FRIGHTFULLY BURNT!

THIS phase is used to epitomize the conditions which exist throughout our country.

Evvery hour of the day and night the TORCH OF CARELESSNESS brings destruction to somebody's property in Ontario.

Two out of every three fires occur in our homes. No wonder the housing problem is acute.

Eight out of every ten fires are preventable.

Fire waste is an economic crime caused principally by carelessness and indifference.

CLEAN UP accumulations of waste material, rubbish, boxes shavings, papers and conditions that create disorder.

Such sufferers should know the danger of such a condition, which, if allowed to persist, may result in a nervous breakdown. In this condition what is needed is rich, red blood. As a tonic for the blood and nerves. Dr. Williams' Pink Pills have been used with much success. They have a direct action on the blood, and through it carry to the nerves the elements needed to restore their normal function, at the same time improving the general health. benefits that follow the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Norman Seifried, West Montrose, Ont., who says: "It would be hard for me to overstate the benefit I have derived from the use of Dr. Williams 'Pink Pills. Before I began taking the puls I was very nervous, weak and run down. I could hardly do my housework, and as there is a great deal of work to do about a home on a farm, I felt very much discouraged. One day while reading a newspaper I saw an advertisement of Dr. Williams' Pink Pills and decided to give them a trial. I could notice beneficial effects after taking a box of the pills, and by the time I had taken a few boxes, I could again do my work with ease, was no longer weak or nervous, slept well at night, and awoke in the morning feeling well and strong. I am happy to say that the pills so greatly benefitted me."

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail on receipt of 50 cents a hox or \$2.50 for six boxes by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Advice to Girls

By Miss Rosalind

ng women asking for advice on any subject. All you have to do is to address your letter to

MISS ROSALIND.

34 King William St., Hamilton, Ont.

Dear Balsam-I shall send on your name to others wishing correspondents. The best way to overcome ashfulness is not to think about yourself at all. When you are talking to somebody instead of thinking of how dreadful it is that you can't think of something to say, let the other person give you an idea of something he or she is interested in and talk about that.

Dear June-I like your letter. Just keep on being friendly and chummy when you meet this boy you write of. Don't appear to expect any different treatment than you accord him. You are interested in him and his work and are prepared to be a real friend. He will know that if your manner is natural and always friendly and sympathetic.

It is quite alright to tell a new friend that you are glad to have met him-if you really are. If you know the boy awfully well, send him a snapshot especially if it is a funny one or one that has a particular interest for him. Never send a photograph with sentimental intention.

Dear Cutie-Yes, you are old enough to get married; but do hope you aren't going to just for that reason. Be jolly well sure first that you have met the one man in the world for you. You need not confine your friendship to one man. Have as many friends as you can. There is nothing so good for a young man as a real girl friend. Probably the young man does not say anything about calling again because he is sure you expect him to . It is the custom to have supper at a dance with the man who has taken you to the party.

Two Anxious Girls-You are rather young for parties, but I know that out in the country girls do go to dances rather sooner than the girls in Town. If your mother knows about the dances and are willing that you should both go, it must be airight. It is best to go with your girl chum and her brother.

There is nothing to talk about when a girl dances five times with the same partner. I think when they took you home with them for supper they might have driven you back.

When you meet a boy on the road, it is polite for the girl to speak first. A girl should not go with one boy, with as many different boys as she er has nothing but words of praise

others. Have all the boy friends you can. It is the only way you can know which one is the kind of man you would marry. Two years difference in your are is not important.

Dear Peggy-You were perfectly right. You gave this boy the pleasure of your company for that evening. He should have been sensible enough to know that that was sufficient. I hope you will always be

Dear Barney-Don't be silly. Quarrels never helped anybody Make it up of course.

Dear Mickey-I do not think you are silly at all-quite the contrary. but I think the girl must be an utter idlot. Would advise you to find a normal girl who enjoys skating. dancing and shows.

Dear Peggy-It is only an act of politeness for your escort to hold your coat for you. Thank him by all

Dear Brown Eved Twins-Go by all means. It is mighty nice of the young man to take you both. are old enough to go to dances that break up before midnight. Never dance with a stranger.

Dear Lonely Lass-I am afraid can't advise you about dressing your hair and fashions that suit you, be cause I haven't the vaguest idea what you look like. Buy one or two good magazines. They will help you wonderfully, Tell the young man you would be glad to have him call.

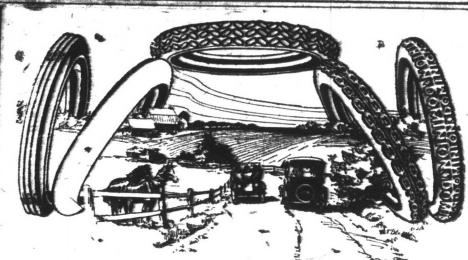

Dear Sandman-Just because you are engaged you do not have to cut out all the nice old chummy friendships. But be perfectly sincere about it, both with the friends and with your fiance.

Dear Lone Pansy-If there is a girl am sorry for, it is the one whose parents forget that they were young and refuse to allow their daughter to go out to have a good time with boys and giris her own age. You are quite eid enough to talk it out with your parents and try to make them see that it is your right, so long as you do nothing to worry them.

Dear Blonde Ask the young man to come to see you and set a time, so that he will be sure to come, then ask him if he intends to keep his engagement. I hope for your sake that he comes back; but, if he should not, it is better for you to find out now that he is fickle and does not care.

In Wrong-When using a finger low die the fingers of the right hand into the water, and then the left, wipe them on your table napkin. After a dence, the man thanks the

girl for it, and the girl expresses her

TEA FOR TRAVELLERS.

On their newly built railways the Chinese have established a service un free boiling water for tea-making. At each important station there is a boiler under a queer looking circular roof which looks like a huge umbrelia. The traveller can help himself from one of several taps. Why boiling water? For making tea of eourse. The traveller brings his tea-pot, or at least a cup, along with him; also some tea. He gets his favorite beverage fresh, just as it would he made at home.

"SERIOUSNESS OF THE HOUSING PROBLEM"

The high cost of building material, the rapidly increasing populaiton and the enormous annual destruction of dwelling houses, in which there were 6,644 fires last year in Ontario, have combined to make the housing problem one of most serious and acute preper-

Ontario is noted for its extravagance through unnecessary fire waste, which is nothing short of an economic crime, caused chiefly through our careless habits and indifference.

Statistics show that 64 per cent, or practically two out of every three fires which occur, are in our homes; eighty per cent. of which are preventable.

The Ontario Fire Presention League, in affiliation with the Fire Marshalls Department, has inaugurated a Province-wide publicity campaign for the purpose of conserving our homes as well as our lives from the descruction by fire. The boys and girls of the Province will be called upon to assist in this most desirable and patriotic movement. Through the principals and teachers of our schools, the League will distribute 266,000 copies of a "Home Inspection Blank" so that the pupils with the help of their parents, may answer the questions. The primary object is to cleanup attics, cellars, back yards and remove hazardous conditions. The underlying thought being to prevent fires by removing the cause and thus save
