High School Track Meet

Dunnville Boys Won First Annual Event by Half Point.

Under ideal weather conditions but before a very small attendance, the first annual Haldimand High School Track Meet was held on Dominion Day at the Fair Grounds. Although the attendance was indeed sparse, the spectators were quite rabid in their partisanship and the different factions supported their schools with great enthusiasm.

The meet was won by Dunnville High School by the narrow margin of one-half a point over Caledonia High School who provided stiff opposition throughout the entire meet. Dunnville High School obtained 44 points, Caledonia High School 43 1/2, and Hagersville High School 20 1/2.

The high individual point winner was Heddle of Caledonia who amassed a score of 31 points for his school. His performances were one of the outstanding features of the meet and it was through his all round ability in the jumps that his school was enabled to make such a good showing.

The Dunnville students showed marked ability in the running races and were easily superior to the other runners but fell down somewhat in the jumps where Caledonia High School obtained most of their points.

Great excitement featured the contesting of the pole vault on which the decision of the meet practically hinged and it took well over an hour before it was finally completed. In this event the two Dunnville entries dropped out early. Finally a Hagersville and Caledonia entry both failed at the same height, and the point for third place was split, giving each school a half point. Heddle of Caledonia and H. Pond of Hagersville were left to fight out the question of supremacy and finally on his third try Pond failed to clear the bar. Heddle, likewise, on his third try cleared the bar and brought a most successful day to an end. The detailed results:

100 yard dash—1, Orme, Dunnville; 2, Camelford, Dunnville; 3, Thompson, Caledonia. Time 10 3/5 seconds.

200 yard dash—1, Orme, Dunnville; 2, Davidson, Hagersville; 3, Thompson, Caledonia. Time 24 sec.

Quarter-mile race—1, Ricker, Dunnville; 2, Hagan, Caledonia; 3, Christie, Hagersville. Time, 56 seconds.

Half-mile race—1, Ricker, Dunnville; 2, Smith, Caledonia; 3, Haller, Hagersville. Time, 2 min. 19 1/5 seconds.

Half-mile relay race—1, Dunnville; 2, Caledonia; 3, Hagersville. Time, 1 min. 48 sec.

Half-mile bicycle race—1, Minor, Dunnville; 2, Heddle, Caledonia; 3, Emerson, Caledonia. Time, 1 min. 15 sec.

Shot-put—1, Heddle, Caledonia, 25 ft. 2 in.; 2, Downey, Hagersville, 22 ft. 1 in.; 3, Dougherty, Hagersville, 21 ft. 10 in.

Standing broad jump—1, Heddle, Caledonia, 8 ft. 9 in.; 2, Downey, Hagersville, 8 ft. 4 1/2 in.; 3, Orme, Dunnville, 8 ft. 4 in.

Running broad jump—1, Camelford, Dunnville, 17 ft. 6 in.; 2, Heddle, Caledonia, 17 ft. 3 in.; 3, Davidson, Hagersville, 34 ft. 6 1/2 in.

Run, hop, step and jump—1, Heddle, Caledonia, 37 ft. 2 in.; 2, Camelford, Dunnville, 36 ft. 7 in.; 3, Davidson, Hagersville, 34 ft. 6 1/2 in.

High jump—1, Heddle, Caledonia; 2, Davidson, Hagersville; 3, Orme, Dunnville. Height, 4 ft. 9 in.

Pole vault—1, Heddle, Caledonia; 2, H. Pond, Hagersville; 3, W. Pond, Hagersville, and Gordon, Caledonia, tied.

1 mile open—1, J. Green; 2, R. Blott. Time, 5 min. 8 sec.

Nancy Bell, owned by Percy Armstrong, took third money at the New Hamburg races last week.

County Council

(Continued from last week)

Doyle-Holland—That the report of the Finance Committee be received and read. Carried.

Gentlemen,—We, your Finance Committee, beg to report that we have examined the following accounts and recommend the same for payment:

J. W. Sheppard, telephoning.....	\$ 1 95
W. J. Murphy, repairs to court house.....	24 48
J. C. Eccles, attending court.....	8 00
Haldimand Advocate, printing.....	30 75
Miss L. M. Patterson, attending court.....	57 20
Erie Tel. Co., rental to Dec. 1, '20.....	27 50
News Pub. Co., minutes, January to May, inclusive.....	7 50
Grand River Schem, printing, to June 10.....	133 90
J. L. Michener, travelling expenses to June 15.....	261 10
Chas. R. Bilger, guarantee bond G. P. B.....	5 00
Children's Aid Society, maintenance of wards.....	61 00
Dunnville Gazette, pgs. and ad., May 28.....	11 10
David Hastings, rent of offices, June 30.....	50 00
L. Werner, postage to June 30.....	30 00
A. & W. J. Bailey, road and bridge, one-half to Norfolk.....	7 28
House of Refuge, sup., G. P. B.....	832 59
Province of Ontario, conveying prisoners.....	79 52
Thos. Walsh, part salary and care taker.....	58 00
Sam Brooks, freight charges and cartage, letter file.....	2 01
John Clark, guards to J. Apert, Dunnville Hospital.....	156 03
Jarvis Continuation School.....	200 00
Selkirk Continuation School.....	200 00
Grant to Dunnville memorial hospital.....	1000 00

We recommend that the annual grant of \$600 be made to the various High Schools in the county; also the usual grant of \$500 to the Department of Agriculture in the county.

If You Have High Blood Pressure You Must Be Careful

When the Blood Pressure is much above normal there is always the danger of rupture of a blood vessel, most frequently in the Brain and producing a stroke, or in the Kidneys, producing Bright's Disease. One should guard against over-exertion or excitement and take

HACKING'S HEART AND NERVE REMEDY

to dissolve the Uric Acid deposits that form in the Veins and Arteries, making them hard and brittle. This remedy is a wonder; it builds up the entire system by Purifying the Blood, Strengthening the Heart and by producing a normal and healthy condition of the Nerves.

Mrs. Wm. Morley, of Palmerston, used quite a number of boxes of Hacking's Heart and Nerve Remedy and they benefited her so much and she was so pleased with them that she recommends them to all her friends who have this trouble or who are all run down and Nervous. She says "you must be sure to get Hacking's."

Constipation is one of the aggravating causes of High Blood Pressure and it is advisable to use Hacking's Kidney and Liver Pills to drive out the Poisons that generate in the system. These two preparations go well together and you should buy a few boxes from your dealer to-day. Hacking's Limited, Liverpool, Ont.

W. J. Goodwin, entrance culvert.....	16 00

All of which is respectfully submitted.
\$187,197 15
W. A. Houser, Chairman.
Foster-Clark—That the report of the Finance Committee be adopted as read. Carried.

McCallum-Runcheon—In amendment—That the report of the Finance Committee be adopted with the exception of the grant to the district representative of agriculture. Carried.

Hudspeth-Pyle—That Messrs. Clark, Houser and Werner meet Mr. Munro, manager of the Bank of Commerce, and lay before him the financial standing of the County, to the end that we may obtain the best possible line of credit for the County from the Bank of Commerce. Carried.

Houser-Buckley—That the Treasurer be authorized to draw \$50,000 on overdraft from Union Bank for good roads expenditure. Carried.

Berry-McCallum—That this Council do now adjourn to meet again Thursday, July 15, 1920, at 10 a.m. Carried.

A terrific thunder and hail storm Saturday afternoon is said to have caused the loss of fully two-thirds of the fruit crop in Welland county. Seven inches of rain fell inside of an hour, and hailstones as large as walnuts broke windows and even made holes in wooden roofs.

Voters' List, 1920

Municipality of Village of Jarvis, County of Haldimand.

NOTICE is hereby given that I have transmitted or delivered to the persons mentioned in section 9 of The Ontario Voters' List Act the copies required by said sections to be so transmitted or delivered of all persons appearing by the said revised Assessment Roll of the said Municipality to be entitled to vote in the said Municipality at Elections for Members of the Legislative Assembly and at Municipal Elections; and that the said list was first posted up at my office at Jarvis on the 2nd day of July, 1920, and remains there for inspection.

And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law.
Dated this 3rd day of July, 1920.
ANDREW RODGERS,
Clerk of Village of Jarvis.

BLOATING IN CATTLE

Gases From Fermenting Foods Create the Trouble.

The Cause and Symptoms of the Ailment Fully Described—Methods of Relief Suggested, Both Simple and Heroic.
(Contributed by Ontario Department of Agriculture, Toronto.)

THIS condition, known as Tympanitis, Bloating, Hoven or Blown in cattle, consists of distension of the rumen or paunch with gas. The most common cause is a sudden change from dry food to a liberal supply of green food of any kind, principally to the different varieties of clover, and more particularly when the clover is in flower. It frequently occurs from the voracity with which cattle that have been accustomed to dry food consume green fodder. Hence it is more prevalent in the spring than in other seasons. It may result from feeding too freely on green food of any kind, especially on that upon which dew or rain is present, and more particularly when frosted; hence is not uncommon in the fall when cattle are allowed to consume clover, rape, turnip tops, etc., when frosted. Any food that readily ferments, if taken in sufficient quantities to temporarily check digestion, will quickly form gases and cause bloating. It often is a complication in cases of choking, the mechanical impediment in the gullet being the direct cause by preventing escape of gas through that organ. Sudden changes of diet of any kind may cause the trouble, and insufficient secretion of saliva may have the same effect.

While some of the above-named causes usually precede an attack, it is not uncommon to notice a well-marked case for which no well-marked cause can be traced. Such cases are doubtless due to some unexplained and not well understood temporary derangement of the digestive glands and muscular coat of the rumen. Any condition that causes torpidity of the rumen may cause bloating, even though no change of food of a dangerous nature has taken place. Torpidity of the rumen occurs in most diseases of the organ, and also from the introduction of excessively cold material, as frosted fodder, into the organ.

Symptoms.—The patient exhibits symptoms of pain and uneasiness by lying down and rising frequently, kicking at the belly, and food refused. There is general depression, protrusion of the muzzle, projection and congestion of the eyes, increased flow of saliva, and usually moaning during expiration. The back is arched and there is a more or less well-marked swelling of the abdomen, especially marked on the left side between the point of the hip and the last rib. If this be pressed with the finger it will yield, but at once regain its former condition when pressure is relieved. If tapped with the fingers a resonant, tympanic or drum-like sound will be heard, hence the name "tympanitis." Distension of the rumen causes forward pressure upon the diaphragm (the muscular partition between the abdomen and lung cavity), hence lessens the space of the lung cavity and causes difficulty in respiration in proportion to the degree of bloating. Death may occur quickly from rupture of the rumen, rupture of the diaphragm, suffocation, or absorption of gases.

Treatment must be directed to remove or neutralize the gases, and prevent the formation of more. It will depend upon the severity of the attack and the degree of distension of the rumen, whether it will be wise to attempt the immediate removal of the gases by an operation, or administer drugs to neutralize them. When bloating is not excessive, with little or no danger of death occurring quickly, the administration of any drug that will neutralize the gases in the rumen will be effective.

For this purpose oil of turpentine, commonly called "spirits of turpentine" is probably the best simple remedy. This is given in 2 to 4 oz. doses (a tablespoon holds about 1/2 oz.) according to the size of the paunch and state of distension. This should be mixed with a pint of raw linseed oil. When this cannot be procured, melted butter or lard or new milk answers the purpose well. If necessary the dose may be repeated in one to two hours.

Carbonate of ammonia, 4 to 6 drams, or bicarbonate of soda, (baking soda) 1 to 1 1/2 oz. in a pint of water, also acts well, but not so surely and promptly as turpentine. It is also good practice to put a hay rope or piece of wood about 2 inches in diameter into the patient's mouth and fasten it there. This facilitates the escape of gas through the gullet. In cases where bloating is extreme the gases should be removed by mechanical or surgical means. In some cases the passing of a rubber tube down the gullet to the rumen will give immediate relief. When this fails an opening must be made through the skin and coats of the rumen at the most prominent part in front of the point of the left hip. The hair should be clipped off the seat of operation, and it, with the hands of the operator and instruments, disinfected with a 5 per cent. solution of Carbolic acid or one of the coal tar antiseptics. The proper instrument for this operation is a trocar and cannula, but when this is not on hand an ordinary pocket-knife can be used and the lips of the wound kept apart to allow escape of the gases.

After bloating has disappeared it is good practice to administer a laxative of about 1 lb. epsom salts or 1 1/2 pints raw linseed oil, and feed lightly for a few days.—J. H. Bock, D. V. M., Ontario Department of Agriculture, Toronto.

SIGN LANGUAGE

It Has Become the Tongue of Immates of Prisons.

Prison messages were mentioned in a recent case at the Old Bailey, London.

Talking is not allowed in prisons. There are, however, several ways in which convicts communicate with each other without talking.

Most of these silent conversations take place during exercise, especially on mornings after a session, when news of crimes and sentences is soon all over the yard.

In a short while, relates Tit-Bits, every newcomer, if he has been "in" before, tells all the others of his offence and the length of his sentence. Those who know the Morse code send long messages to each other even when they are in the workshops, where they hammer in such a way as to produce long and short sounds.

Generally, the first signal a man makes tells the crime he has been convicted of. He puts his hands to his mouth and brings his jaw together if he has been passing counterfeit money. If he has been picking pockets he crosses his wrists in front of his body; if he is "in" for burglary he turns an imaginary key in a lock. If he has only been committed for trial and is waiting his sentence, he counts off twelve on his fingers, thus meaning "jury."

After a prisoner has told of his crime he signals his sentence. A common slang term for three months' imprisonment is a "carpet bag"; the pantomime of hitting a bag is gone through by the sentence. "A month" signifies a month. The prisoner will look up at the moon and extend as many fingers as months of confinement to be endured.

The signs for any number of years are very simple. The news of one year's imprisonment is communicated by pulling the left ear; two years, pulling the right ear; five years, touching either ear with all the fingers of one hand extended; ten years, putting both hands to the sides of the face and drawing them downwards.

"Have you any tobacco?" is asked by popping a finger into the mouth and then touching the sides of the nose. One cough means "Listen!" Two coughs means "Look out!"

A Lake of Soda.
There is a lake in British East Africa, Lake Magadi, that is famous for its vast deposits of soda. Until within recent years few people knew of this lake, for it lies in the midst of a barren and waterless waste; but the railway that was started some time ago by an English company to transport the soda to the coast is now finished, thus opening a way to this curious natural phenomenon.

Ordinarily the lake looks as if it were frozen and covered with a coating of snow partially thawed, then frozen again. The temperature gives the lie to this appearance of roughened ice, for the heat is extreme, and at mid-day almost unbearable. The soda burns one's feet even through his shoes, and the sharp frosty spirit will pierce any except the thickest sole. After the rains there is a layer of water over the greater part of the lake, which has turned a beautiful shade of pink. By moonlight the scene is weirdly beautiful.

The lake contains millions of tons of soda deposits, and both surface and underground streams of saturated soda liquor continually feed it.

The present supply of soda is enormous and as fast as it is removed a new surface, formed from the mother liquid beneath, replaces it. Natives have collected soda from the same spot year after year without making the slightest difference in the abundance of the supply. The company expect to remove at least 100,000 tons a year.

Lord Saye and Sele.

Among curious titles must be reckoned that of Lord Saye and Sele, which sound like a firm determination to stand by what has been said, even to delivering a duly attested and sealed deed—an irrevocable fact, as this odd double title has nothing to do with saying and sealing, says an exchange. It was in its origin the Barony of Writ of Saye, created in 1313, and extinct or in abeyance by 1399. It was revived in 1447 in favor of a Fiennes of Hurlstonceaux, who took the additional title of "Sele", which comes from one of the Seals in Kent—perhaps the village of Seal, near Sevenoaks. The title of "Saye" was assumed by reason of a descent from that family through the new peer's grandmother.

Irish Wit.

At a luncheon a bishop, resident in the west of England, told the following story illustrative of the native wit of the Irishman: Two English tourists, in the hope of "taking a rise" out of Pat, who was leaning over a gate, got into conversation with him. As they parted they remarked, "Have you heard, Pat, that the devil is dead?" This news excited no comment, but the tourists had not proceeded far when they were called back and solemnly presented each with a penny. On inquiring the cause of this unexpected generosity they were met with the reply: "It's the custom of the country, We always help the orphans."

"WAACH" Demobilized.

Queen Mary's Army Auxiliary Corps, known as the "Waachs," the khaki-clad army of intrepid women who served in various capacities at the front during the war, ceased to exist as a military organization with the ending of the year. The Waachs performed a notable service for their flag and not a few of them were killed or wounded in service.

Busy Queen Mary.

When King George of England was shooting in Scotland recently Queen Mary led the life of a private individual looking up old friends, saying private calls and making various alterations in and around Buckingham Palace.

For Hard Wear

You find no better place to purchase the kind of shoe you are after than at our

Shoe Store

We carry a Complete Line of all grades of Shoes.

Pumps at \$4.90, Oxfords \$6, \$6.75 & \$7.00

We have a nice line of Hurlbut Welt Cushion Soles—the ideal shoe for Children at \$4.60. Come and inspect our stock.
