In sizing up the early potato crop the Spectator says:—The growers were in a mad hurry to get the crop harvested—they figured the early birds would get the worms. They may have got the worms, but they certainly did not get much money. On top of this, they are now faced with a shortage of late potatoes, and, of course, many of the market gardeners didn't bother much with a late crop. The dope was all upset, evidence of the claim that farming—some kinds of farming—is just as uncertain as "hose" raining, even in these days of Hancy supervision. All this is a prelude to the statement that potatoes are going to bring fairly fancy prices this fall. Of course, it is nice, from the farmer's standpoint, to think of a rising market—providing you have the produce to sell.

Caledonia Defeats Galt

Caledonia won from Galt last Thursday at Caledonia in the second game of the O. B. A. A. semi-finals, in the battle for intermediate championship of Ontario, by a score of 13 to 8. The game was played in a drizzling rain, but notwithstanding the inclemency of the weather there was a large attendance and the crowd stayed till the finish. These teams have each won a game and the deciding game will be played at Dundas on Thursday afternoon at 3.30. The score of last Thursday's game was as follows:

Galt 2 0 0 1 0 0 0 5—8
Caledonia 3 0 3 0 0 0 0 7 x—13

Batteries—Wright, Morrison and Morrison; for Galt, Boetiger and Daison. Umpire—Burke, Hamilton.

Nucleus of a Shelter

Cayuga, Aug. 14.—The Women's Institutes of Haldimand are undertaking to care for the unfortunate children of the county. Three bright tots are being carefully reared at the home of Mrs. (Rev. Eric) Lewis, and it is hoped that this will prove the nucleus of the greatly needed children's shelter.

Buy Your Coal Now

Buy your coal without delay is the warning sounded by the railways. Rail way officials do not claim there will be a shortage of coal this winter, but they do argue that a sudden and heavy demand will result in a shortage of cars, and make it impossible for them to supply the needs. It is pointed out that there has been a large increase in the percentage of disabled cars during the last six months (from 5 to 16 per cent.) and this, more particularly if there should be a recovery of business activities this fall, might result in a serious situation as regards coal movement.

Someone has said: Prohibition doesn't prohibit—it provokes.
