An English captain who had heard that United States troops were in France but as yet had seen none in his sector, passed one night in an abandoned dug-out. Hearing movements within it, he at once thought of German spies, drew his pistol and levelled it at the entrance "Who's in there?" he called. A flash of white teeth showed in the darkness and a soft voice answered, "Dis am de American army, suh."

Haldimand Roads

Toronto, March 4th—A Haldimand county deputation asked Hon. F. C. Biggs to take over the contract of the Cayuga-Dunnville sections of the St. Thomas-Niagara Falls highways. The delegation was told that the road was included in the government specification, and if the price fixed is satisfactory, the contract will be taken over.

Fire Protection.

The fire at Port Dover, with its estimated heavy loss, leads us to ask the question: Has Jarvis got adequate fire protection? It is true we have a hand fire engine, but is it, and the hose, at all times kept in working order and ready for immediate service? Even so, would it not be wise to add a chemical engine to the equipment? This is a matter for the village authorities to take into consideration. Do not wait for a big fire to wake us up to the need of ample fire protection, when a few hundred dollars will help to provide it. Delays are dangerous—and often expensive.

Trimmed Selkirk 15/4

After being beaten by the Selkirk hockey team the week previous, the "Jarvis Tigers," as fondly labelled by the Haldimand Advocate, walloped their opponents to the tune of 15 to 1.

The return game was originally intended to be played on the Cayuga rink but owing to that ice being flooded the game was played on the local "regulation." Selkirk's alibi is that they were minus some of their best men, and certain it is they did not play the brand of hockey displayed the week previous, but be that as it may, Jarvis played the better brand of hockey on every count, as the score fortells. True, the game was more in the class of "shinney," each side wielding the hickory with honors even, but though the local "frog pond" is full of posts, pumps' side holes, etc., Selkirk will have to trot out a vastly improved team to beat the local sextette on even a large arena.

The Jarvis line-up is as follows—Forwards, Brock, Harris and Glanfield; defense, Burwash and Meil; Goal, Marr. Curley Underhill handled the bell. The locals were to have played Port Dover on Simcoe ice this Wednesday evening but the rink could not be prepared.

During the sixteen years motorists in Ontario have been paying for automobile licenses, they have contributed more than five million dollars to the provincial treasury. The annual fees have grown from \$1,680 in 1904, to \$1,580,000 in 1919. An estimate has been made that the fees this year will be at least \$2,100,000. All money received from this source is expended on the construction and improvement of highways in the Province. According to population Canadians are the second largest users of cars of the countries in the world. Last year we had 334,190 motor vehicles in use, an average of one for every twenty-six persons, including men, women and children.

The Principal of a nearby school was telling the pupils the other day that pretty soon, in all probability we wouldn't need gasoline to run our tin Lizies—that all that all that would be necessary would be to take a pail of water and drop some form of pill in it, and this combination would keep it moving. One of the young lads who had been ill, listened to the tale with interest, and when the story was over, piped up, "You wouldn't need the water if you used the kind of pills I had to take"

Big Fire at Port Dover

Damage between \$30,000 and \$40,000

Fire at Port Dover last Thursday night did damage estimated between \$30,000 and \$40,000. It originated in the J. Patterson drug store, which contained the local offices of the telephone and telegraph company, and spread to the grocery store of Walker Evans, and to the postoffice, licking up the entire two-story brick block.

Postmaster W. F. Tibbets and Mrs. Tibbets had a narrow escape from their residence above the postoffice.

The cause of the fire is unknown. The night operator at the telephone office was not aware of its progress, though it started in the next room, until the flames had made considerable headway.

GOOD ROADS CONTRACT LET

County Council Plan For Big Year's Work on Good Roads

The County Council met in Cayuga on Feb. 27th where the good roads construction for 1920 was the prime business. As tenders had been called for, those were opened and the contract for good roads to be built in 1920 was let to the firm of McConnell & Hicklin, contractors of Toronto and Ottawa. Messrs. McConnell & Hicklin successfully completed a large contract for the county last year, and they are to be congratulated upon securing the tender for 1920. There were three tenders submitted.

The contract as let is as follows:
Road No 1 and 16—From Village of Cayuga to end of metal (near Town of Dunnville) approximate distance 15 miles. Price per mile \$12,900.
Road No 3—From 3rd Line, Township of Walpole, to Road No. 1, approximate distance 3 1/2 miles. Price per mile \$8,500.
Road No. 5—From Road No. 7 to Road No 1, approximate distance 4 miles. Price per mile, \$8,500.

In addition to the above the County itself will undertake the construction of several miles of stone road, from which it will be readily seen that the County of Haldimand for 1920 have mapped out a program of road building that will in all probability not be touched by any other County in the Dominion. Stone will be shipped to Canfield from the Hagersville quarries and it is rumored that the Hind quarry will supply the material for a considerable portion of the road at the Cayuga end. It is also said that the firm will construct a narrow-gauge railway for hauling purposes. Work will commence as early in the Spring as possible.
