TO AID FARMERS.

O. C. P. Council to Free Formaldehyde Sale.

Toronto, June —Following the request of Hon. Manning Doherty, Minister of Agriculture, the Council of the Ontario Farmers of Pharmacy yesterday decided to remove all restrictions from the sale of formaldehyde, so that it might more easily be obtained by farmers in connection with combating smut and other diseases of grain and potatoes.

Much business came before the Council yesterday, but the matter that occupied most of its time was the annual financial report of the college of agriculture, which showed the college to be in a good financial condition, despite the fact that assistance had never been sought or received from the Government. The assets amount to more than \$2,500 over the liabilities.

It is likely that the demand of the teaching and the teaching of miscellaneous salary increases will be dealt with this morning, when financial matters will be further discussed.

The committee on legislation and by-laws considered the cases of a number of men who had been overseas, and recommended that service overseas up to two years be counted as having been spent in apprenticeship.

A resolution was passed strongly supporting the Ontario License Board in its action in dealing with druggists who had broken the Ontario Temperance Act and in restricting the supply of liquor to the offenders.

BRITAIN MAKES TERMS WITH SOVIET TRADE ENVOY

Commercial Concerns to Immediately Begin Trade With Russia Under Permits

London cable: An agreement for the resumption of trade between Great Britain and Russia was concluded at a meeting today between Premier Lloyd George and other Ministers and Gregory Krassin, Russian Soviet Minister of Trade and Commerce. Write no official report was issued after the two-hour meeting, I am in a position to state that an agreement was definitely concluded.

Under the terms of the agreement individual commercial concerns will immediately begin dealing with Russia which, it was said, would draw to England \$300,000,000 in gold now in Moscow. The only control over the transactions will be held by the Government which will be the granting of permits to companies wishing to trade with Russia, it was said.

The consummation of the agreement was regarded in business circles as the most notable commercial and financial victory since the end of the war.

The gold shipments will greatly strengthen the Bank of England's metal reserve, which is now only \$570,000,000, it was pointed out.

Krassin assured Lloyd George during the course of the negotiations that there would be no further invasions by Russia, and that Lenin has agreed to the liberation of all British prisoners in exchange for Russian prisoners held in English jails, who will now be sent home. He said also that trade delegates would be ordered to abstain from all Soviet propaganda in Great Britain, France and Italy.

Premier Lloyd George, Earl Curzon, the Foreign Minister, and Andrew Bonar Law, Government leader in the House of Commons, attended the conference, which was held at the Premier's official residence, No. 10 Downing street.

The conference was also attended by Winston Spencer Churchill, the War Minister; Sir Eric Geddes, Minister of Transportation; Arthur J. Balfour, Lord President of the Council; Walter Hume Long, First Lord of the Admiralty, and Austen Chamberlain, who was in charge of the negotiations, showing that the Allies had been unanimous in favor of the attempt to reopen trading with Russia, without, however, to recognize diplomatic relations unless the Soviet Government adopted civilized methods. In contending that it was irrelevant to argue against trading with a misgoverned country, he instanced the fact that England traded with Mexico and Turkey without protest being raised, although, he declared, Turkish atrocities under Abdul Hamid were worse than Soviet Russia's, he said, without, however, to recognize diplomatic relations unless the Soviet Government adopted civilized methods.

Another conference has been arranged.

LLOYD GEORGE'S COMMENT

London cable says: Premier Lloyd George's speech in the House of Commons today gave no information as to results of to-day's conference with the Soviet Ambassador. The Premier based his arguments on the absolute need of Russia in the world's reconstruction and the impossibility of fighting and crushing Bolshevism unless prepared to sacrifice hundreds of thousands of lives and add thousands of millions to the national debt. DISASTER IN JAPANESE PORT

It is believed the loss of life will be very heavy.

Geneva, June 1—Field Marshal Alexander H. R. Von Kluck, who commanded the right wing of the German army in its advance on Paris in 1914, has arrived with his family at Aarau, 41 miles northeast of Berne. He declared to-day life had become insupportable in Germany, and said he intended to buy a chateau and live in Switzerland henceforth.

MAKING HAY IN THE EARLY EIGHTIES.
The picture shows the pasture land and hay field which was situated at the University of Toronto in the early days. The man in the foreground with the scythe is Mr. George Hare, who is still an employee, and who has completed his fifty-fifth year of continuous service there. The picture is really one of the first attempts in Canada at what may be called modern photography. It was taken by Dr. W. H. Ellis, until lately dean of Faculty of Applied Science and Engineering, who though but a student in the eighties had taken a deep interest in the possibilities of the photographic science. Above is a picture of Hart House, the most recent addition to the University Buildings, which occupies the former pasture land.

FARM CONDITIONS

Fall Wheat Promising and Fruits Splendid.

The following is a summary of report made by Agricultural Representatives to the Ontario Department of Agriculture—

Rains on Saturday brought a measure of relief to the needy crops; but while in the eastern part of the Province the weather was fairly hot, in some of the western and south western counties it was comparatively cool. But sufficient in most cases, it was in the south west fields a real show of promise as rain was continuing.

Low temperatures were threatening tender crops in the latter part of the week, but the cloudy nights saved the situation.

Insect pests have been giving more trouble than usual of late. Newly planted corn and other crops have been suffering from the white grub, and the wire-worm is also complained of. London states that some cabbage patches in that county have been practically ruined by the maggot, and Norfolk also reports injury from this cause.

Fall wheat generally is still promising a good yield, although some of it looks poorly of clay land.

Clover is looking short and thin in stand, and a light yield is looked for. Essex expects to see the first cutting of it in about ten days. Alfalfa is making a better showing than clover.

Sugar beets seem to be setting more extra attention than any other field crop this season. Several Counties speak of an increased acreage.

Brant is of opinion that the potato acreage will be less than was originally intended, owing to the high value of the seed, which is estimated to be worth from 60 to 80 per acre—and even more if purchased late.

Fruit trees at a rule are laden with setting fruit. Strawberries also promise a big crop, but require more rain.

Live Stock on the grass are not making flesh as satisfactorily as usual owing to the poor condition of pastures. Bacon hogs are selling at 26c to 27c to 28.50 a cwt. Some correspondents report the marketing of brood sows.

The country home of Enrico Caruso, tenor, at East Hampton, N. Y., was burglarized and jewels valued at \$500,000 were stolen, the police reported. The stolen jewelry included a diamond necklace valued at \$75,000.

Edward Lucey, was fatally hurt when thrown out of his rig near Lindsay.
