Sept. 5, 1920 The Building of the Temple

(5:1-7: 51). Solomon's great work, ark of the covenant. The most holy that that for which his reign is most place of the temple was set apart as a noteworthy, was the building of the temple with which his name is connected. David had made magnificent preparations for this building, and Selomon entered heartily upon the undertaking. Hiram, king of Tyre, co-operated enthusiastically with Solomon in the plan, furnishing timber and stone, and placing his skill in the execution of fine work at his disposal. The temple was built upon Mount Moriah, the southeastern hill of Jerusalem. A large space was levelled off for this structure. The temple itseif was ninety feet long, counting a cubit eighteen inches, thirty feet wide, and thirty feet high. It was built facing the east, hence its longer dimension was east and west. The porch extended the whole width of the temple proper and was fifteen feet deep and one hundred and eighty feet high. In front of the temple and forming a part of the porch were set up two pillars, called Jachin, meaning, the Lord will establish, and Boaz, strength. The holy place, which was entered directly from the porch, was thirty feet wide and sixty feet long. Beyond this was the most holy place, thirty feet in width, thirty in length and thirty in height. The dimensions of the temple were double those of the tabernacle. Chambers were built against the temple on the north, west and south sides. Enclosing the temple proper was the court of the priests and surrounding this was another court known as the court of the Gentiles. Inside the court of the priests or the inner court, and in front of the porch of the temple was The great alter of burnt-offerings and between that and the porch was the brazen sea. In the holy place were the golden candlestick, the altar of incense and the table of showbread. In the most holp lace was the ark of the covenant. There were two cherubim whose wings met in the centre over the mercy-seat, which was the cover of the ark of the covenant. Their outstretched wings extended the entire width of the room. The time occupied in building the temple was seven years. The stone and timber were prepared before being brought to the place, so that there was no sound of hammer while the parts were being placed in position. II. The ark of the covenant brought

in (8: 1-11). I. Solomon assembled the elders of Israel-The temple was finished in the eighth month of the eleventh year of Solomon's reign, and in the seventh month of the following year the dedication took place. Solomon called an assembly of Israel to bring the ark of the covenant into the temple and to dedicate the temple itself. The elders were the chosen representatives of the various tribes of Israel, al! the heads of the tribes-The leading men of the different tribes. that they might bring up the ark-The ark of the covenant was in the tabernacle which David had constructed on Mount Zion, the southwestern mount of Jerusalem, and it was to be carried across the Tyropoeon valley eastward and up to the temple, which was built on Mount Moriah. 2. at the feast in the month Ethanim-This was the feast of Tabernacles. Ethanim, used only in this place, was the seventh month of the sacred year and the first of the civil year, also called Tisri. It corresponds to parts of September and October. 3. priests took up the ark-The ark of the covenant was usually carried by Levites. but this was an especially sacred occasion, hence the priests performed this service. The ark was to be placed in the most holy place and Levites were perbidden to enter there. 4. tabernacie of the congregation-This tent had been at Gibeon, a few miles north of Jerusalem, up to this time, and it was brought into the city and probably stored in one of the chambers of the temple. all the holy vessels-Them included the golden altar. the golden candlestick, the table of showbread and probably other articles. 5. before the ark, sacrificing-This was an impressive procession, headed by King Solomon. Great numbers of sheep and oxen were offered in sacrifice to God before the ark of the convenant was brought into the most holy place.

Under the wings of the cherubims -The outstretched wings of the cherubim met in the centre of the most holy place, so that they completely overshadowed the ark of the covenant. The herubim were ten cubits in height, or liteen to eighteen feet, and the ark was one and a haif cubits high. 7. And the staves thereof above-The staves extended lengthwise along the sides of the ark and were for use in carrying ti sacred emblem. The cherubim covered the staves as well as the ark itself. 8. Unto this day-The position of the staves was such that the ends might be seen by one near the opening from the holy place into the most holy place, and they were still in that position when the record was made. 9. Nothing in the ark save the two tables of stone-The ark was the receptacle for the tables of the law. Aaron's rod that budded and the pot of manna which had been in it (Heb. 9: 4) were probably placed elsewhere in the most ho I place. 10. The cloud filled the house of the Lord-The cloud of the divine glory filled the temple thus occupied by the ark of the covenant which was the emblem of the diving presence. 11. Priests could not stand to minister-"Gc 1's presence was diffused through every part of the edifice, thus claiming the whole as set apart

to him." III. The temple dedicated (8: 12-66). 12-31. Solomon stood upon a platform that had been constructed for the occasion and addressed the congregation. He first addressed the Lord, deciaring ward the people and blessed them, sacks.

while they stood to hear his words. He gave the history of the building of the touse. The thought of this enterprise was in the heart or David, out, because of his being much engaged in war, he was not allowed to build the tem-

The Lord gave David the promise, however, that a son of his would accomplish the work. God commended David tor his desire and interest in the matter. Solomon testified that the Lord had placed him upon the throne as his father's successor, and that he had built the house of the Lord. The Commentary.-I. The temple built king made particular reference to the

resting-place for the ark. 31-53. In the remainder of his prayer Solomon besought the Lord for mercy for his people when they should be in distress. Their troubles would come as a result of their failure to obey and honor him. This prayer called for forgiveness for the people on condition that they confessed their sins, turned from them and asked the Lord for pardon, praying with their faces toward Jerusalem. The prayer covered times of drought, famine, pestilence and war. Not only might the prayer of the Israelite be heard, but even the stranger. who turned toward God's people and prayed with his face toward the temple, would receive mercy. 54-66. Solomon arose from his knees and pronounced a benediction upon the people. This was followed by a great sacrifice in which thousands of victims were of-

Questions.-In what year of Solomon's reign was the building of the temple begun? How long was it in being built? Describe the preparation of the materials? Where was the temple built? Give the size of the temple. Describe the parts of the temple. From what place was the ark of the covenant taken? What did Solomon say to the people before he prayed? For what did he pray? What took place after the prayer and benediction?

PRACTICAL SURVEY. Topic.—The significance of a house of worship.

1. Building the temple. 11. Dedicating the temple.

111. The spiritual significance. 1. Building the temple. During his forty years' reign three great tasks occupied the attention and engaged the efforts of Solomon, the erection of the house of God, of his own house and building the wall of Jerusalem. The building of the temple was commenced in the fourth year of his reign, the four hundred and eightieth from the exodus, and occupied seven and a half years. The temple site was Mount Moriah, consecrated generations before by the typical secrifice of Isaac, the child and heir of promise. The temple was modeled after the Sinaitic pattern of the tabernacle, being exactly double in all its proportions. While not permitted to execute his pious purpose. Devid made large preparations for the building of the temple. Solomon was willingly and fbly assisted by Hiram, king of Tyre. The slopes of Lebanon furnished timber of codar and fir. The chief of the skilled workmen was the namecake whose special gift seems to have been degning in all its branc'ses (2 Chron. 3: 13, 14). The entire work of hewing, polishing and fitting was done in forest and quarry, and beam and stone fell into plees without sound of hammer, or tool of from et the temple site. The first lesson is foremeeing core for the interests of the kingdom, Men. depart, but the church and kingdom remain. It is wise to provide for carrying or our life work after our own departure. Too often these great intorests are neglected, and saintly competence is squandered in folly and New York, and with the usual dis sin. We also learn co-operation in

11. Dedicating the temple. The dedication of the temple was the grandest ceremony ever performed under the ceremonial dispensation. To it Israel looked back as the culminating glory of their on. Rival sanctuaries were done away. The ark from Zion was brought into the newtemple. In all the magnificent service Solomon was the central figure. A royal priest he stood, in some sense typical of our great High Priest. The sacrifices offered upon this occasion were numberless and priceless (1 Kings & 5). Amid the spienders of its now abode the ark remained the same as of old. "The glory of Jehovah filled the house of Jehovah," the visible sign of acceptance and indwelling. Solomon's dedicatory prayer is unequaled in sublimity and comprehensiveness.

the work of the Lord.

111. The spiritual significance. Of itself the house was nothing. It was the presence of Jehovah which gave significance to the magnificant structure. Its glittering splendor was as typical as its secrifices and services. | ilar was the policy of Parliament in Both passed with the dispensation of forcing the East India Government to shadow and ceremony (Heb. 10:1). pass on to the Government in ex-Spiritual worship finds no expression or assistance in outward splendor. When its sacred courts had become transformed into a scene of traffic. Jesus commenced and closed his public ministry by cleansing the sanctified repaincts.
