of the mining industry, while it was impossible to eliminate the speculative incentive except by confiscation, and that was a dangerous game to begin.

The Premier argued that what the Miners' Federation really wanted was full control of the collieries, and that to hand it over thus would be disastrous to the community and a misfortune to the miners themselves.

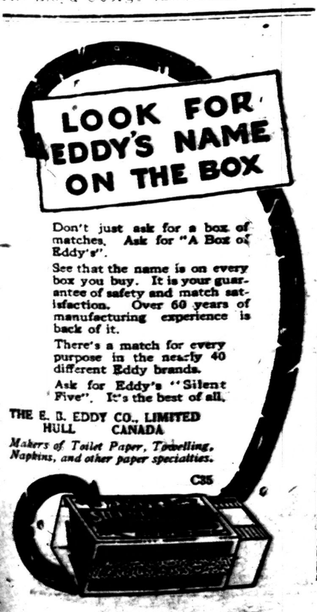
Referring to the Government's proposed bill, the Premier insisted that the Government was not opposing a blank negative to nationalization by its constructive scheme for improving the mining industry.

THE ISSUE DEFINED.

Referring to the address of William Lunn, a Labor member who had spoken previously, demanding the nationalization of all industries, the Premier declared that if any attempt were made to convince the country by violence it would be a challenge to the whole fabric of free government. On such an issue, declared the Premier, "We will fight him to the death." Such action, declared Mr. Lloyd George, would not be a strike for wages and betterment of condition's of labor but for the establishment of a Soviet, and that would mean the end of constitutional government.

"This nation has ever fought for liberty, and will fight for it again," Mr. Lloyd George exclaimed.

Vernon Hartshorn, a member of the National Executive of the Miners' Federation, warned the Government that if the motion was rejected it would be the miners' business to decide whether to demand a big wage increase in order to get their share of wages or take steps to compel the Government to utilize the surplus profits of the mines to buy out the shareholders. Mr. Brace's amendment was defeated by a vote of 329 to 64.



Don't just ask for a box of matches. Ask for "A Box of Eddy's".

See that the name is on every box you buy. It is your guarantee of safety and match satisfaction. Over 60 years of manufacturing experience is back of it.

MUCH SUFFERING DUE TO THIN BLOOD

Rich, Red Blood Necessary to Health and Strength.

If more people knew how many ills and pains are caused by thin, watery blood a great deal of suffering would be avoided. Men and women often suffer for long periods from stomach trouble, headache, palpitation of the heart, and nervous complaints such as neuralgia without suspecting that anaemia or bloodlessness is the cause.

The blood goes to practically every part of the body, carrying oxygen and nourishment. The efficient action of every organ is directly dependent upon the quality of the nourishment it gets from the blood. If the blood is rich it becomes weak in nourishment and health fails. The best way to keep the blood rich and red and thus enjoy good health is through the use of Dr. Williams' Pink Pills. At the first sign of weakness these pills should be taken and good robust health will soon follow. The statement of Mrs. J. J. Murray, Corbetton, Ont., shows the value of Dr. Williams' Pink Pills in cases of this kind. She says:—"A few years ago my daughter, Lillie, was in a very badly run down condition. She was pale, thin, and scarcely able to go about. The least exertion made her heart palpitate so violently that she was actually afraid one of these spells might carry her off. She slept so badly that often she would lie awake until morning. Treatment did not seem to help her and we were almost in despair when a friend advised the use of Dr. Williams' Pink Pills. A few weeks' use of this medicine showed a decided improvement, and a further use of the pills fully restored her to health, and she has since been a strong, healthy girl. Some time after I was taken ill myself, being badly run-down from household care. A doctor was called in but his medicine did not seem to bring back my strength, and remembering what Dr. Williams' Pink Pills had done for my daughter, I decided to drop the doctor's medicine and try them. The results that followed were like those in my daughter's case, and through the use of the pills I was soon a well woman. I am glad to give my experience in the hope that some other sufferer may find the way to health."

You can procure Dr. Williams Pink Pills through any dealer in medicine, or they will be sent you by mail at 50 cents a box or six boxes for $2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

SHIPMENT OF CATTLE BY RAIL

Live Stock Men Meet Railway Commission

On Matter of Drafting New Contract.

Ottawa—Dispatch — Prominent live stock men representing the great interests which are vitally interested in the shipment of cattle, representatives of the railways and railway brotherhoods, the Canadian Manufacturers' Association and the Toronto Humane Society gathered to-day in the rooms of the Dominion Railway Commission to assist the members of the railway board in the drafting of a new live stock contract.

W. L. Best appeared before the railway commission this afternoon to protest against a wrong impression which the Brotherhood of Locomotive Engineers and Firemen thought had been given the commission at the Calgary sitting on live stock matters.

He quoted C. H. Temple, of the Canadian Pacific Railway as stating that delays in live stock trains frequently were caused by the fact that enginemen took rest periods every 12 hours. If the commission could change that, Mr. Temple was understood to have said, the railway would be only too glad. Chief Commissioner Carvell assured Mr. Best that the impression he had received from the statement made by Mr. Temple was simply that the men were entitled to eight hours rest after a 12-hour run and that this was covered by a contract between the railway and its employees.

The major portion of the afternoon hearing before the railway commission to-day was occupied by counsel for the Canadian Pacific and Canadian National Railways in discussing various points in the suggested live stock contract, on which they were unable to see eye to eye with the shippers. When adjournment came shortly after six o'clock, Mr. E. P. Flintoft for the C. P. R. and Mr. Alistair Fraser, representing the Canadian National, had placed their arguments before the commissioners. Adjournment was then taken until tomorrow morning at 10 o'clock, when it is probable that some of the representatives of the bodies interested in shipping will be heard.

During the afternoon a brief statement was made by Mr. Eric Osborne, the representative of the Toronto Humane Society, who outlined certain improvements which might be made in order to eliminate cruelty in cattle shipment. Mr. W. R. Ingram, of the Swift Canadian Company, Winnipeg, set forth the attitude of the shippers with regard to sending a man with cattle shipments.

Counsel for the Canadian National Railways, Alistair Fraser, supplemented the argument of Mr. Flintoft with an argument against the proposal to make the railways entirely responsible for the care of live stock in transit and dispense with the necessity for the shipper furnishing a man in charge. David Crombie, of the same road, supported Mr. Fraser with reasons from the point of view of the traffic expert why it should be difficult and expensive for the carriers to furnish complete supervision of live stock in transit.

The hearing was adjourned until Wednesday morning.

REDS TO FIRE ON BRITISH SHIPS

Odessa's Young Governor Looking for Trouble.

Soviets Find Two Goldfields in Urals.

Constantinople Cable. — (By The Associated Press.)—General Uborevitch, the 28-year-old Bolsheviki commander at Odessa, has threatened to open fire on the British warships there within three days if they remain in the harbor, according to a message received here from Rear-Admiral N. A. McCully, commanding the United States naval forces operating in Russian waters.

The message was sent after the American officer had conferred with General Uborevitch, who expressed surprise that the British warships had fired on his troops.

General Uborevitch, the message reports, said he understood that the British had made a treaty with the Bolsheviki Government. He declared merchant ships would be welcome at Odessa for commercial purposes.

The general stated that he suppressed looting immediately upon his arrival, and had molested nobody but spies and thieves.

GOLD IN THE URALS.

Berlin Cable. — Two valuable goldfields have been discovered since the Russian Soviet Government recovered the Urals, according to a Moscow newspaper.

One field is said to lie thirty miles north of the most northerly mine of the Ekaterinburg mining centre. The Soviet engineers have reported that if machinery were available, these fields would make it possible to increase Russia's gold output by sixty per cent. within two years. Herr Reiche, a German engineer in the service of the Soviet, is said to have confirmed this report after a personal inspection of the fields.

KOLCHAK'S EXECUTION.

London Cable — News of the execution of Admiral Kolchak, former head of the All-Russian Government, has been officially confirmed. Admiral Kolchak and one of his Ministers, M. Pepeleiajev, were shot at Irkutsk at 5 o'clock on the morning of February 7, it was learned to-day.

TO-DAY! BUY CATARRHOZONE

Gives Effective Relief in Five Minutes, and Cures Perfectly.

FINE FOR COUGHS OR COLDS

It was their inability to reach the real source of catarrh and bronchitis that caused the medical profession to drop liquid cough medicines and adopt "Catarrhozone" instead. This wonderful inhaler provides a method of breathing into the lungs certain rare medicinal vapors which are so healing and comforting as to entirely banish coughs, catarrh and throat trouble in a very short time.

The most wonderful thing about Catarrhozone is that, no matter where the germs of bronchitis or catarrh are hidden, Catarrhozone will reach and destroy them.

Get the large size, lasts months, is sure to cure you, price $1.00; smaller size, 50c; sample or trial size, 25c. All dealers.

ALLIES UNITED FOR EXTRADITON

Will Insist Upon Demands Being Obeyed.

Refer Question of Exchange to Experts.

London, Cable — The Allied Supreme Council to-day, after discussing the situation arising from Germany's violent protest over the extradition demands, agreed on the question of insisting upon those demands, it was stated to-night.

It has been reported that there were differences between France and Great Britain as to whether the demands should be modified. It is probable that the position of the Allies will be set forth soon in a statement. This may take the form of another communication to Germany, or possibly one to Holland. As far as can be ascertained; however, nothing definite has been decided regarding any further steps to be taken toward Holland.

The Council, in dealing with other questions, decided that financial experts of the Allied Governments, many of whom are here, should meet soon to discuss the problem of international exchange in an effort to devise a plan for its stabilization. It was not settled when the first meeting of these experts should be held.

The Council decided finally that its headquarters should remain in Paris. For the convenience of the British Governmental authorities, however, it will continue to sit here for the present, probably through the coming fortnight. It is expected that Premier Lloyd George and Nitti will be in constant attendance. Premier Millerand will probably be called home before long, in which case France will be represented by Philippe Berthelot, political director of the Foreign Office, and Paul Cambon, Ambassador to Great Britain.

Although Marshal Foch and General Weygand arrived at No. 10 Downing Street just before the first session of the Council to-day, they did not attend either of the two meetings held. Belgium was represented by Premier Delacroix.

Gets Instant Relief After Four Years

TORTURED WOMAN TRIED DODD'S KIDNEY PILLS.

Kidney Disease and Insomnia Had Made Her a Nervous Wreck Till She Used Dodd's Kidney Pills.

Dunvegan, Inverness Co., N. S., Feb. 16.—(Special.)—Women who are dragging wearied limbs around, weighed down with a suffering and tiredness that can find no rest, will find sunshine and hope in the message Catherine McPherson, of this place, sends to them.

"I have just used one box of Dodd's Kidney Pills," Miss McPherson states. "But they did wonderful good for me.

"For nearly four years kidney disease tortured me. It finally developed into diabetes. I became a nervous wreck, and insomnia was added to my troubles. I was so weak and tired and irritable that every trifle added to my discomfort.

"Dodd's Kidney Pills gave me instant relief. They are a wonderful medicine. I shall recommend them to all my friends."

Dodd's Kidney Pills are purely a kidney remedy. They put the kidneys in shape to strain all the impurities out of the blood. That's why they bring health and restful sleep in their train.

SINN FEIN M.P. IS UNDER TRIAL

Robert Barton Charged With Making Threats.

Dublin's Mayor-elect Stays in Prison.

Dublin Cable. — Robert Barton, Sinn Fein member of the House of Commons, who was arrested last March, escaped from the Mount Joy Jail, was re-arrested, and again escaped, only to be recaptured recently, was tried to-day before a court-martial.

The charge against Barton was that at Shillelagh in February, 1919, he delivered a speech in which, referring to the imprisonment of the local Sinn Feiner Fleming, he said:

"I do not make a threat, but if Fleming dies in jail there will be reprisals against Lord French and Frank Brooke (member of the viceroy's advisory council), who will suffer injuries as he did."

It is alleged that he repeated the same threat at Carnew. The court reserved decision. Barton offered no defence.

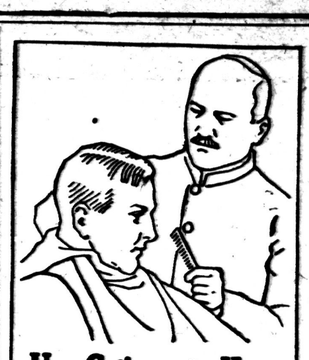
A report was in circulatnon after the trial that Barton had been rescued. This proved to be incorrect. Raiders intended to effect the release of the prisoner, but attacked the wrong car, and Barton was carried to the jail and locked up.

WON'T RELEASE MAYOR-ELECT.

Dublin, Feb. 12.—The King's Bench Division Court here to-day refused to grant an order for the release of the Lord Mayor elect of Dublin, Alderman Tom Kelly, who is in Wormwood Scrubbs prison. The refusal was on the ground that Alderman Tom Kelly was out of the jurisdiction of the court.

CONSIDERED DANGEROUS.

London, Feb. 12.—Ian MacPherson, the Secretary for Ireland, was asked in the House of Commons to-day why Alderman Tom Kelly, Lord Mayor elect of Dublin, had been sent to prison. Mr. MacPherson replied that Kelly had been arrested and deported under the Defence and Realm Act because he had been suspected of having acted in a manner prejudicial to the public interests.



Use Cuticura to Keep Your Hair From Falling

How many times have barbers given this advice to men who are losing their hair because of dandruff and scalp irritation. At night rub Cuticura Ointment into the scalp. Next morning shampoo with Cuticura Soap and hot water. A clean, healthy scalp means good hair.

For free sample, Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal.

Cuticura Soap shaves without mug.

BEGIN SURVEY OF ST. LAWRENCE

Development Would Cost Over $250,000,000.

Commission Favors Treaty for Two Governments.

New York Dispatch — Development of the St. Lawrence River between Montreal and Lake Ontario, which is being considered by the International Joint Commission on Waterways in session here, probably would cost more than $250,000,000. Obadiah Gardner, former United States senator from Maine and chairman of the American section of the commission, said to-day.

Making that part of the river navigable for deep-draught ocean steamers would cost more than $50,000,000 and development of unused water power —about 2,000,000 horse-power—would cost about $200,000,000, according to rough estimates reported to Mr. Gardner.

Consideration of the St. Lawrence development includes a programme of commission hearing during April and May at "interested localities" on both sides of the boundary, Mr. Gardner said. A preliminary meeting in about four weeks at "some central point like Buffalo" probably will be called, he added. Engineering surveys of the St. Lawrence by Government engineers will begin in the spring.

The commission devoted to-day to deciding on the best way to carry into effect its recommendations of last year to stop pollution of international streams at Detroit and Buffalo. Consensus of opinion was said to favor drafting of a treaty for adoption by the Governments of the United States and Canada. Joint legislation by the two countries was called inadequate and the calling of a convention of representatives to consider effective measures was characterized as impracticable, it was stated.

$100 Reward, $100

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. $100.00 for any case of Catarrh that HALL'S CATARRH MEDICINE fails to cure.

HOLLAND WOULD JOIN THE LEAGUE

Parliament to Consider Participation.

Will Probably Submit Reservations.

The Hague Cable. — Negotiations of the Dutch Government with other neutrals regarding entry into the League of Nations have been without result, according to a Government statement to the Parliament,, which to-morrow will take under consideration Holland's participation.

The statement says that neutrals could not make general reservations, because Article I does not admit of any. The Dutch's Government's delay in submitting the measure proposing the entrance of Holland is excused in the statement on the ground that the United States has taken no action as yet, and the Scandinavian countries have also delayed their decision.

Holland has not been asked to submit a plan for a high court of justice, but, nevertheless, has submitted one, which will be further discussed at a meeting of delegates from Holland, Switzerland and the Scandinavian countries, at The Hague, on Feb. 16. The Dutch press considers Holland's entrance into the league as certain, though probably reservations will be submitted and discussed in Parliament.

A POET'S PLAINT.

Poet to a publisher about the failure of one of his books.

"You don't advertise me," he said bitterly.

"Poetry," interrupted the poet, "is like a wheelbarrow. It won't go unless it's pushed."

PLAN RELIEF OF CENTRAL EUROPE

Britain Prepared to Give Up to $50,000,000.

Is Awaiting Action of the States.

London Cable. — Replying to a question as to what steps the Government proposed to take for the relief of Central Europe, Austen Chamberlain, the Chancellor of the Exchequer, said in the House of Commons this afternoon that the final arrangements could not be made until the Congress of the United States had granted the necessary powers. The relief administration and the British Government would have preferred to spare a comprehensive plan, with Allied and neutral co-operation, Mr. Chamberlain stated, but in view of the urgency of the need and despite the financial situation in the United Kingdom, the British Government has informed the United States that in addition to the £12,500,000 voted for the current financial year, it was prepared to contribute a further sum, not exceeding £10,00,00 0in all.

Mr. Chamberlain said the British share would be applicable for the provision of British supplies, foodstuffs, raw materials and other essentials, and the payment of the freight charges on the goods carried on British ships. If the American grant was limited to $50,000,000, Mr. Chamberlain added, the necessary tonnage for transporting the American supplies could be provided.

The Canadian Government also, said the Chancellor, had intimated its desire to make a contribution, and the British Government was confident that other allied and neutral Governments also would co-operate in this emergency measure for dealing with the desperate needs of the central part of Europe.
