Create Gas, Sourness and Pain

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. ## THE "ADS" OF OLD.

Advertising is not a new art by any means. Advertisements of a kind approaching our modern ideas were in vogue in ancient Egypt, Greece and Rome. These, however, were mostly descriptions of runaway slaves, offers of reward for lost property, and so on. The people of Pompeii went much further. ANGLING FOR RATS.

An angler fishing for chub on the Ouse, in England, tried quite a variety of baits for two or three hours without success. For a final fling he changed his tackle and baited with cheese paste. The float had scarcely settled when it moved away, and the angler struck. As the fish bored towards the shore he wound in quickly, and was amazed to see a huge water rat run up the bank taking his tackle with it. In his excitement at the weird catch he broke his rod, the gut snapped and the rat escaped.
