If Christian Science succeeds in making us believe there is no such thing as pain, it will rob a lot of people of the pleasure they take in being miserable.

A young man in Wyoming drove two miles alone before he discovered that his sweetheart had fallen out of the buggy. Love-making in that state must lack some of the ardor that characterizes it around here.

Before deciding upon a vocation investigate the cost and length of time to fit yourself for a good position as stenographer. The Simcoe Business College has every facility to train students in the shortest possible time consistent with thoroughness. A postal card addressed to the Principal, J. H. Bowden, will bring you full particulars.
Up goes the price of sugar once more, the jump last week amounting to three cents a pound. Apparently most of the blame for the high cost of this necessity should be borne by the Cuban planters, who have taken advantage of the heavy European demand to boost the price of raw sugar to a figure hitherto unheard of. It is unfortunate that this should happen in a year when there is a good fruit crop waiting for housewives to preserve it.
An inexperienced young divine was officiating at his first funeral. Desiring to ask the congregation to step up and view the remains, in his nervousness he worded the invitation in this way:—"And now dear friends, will you kindly pass round the beer." Over all those gloomy faces in that vast edifice there spread such a look of mind, peaceful, happy expectation that the young clergyman perceiving the error he made, almost broke down.

An exchange the other day told how a Canadian clergyman, who recently died, had disposed of an estate of \$140,000. The startling part of the story is that he ever became possessed of so large an estate to dispose of. It certainly does not represent his savings from his salary, for with the exception of school teachers, preachers are the poorest paid in any calling in life. The experience of most of them is that their stipends are at best only generous enough to provide food and clothing for themselves and families, pay their honest obligations and for the lucky ones enough over to perhaps carry a small life insurance.

We presume that there never was a newspaper in any locality that gave all the local happenings. It is often that someone comes and someone goes that the reporter does not see. It happens that the family is missed several times. They get the impression that the editor does not care to mention them. This is a mistake. In most country towns the local work is the hardest work connected with newspaper. Most people take a paper to get the local happenings. Don't be afraid to tell the editor that you have friends visiting you. There are lots of friends who are interested in your friends. You owe it as a duty to them to let your friends know of your doings. Perhaps you think the paper shows partiality, but see if the paper doesn't treat you right if you give it a chance.

Card of Thanks

Mrs. Wood and family desire to express their sincere thanks for the many acts of kindness and expressions of sympathy during their recent bereavement.

"Ten Commandments for the Motorist."

Reprinted from the 1919 Edition of the Motor Vehicle Law. New York.

1. Don't forget to slow down at street intersections. It may save a human life.
2. Don't forget to look to the right and left before passing a railroad crossing.
3. Don't forget when signaled by a vehicle in your rear, to turn slightly to your right and allow such vehicle to pass you on your left.
4. Don't forget the pedestrians. They, too, have rights on the streets and highways.
5. Don't forget to use extra precautions when you see a child crossing the street.
6. Don't forget that in case of accident you must stop immediately and give your name, address, and license number to the injured party or a police officer. If no police officer in the vicinity, report to the nearest police station or judicial officer.
7. Don't forget that all motor vehicles must be equipped with adequate brakes in good working order and adequate horns or other signaling devices.
8. Don't forget that your lights must be lit within half an hour after sunset.
9. Don't forget that "safety first" saves life and limb, and often your temper.
10. Remember the A. B. C. of motoring—Always Be Careful.

Two cars on a west bound freight were derailed on Sunday about two and a half miles east of this village, and the Washash passenger train had to make the trip over the M.C.R. The auxiliary train and wrecking crew from St. Thomas came down but their services were not required as the local section men had the cars back on the track before they arrived.
