F. V. JOHNS,
 Assistant Provincial Secretary.

CITIZEN TELLS WHY HE CAN'T PAY BILLS

Here is a story why one Winnipeg man can't pay his bills:

A certain buyer receiving a request to send a cheque to cover his bill, sent the following letter:

"For the following reasons I am unable to send you the cheque you asked for:— I have been held up, held down, sand-bagged, walked on, sat on, flattened out and squeezed. First by the Dominion Government for federal war tax, excess profits tax, Victory Bonds, Thrift Stamps, Capital stock tax, and by every society and organization that the inventive mind of man can invent to extract what I may or may not possess.

"I have been solicited by the Society of John the Baptist, the G. W. W. A., the Women's Relief, the Navy League, the Red Cross, the Black Cross, the Double Cross, the Children's Home, the Doucas Society, the Y. M. C. A., the Y. W. C. A., the Boy Scouts, the Jewish Relief, and every hospital in town. Then, on top of all this came the Associated Charities and the Salvation Army.

"The government has so governed my business that I don't know who owns it, I am inspected, suspected, examined and re-examined, informed, required, and commanded, so I don't know who I am, where I am or why I am here. All I know is I am supposed to be an inexhaustible supply of money for every known need, desire or hope of the human race. And because I will not sell all I have and go out and beg, borrow or steal money to give away, I have been cussed, discussed, boycotted, talked to, talked about, lied about, held up, hung up, and the only reason I am clinging to life is to see what in hell is coming next."

Rebuffed.

A Dutch pastor makes it a point to welcome any strangers cordially, and one evening after the completion of the service he hurried down the aisle to station himself at the door.

A Swedish girl was one of the strangers in the congregation. She is employed as a domestic in one of the fashionable homes, and the minister, noticing that she was a stranger, stretched out his hand. He welcomed her to the church and expressed the hope that she would be a regular attendant. Finally he said that if she would be at home some evening during the week he would call.

"Thank you," she murmured bashfully, "but Ay have a fella."

The Exchange Situation

The fact that Americans still refuse to accept Canadian money at its face value ought to lead us to do some serious thinking. Look here! If Canadian automobiles, Canadian clothes, Canadian fashions, Canadian sports, Canadian resorts and Canadian machinery is not good enough for Canadians, how in the world do we expect that the Canadian dollar will be good enough for Americans. Let us treat American goods to-day as we did German goods in the days of the war. Refuse to buy anything not made in Canada or Great Britain! At least refuse American products. Set our own fashions, buy Canadian automobiles, Canadian machinery, Canadian-made shoes and clothing, Canadian-prepared food, read Canadian magazines, books and periodicals. Refuse everything American. Let the American goods rot on the shelves till they accept the Canadian dollar as 100 cents. Shun them as you did the German-made goods.

If you won't do that, if you wish to continue your worship of American products then you must continue to offer the sweet incense your god demands—the increase of a discount on your good, elegant hard-earned Canadian dollar.—Exchange.

To Discuss Children's Shelter

The following letter, which is self-explanatory, is being sent to each Women's Institute branch in Haldimand:

"The Board of the Children's Aid Society request of the Women's Institutes of Haldimand County to take up with the County Council the matter of a shelter for the destitute children of the county, now numbering 64. At our directors' meeting in Caledonia this was discussed, and it was decided to refer it to each branch for discussion, as this will be brought up at our annual meeting. Mr. Bilger of Dunnville, the Secretary of the Children's Aid Society, will be glad to address your society at any time you wish."

Milking Shorthorns

(Farm and Dairy.)

On February 20th the writer had the privilege of visiting John Walker of Lucerne Ranch (Walpole) and his fine herd of Dual Purpose Shorthorns. This is a breed of cattle that lack prominence sadly to their own detriment and the breeders of Canada. Many farmers think that a Shorthorn cow that hasn't sufficient size, or in other words is an inferior beef animal is a milking Shorthorn. But a sight of some of Mr. Walker's cows would speedily rectify this belief.

For example Springdale Lass 2nd holds the R. O. P. record for both milk and fat, and the world's record for fat as a two-year-old Shorthorn, and she has just completed a test as a three-year-old, with 2,671 lbs. milk record as far as we can learn, and birth to a bull calf which weighed 645 lbs. at seven months old, and at one year weighs 965 lbs. This bull place, while she herself weighs over 1500 lbs. after completing test, and her dam weighs 1800 lbs.

The herd sire of Lucerne Shorthorns (Royal Coquette) is a very fine individual and as a three-year-old will weigh to-day, while only in fair shape, about 1800 lbs. His dam, Coquette 2nd, holds the R. O. P. mature championship with 636 lbs. butter fat and 17,725 lbs milk in one year. Mr. Walker is very enthusiastic over his herd and rightly so. It is just five years since he bought his first milking Shorthorns and now he has a herd of 21 head which is the limit of his stable capacity.—W. E. N. H.

Will Stick To Local Dealer

(Kincairdine Reporter.)

We noticed in the Farmers' Sun, Saturday, Feb. 24, under the commission department that the finest quality of anthracite nut coal, for March delivery was quoted at \$7.44 F. O. B. mines. This looked good to us and we were going to see if we could not get in on some of this \$7.44 coal. However, there was a clause telling us to add to above cost, American exchange and freight to your station. We went into the matter and found it as follows:

Coal at mine, F. O. B., net ton	\$7.44
American Exchange, 16; F. C.	1.19
Freight to Kincairdine	4.30
Weighting	0.10
Total	\$13.03

We found that we would have to pay for carting the coal from the station to our home and also we presume we would have to pay proportion of the wages of the man who would have charge of the car. These two items would not be less than 95c per ton, taking 75c for cartage and 20c for man in charge. On asking our dealer what he would give us coal for he quoted it at \$13.50 delivered. On going into the matter deeper, we found we could stand him off for a few months, while this meant to us ready come down money. Just here we decided that we are going to stick to the guy who has warmed us from year to year and carried our account when we were hard up—which by the way was quite often.

HAGERSVILLE

Mr. Mitchener, P. S. Inspector, visited the local school last week.

Harry Duxbury, whose condition has been quite serious, is improving. Mrs. C. R. Evans spent Friday and Saturday with relatives at Jarvis.

Miss Ada Wenzley, Collingwood, is the guest of Mrs. (Dr.) J. F. McCracken.

Mr. and Mrs. Slater, Jarvis, spent Tuesday with the latter's sister, Mrs. Harry Bousfield.

Mr. George Gilbertson has rented Mr. Thos. McCloy's farm in Oneida and expects to move next week.

F. E. Shildrick has commenced alterations to the lower part of the property he recently purchased from J. H. Head & Son.

Mr. Jack Lindsay of Walpole was called to Brantford last week, owing to the serious illness of his father, Mr. D. J. Lindsay.

Mr. Thos. Parkinson, of Main St. south, is able to be out again after his recent severe illness. Although still weak he is improving nicely.

Wilfred Mason has purchased 200 acres of land in Northern Ontario. He is taking some household goods with him and intends to spend a few months up there this spring.

Mr. Thos. Hutton is getting the material on the ground for his new feed stable on Alma street. He expects to commence at the building just as soon as the weather gets at all favorable.

Mr. Peter Leonard's residence narrowly escaped destruction by fire yesterday at noon. Fortunately the blaze was noticed in time and extinguished before much damage was done.

Mr. Roy Simon has disposed of his fine residence on Main street north to Mr. Edgar Smith of Villa Nova, who gets possession this fall. We understand Mr. Simon intends to build this coming summer.

At a recent meeting of the public school board it was decided on account of the overcrowding in the lower room to add another teacher to the staff and put into proper condition the unused room, thus bringing the staff up to six teachers. This will greatly relieve the now congested state of the school.

The committee, for ascertaining the names of the pupils or ex-pupils of the Hagersville High School who were killed in the Great War, have found the following names—Alvin Fisher, Chas. Harrop, Bruce Robertson, Thorp, Omulveny, Capt. Braut, Sgt. Earl Read, Chas. Howard, and would be pleased to receive any information as to any name that should be added to this list, which is to be placed on the memorial tablet to be erected in the High School.

The action of the Village Council in purchasing a chemical fire-fighting apparatus will meet with general approval. It is the only practical system within reach of the town, as water in sufficient quantities for fire protection is not available and cannot be obtained except at an enormous outlay. The chemical outfit has been adopted by almost every city, town and village of any consequence in the province, and has rendered invaluable service. This protection should reduce the rate of insurance and also protect the town.—Hagersville news.

Indians Oppose The Bill

The proposal of the Dominion Government to bring in a bill providing for compulsory enfranchisement and education of the Indians of Canada met with the opposition of the Six Nations, of whom some 5,000 are domiciled on the Grand River Reserve. They state that they have not been consulted in the matter, and it is believed that they will oppose the move being applied to them on the ground that they are not subjects of Canada, but, by treaty, allies of the British crown, and therefore subject only to the British crown.

Curious Mix-Up In Rainham

Cayuga Advocate: We have heard rumors of rather a funny horse deal at Selkirk a few months ago, which has caused a ripple of excitement throughout Rainham. We do not know the actual facts regarding the matter, but a brief outline of the case, according to these rumors, are as follows: A Selkirk lady, Mrs. Kerr, sold a pony which she owned to Sherman Hoover for \$60. Mr. Hoover had possession of the pony when the lady's son, Murray Kerr, sold the animal to Fred Held for \$50. Mr. Held, it is said, took the pony out of Mr. Hoover's barn to his own, and later Mr. Hoover reciprocated by doing the same thing to Mr. Held. A county court case resulted, in which, we understand, Mr. Held was the complainant. This case was to have come up at Cayuga on Tuesday (of last week), and a number of witnesses were on hand, but Mr. Held did not show up. The case was to decide the ownership of the horse, which is still puzzling many people.

Hon. R. H. Grant announced that regulations governing admission of pupils to the high schools of the Province would be altered this year, giving High School Entrance Boards the power to dispense with written examinations in individual cases.

English Families For Norfolk

Simcoe, March 21.—A party of seven English families, seeking farm homes in Norfolk County arrived during the week end. They are all gentlemen, healthy type of country land, and have money and experience behind their venture. The young folk are characteristically robust and healthy in appearance, light-hearted and cheerful of disposition, and in fact of that splendid type for which Ontario has plenty of room. One father and two sons will be followed in June by the mother and seven other children. These parents will give rural Ontario, especially the element that has been bewailing rural depopulation, a practical demonstration of how this drawback has been overcome.

Two other large parties are due to arrive within the next few weeks. They have heard of Norfolk apples, tobacco, corn, live stock, vegetables and small fruits and have come out to share in the county's prosperity.

Deer Increasing in California.

Though the game reserve established in the greater portion of the Angeles forest reserve in California, which includes the San Bernardino and Sierra Madre Mountains, has been in existence but two years, wild deer are multiplying rapidly, according to forestry officials. It is believed that within a few years great herds of deer will be roaming the hills. Deer have been on the verge of extermination in the Southern California mountains, but establishment of the preserve is protecting the herds. Even now deer often appear along the boundary lines of the restricted area, and at times wander into cities near the foothills, seeming to be very tame. The forestry service will establish special patrols along the reserve during the coming hunting season to see that the law is not violated.—Christian Science Monitor.

Good-by, Debbin.

Figures compiled by the New York sanitary bureau of the department of health and reported by Harry T. Gardner, secretary of the Automobile Dealers' association, show a great decrease in the number of stables, and, naturally, in the numbers of horses occupying them. In 1917 there were 106,096 horses. The most recent figures show a shrinkage of 32,936 horses. Chicago, too, shows a falling off in the registration of horse-drawn vehicles under the wheel tax law. In the four years ended May 1, this year, the number of such vehicles decreased from 49,582 to 32,498. This diminution of about 34 per cent compared with New York's falling off of about 30 per cent.
