WEDNESDAY, JUNE 30, 1920

County Council

(Continued from page 1.)

6. Re letter from McConnell & Hick-
lin advising their location in the county
and soliciting business. This be filed
with the clerk.

(Signed) C. S. McCARTER, Chairman.
McCallum-Banchey—That the report
of committee on Communications be
adopted as read. Carried.

Bird-Stevens—That the report of the
Road and Bridge committee be received
and read. Carried.

To the Warden and Members of the
County Council:

Gentlemen—We, your Road and Bridge
committee, have met and beg to report as
follows:

1. We made the annual tour of in-
spection on June 23.

2. Bridge No. 1—Oswego Creek bridge
—would recommend that new bridge be
laid over for this year and Mr. Houser be
appointed to look after necessary repairs.

Bridge No. 2—Loomis Creek bridge—
Mr. Stevens is looking after same, put-
ting in plank and joice. The bridge is in
a bad state of repair and will need to be
new another year.

Bridge No. 3—Robinson Road bridge—
have examined same and found it in good
condition.

Bridge No. 4—Caledonia Bridge—the
abutments need repairing, the guard rail
wants repairing. Dr. Berry will look af-
ter same.

Bridge No. 5—Nelson bridge, Indian
Line—recommend new arch, the plans and
specifications to be got by McConnell and
Hicklin, engineers.

Bridge No. 6—Walker bridge, Norfolk
town line—in good state of repair.

Bridge No. 7—Miller bridge, Norfolk
town line—wants painting up.

Bridge No. 8—Marr bridge, Norfolk
town line—wants stone put in wing and
painting up. Have engaged Mr. Robert
Miller to do the same.

Bridge No. 9—south of Selkirk—in good
state of repair.

Bridge No. 10—Cayuga bridge—would
recommend that guard rail be raised to
let water out and would recommend Mr.
Foster look after same.

3. Erie Telephone company wanting
permission to place their wires in conduit
over Cayuga bridge. Would recommend
that they be given permission to do so.

4. Would recommend that the account
of A. & W. J. Bailey for \$7.25 be paid,
half to be collected from Norfolk.

All of which is respectfully submitted.
(Signed) N. BUCKLEY, Chairman.

Bradford-McCarter—That the report of
the road and Bridge committee be adopt-
ed as read.

Pyle-Hudspeth—That the by-law
fixing the equalizing assessment for the
year 1920 be read a second time.
Carried.

McCallum-Berry—That the by-law
fixing the equalizing assessment for the
year 1920 be read a third time,
signed by the Warden and Clerk
and entitled a by-law as in the origi-
nal motion. Carried.

Bird-Foster—That the report of the
Supply Committee be received
and read. Carried.

To the Warden and Members of the
County Council:

Gentlemen—We, your Supply
committee, beg leave to report as
follows:

1. In regard to communication
of Haldimand Women's Institute
committee re seating county park
and picnic tables, that this be refer-
red to the Committee of the Whole.
D. P. Foster, Chairman.

The report was adopted.
Smelser-Buckley—That this coun-
cil go into a Committee of the Whole
with the Warden in the chair to take
up the matter of the rate for 1920
and for other unfinished business.
Carried.

Pyle-Hudspeth—That we adjourn
in Committee of the Whole and the
Warden take the chair. Carried.
Pyle-Runchey—That the by-law
be prepared to grant the County
War Memorial Hospital the sum of
\$1,000, \$500 in June and \$500 in
December, and the same be read a
first time. Carried.

Pyle-McCarter—That the report of
the committee of the whole be
received and read. Carried.

To the Warden and Members of the
County Council:

Gentlemen—We your Committee
of the Whole beg leave to report as
follows:

1. Regarding letter from the
Clerk of Dunnville, that the guards on
Mr. Apert while in the Dunnville
hospital be paid 40c per hour.

2. That the rate on the equalized
assessment for the county for the
year 1920 to meet the overdraft and
current expenses be 16 mills.

3. Regarding the Selkirk Contin-
uation School, that a grant of \$200
be made to them, the same as the
Jarvis Continuation School.

4. Regarding the seating of the
court house grounds, that no action
be taken at the present time.

5. That the guards on Mr. Apert
while in the Cayuga jail be paid 5c
per hour.

All of which is respectfully sub-
mitted.

W. T. Wilton, Chairman.
The report was adopted as read.

Smelser-Buckley—That the Warden
and Treasurer be authorized to
sign a note with the Bank of Com-
merce for \$8,000 on the credit ob-
tained from the county. Carried.

Bradford-McConnell—That the
by-law fixing grant to the County
Hospital in Dunnville be read a
second time. Carried.

Runchey-Berry—That the by-law
granting \$1,000 to the Dunnville
hospital be read a third time, signed,
sealed and entitled a by-law as in
the original motion. Carried.

Hudspeth-Pyle—That our mem-
ber, Mr. Stringer, and Mr. Clark
and Mr. Arrell be a committee to
go to Toronto to interview the Hon.
Mr. Biggs regarding the province
taking over the Caledonia and Cay-
uga bridges in connection with their
provincial road program. Carried.

Clark-Foster—That a by-law be
prepared and read a first time to
provide for liabilities and general
expenditure for the County of Hal-
dimand for year 1920. Carried.

The by-law was read a second
and third time, signed, sealed and
entitled a by-law as in the original
motion.

Doyle-Holland—That a by-law be
prepared and read the first time to
provide for expenditure of \$20,000
for maintenance and \$200,000 for
construction on the system of
county highways. Carried.

The by-law providing for main-
tenance and construction was read
a second and third time, signed,
sealed and entitled a by-law as in
the original motion. Carried.

Bradford-McCarter—That the report
of the Good Roads committee be
received and read. Carried.

Gentlemen—Your Good Roads
committee beg leave to report as
follows:

1. We have examined the ac-
counts presented by the superin-
tendent and recommend them for
payment.

2. That Mr. M. Runchey be paid
the sum of \$16.70 for damage to
auto on river road.

3. That the committee is in favor
of the proposition made by Mr.
Hudspeth to construct $\frac{3}{4}$ of a mile
of Macadam road at an early date,
commencing at road No. 2 and
going west along the boundary line
between Wentworth and Haldimand
connecting with Ancaster road pro-
viding satisfactory arrangement can
be made with Wentworth county.

4. That our solicitor write Mes-
srs. McConnell & Hicklin, contrac-
tors, requesting them to regulate
the load and speed of their trucks
hauling stone over the county high-
way so as to comply with the Act.

5. That we accept the offer of
Mr. C. N. Lamber of Selkirk to haul
water for sprinkling on a two-ton
truck from the lake for road No. 11
at the rate of \$1.50 for each tank of
water, the county to furnish gaso-
line and oil, approximate distance
of haul, one and a half miles.

6. That the superintendent be
authorized to arrange with the De-
partment of Public Highways re-

garding the necessary maintenance
required on provincial highways
within the county.

7. That the petitions from the
ratepayers of the Township of Dunn
be filed in the Clerk's office.

8. That Messrs. McConnell and
Hicklin, contractors be given
advance of \$19,000 on contract on
road No. 3, providing when inspec-
ted by this committee the work is
satisfactory.

W. G. Clark, Chairman.
Doyle-Holland—That the report
of the Good Roads committee be
adopted as read. Carried.
Concluded in next issue.)

ABOUT ROSE INSECTS

There Are Many, but Only Three
Are Common.

Leaf Hopper, Aphids and Slugs Are
the Chief Enemies—How to Deal
With the Pests—Miscellaneous
Hints.

(Contributed by Ontario Department of
Agriculture, Toronto.)

MANY insects attack the
rose, but only three are
very common, and as a rule
of much importance. These
are Leaf Hoppers, Aphids and Slugs.

The Leaf Hoppers are little, yel-
lowish-white insects, a little less than
a quarter of an inch long when full
grown, and tapering to a point at
the tail end. When disturbed they
fly quickly away to another part of
the bush. This probably is the ex-
planation of the name "Hopper."

Both young and adults injure the
plants by feeding on the under sur-
face of the leaves and causing these
to become mottled with numerous
white dots. Later on the leaves get
a sickly, pale, whitish or brownish
color, very different from that of a
healthy green leaf. The leaves are
attacked by the young insects soon
after they open. These little Hoppers
are whitish in color, sluggish, have
no wings and may be seen on the
under surface of the leaf, chiefly near
the midrib, in the month of May.
They become full grown in June.

The method of control is to spray
thoroughly the under surface of the
leaves with a tobacco extract such as
Black Leaf 40 or nicotine sulphate
40 per cent. (the strength recom-
mended on the cans for Aphids will
be satisfactory) before these little
Hoppers become full grown. They
cannot be killed when they get their
wings, hence the spraying must be
done towards the end of May. Examine
the leaves about the middle of
May to see if they are present, and
if there are many of them spray at
once. One thorough application at
that time of the year is worth a dozen
later.

Aphids are the green plant lice
that are often seen in clusters on the
flower buds and new growth. They
are sucking insects, and when abun-
dant extract so much juice out of the
plants that the bloom is greatly in-
jured or destroyed and the leaves
may turn sickly and die, especially
on the upper parts of the plants.

The best method of control is to
use tobacco extract as mentioned
above. It is an advantage, however,
to add one ounce of soap to each
gallon of the diluted tobacco extract,
the soap being first dissolved in rain
water. Only those lice are killed
which are hit by the spray.

Sometimes a strong spray from a
garden hose can be used to knock
off and destroy either the young Leaf
Hoppers or Aphids. The nozzle must
be held close to the plants and the
spraying repeated two or three times
at intervals of a day or two. This
treatment will also, wherever it is
practicable, control the Red Spiders,
that is the tiny, reddish and whitish
mites which are sometimes quite
abundant on the under surface of the
leaves.

Slugs are greenish, somewhat slen-
der worms, about half an inch long
when full grown. They are the larvae
of little black four-winged flies.
There are two or three different
kinds of them, but they may all be
considered together. The slugs feed
on the green tissues of the upper sur-
face of the leaves, often completely
removing them. Leaves thus in-
jured soon turn brown and die. It
is not at all uncommon to see almost
every leaf on a bush killed in this
way. This, of course, prevents bloom
and weakens the plants greatly for
next year. When the slugs are full
grown they enter the ground to trans-
form to their other stages and later
appear as adults. The winter is passed
in the ground.

The method of control is simple
and consists of spraying the foliage
thoroughly with about one ounce
of arsenate of lead paste or half an
ounce of the powder form to one gal-
lon of water. Spray as soon as the
insects are seen to be present on the
leaves. Occasionally in the latter part
of the season a second application
may be necessary.

The most important matter in the
controlling of rose insects is to com-
bat them early, before they have done
any appreciable damage. None of the
methods given are hard to control.
The methods given are not the only
ones, but are the most satisfactory.
—L. Caesar, O. A. College, Guelph.

Save Garden Surplus.
An example of the success brought
about by co-operation is shown in a
report received by the United States
Department of Agriculture from Gila
county, Arizona, where the local home-
demonstration agent and county agri-
cultural agents united their efforts in
developing methods for conserving
\$21,200 worth of surplus products
grown on more than 100 acres of
irrigated land divided into one-eighth
acre gardens. A co-operative market-
ing store was established near the gar-
dens on the edge of town on the main
travelled road. A community canning
kitchen was also operated under the
supervision of the home demonstration
agent, no charge being made to the co-
operating gardeners who wished to
make use of it. This plan also pre-
sented an opportunity for teaching the
most approved and economical meth-
ods of canning and drying.

Watches Made of Cannon.
War souvenirs in the shape of
watches made from the steel of Bel-
gian cannon which were in active serv-
ice on the Belgian front since the be-
ginning of the war in 1914 till Octo-
ber 29, 1917, are being manufactured
in Switzerland by order of the king
and queen of the Belgians.

The watches, which bear inset in
gold on the cases the monogram "G.
B." of the Belgian sovereigns, are to be
presented by King Albert and Queen
Elizabeth to soldiers who have espe-
cially distinguished themselves and
also to prize winners of military com-
petitions.

Hold Receiver in Position.
Free use of both hands while tele-
phoning is made possible by a wire
device, lately invented, that holds the
receiver in convenient operating posi-
tion. The bracket is so constructed
that it normally depresses the receiver
hook. To release the latter a thumb-
piece is pressed. The hook is thrust
down and the bracket member moved
in the opposite direction when con-
versation telephoning. The device is con-
venient for both home and office use,
and specially in public telephone
booths.

Grading Up a Flock.
In grading up a laying flock pure-
bred eggs should be purchased. From
the chicks good female breeding stock
may be secured. The male may be
secured in very many cases in On-
tario, from eggs secured by children
taking part in school fairs. Watch
the school fair winners this year.

Watch for Noxious Grass.
In looking for quack grass it would
be well to watch also for other nox-
ious weeds, making sure that none
go to seed and that the root stalks
of perennials are prevented from
spreading as much as possible.

TO THOSE WHO DIED

Connecticut Town Has Memorial
for All Time.

Plot of Ground, Well Called "Tract of
Glory," Will Be Hallowed for the
Most Cherished Spot in
Norfolk.

In the little Connecticut town of
Norfolk is a triangular piece of ground
belonging to the people. For years it
stood useless, almost abandoned, and
to a certain extent unnoticed. Nor-
folk sent to France early in 1918 a
score and a half of her boys to fight
in the American armies. Other boys
followed.

A few months after the first ob-
ligating marched away Norfolk began
to receive its share of tidings from
the front. Names of boys known to
every one in the town were found in
the lists of those "killed in action."
Boys whose faces were bright and
shining and whose voices were strong
and cheery were never to return.
They were lying in the fields of
France.

The return of these names to Nor-
folk instead of flesh and blood that
went away gave Norfolk its inspira-
tion. The little green triangle became
a tract of glory. No more will it be
looked upon as a waste, no more will
the people of Norfolk call it worth-
less. For some one thought of a way
to make it rich, the most cherished
spot in Norfolk.

On Flag day in the year that the
war made heroes of these lads from
Norfolk the people of that place dedi-
cated the point of this triangle to the
memory of those who were not to come
back from France. At that time four
of Norfolk's boys were lying in France
under little crosses of wood, and on
this day four little crosses of wood
similar to those in France, with a
name and a date on each, were driven
into the ground at the point of the
triangle. There they will stay until
they are perhaps replaced by more en-
during and impressive marks of trib-
ute.

But the little crosses of wood are
not all that the people of Norfolk
placed in the village triangle in mem-
ory of the boys who will not come
back. Something that will live and
thrive and beautify the barren triangle
was placed there for each boy, and it
is named for him. For each hero a
tree was planted, and it will always
be known as his tree, by his name;
and long after the great-grandchildren
of those who now live in Norfolk are
dead and gone these trees will still
stand and will be known through all
the sunshine and storm of the ages by
the names they received at the christ-
ening. They will grow to be tall and
mighty and spread their branches over
the cross that was won on the battle
fields of France—the simple cross of
honor that every man wins when he
gives up his life for his country.

The thought is beautiful. The lit-
tle triangle in Norfolk will have more
trees and crosses; the boys who died
in France will live and grow to an age
beyond the years of the eldest of
us. How simple this way of com-
memorating the deeds and the spirit
of the boys who go forth to the war
never to come home again! A little
cross of wood for the present, a tower-
ing tree for the future, and the name
of a hero preserved for an age to come.
—George Barr McCutcheon.
