#### WOMEN'S INSTITUTE

A very pleasant afternoon was spent at the home of Mrs. J. Peacock on Thursday, April 7th, where the Sandusk Women's Institute met for their monthly meeting. The proceeds from our Cherry Pie Social were \$12.32. They were rather small, but the night was very disagreeable, so we were well pleased. Our business being completed Mrs. L. Dougherty read a good paper on "Reading," showing how we do not read enough, and it would be much better for us if we read more. An excellent paper was read by our President, Mrs. F. Pond, on "Does it pay to have Hobbies?" We had the roll call on "A girl's preparation for life" from which some good hints might be taken. The meeting was closed by singing "God Save the King," after which the hostess served lunch.

### Fight The Corn Borer

Observations recently made in Elgin County, Ontario, particularly in the district of St. Thomas, by officers of the Entomological Branch of the Dominion Department of Agriculture, and others, indicate that the European Corn Borer found in Canada for the first time in August, 1920, has come through the winter in a very healthy condition. The Department urges, therefore, the assistance of all farmers in affected districts, in the efforts which are being made in controlling this dreaded pest and preventing its further spread.

The borer or caterpillar is the destructive stage in the life of the insect and it is in this stage at the present time within corn stubble, pieces of stalk, old ears, or other parts of the corn plant which were large enough to shelter it during the winter. Farmers, therefore, should realize the importance of destroying, at once, preferably by burning, all unused portions of corn stalks, cobs, waste, etc. Crop refuse around silos and also that left during the winter in interceded corn fields should be carefully gathered up and destroyed by burning. Fields within the infested district should be kept free from weeds, as the borer has been found in thick stemmed grasses, ragweed, smartweed, lambs' quarters, etc.—Arthur Gibson, Dominion Entomologist.

### Plead Guilty to Robbing

James Paterson, aged 16, Harry Maracle, 17, and George Emslay, 19, youths who were charged with breaking into by night and stealing \$200 worth of clothing and furnishings from the store of E. D. Halliday at Simcoe a fortnight ago, appeared before Magistrate Gunton at Simcoe on Monday afternoon and elected to be tried summarily. They pleaded guilty and were remanded for sentence.

The volume of the manufacturer and sale of motor vehicles is most marvelous. It is only twenty-two years since the first automobile was made and sold in the United States. Last year no less than one million eight hundred thousand vehicles were sold in that country. Ten years ago automobile industries were first established in Ontario and the product of passenger cars to date is some four hundred thousand.

It takes a court to change a man's name but most anyone can change a woman's.
