The object of this department is to place at the service of our farm readers the advice of an acknowledged authority on all subjects pertaining to soils and crops. Address all questions to Professor Henry G. Bell, in care of The Wilson Publishing Company, Limited, Toronto, and answers will appear in this column in the order in which they are received. When writing kindly mention this paper. As space is ilmited it is advisable where. immediate reply is necessary that a stamped and addressed envelope be enclosed with the question, when the answer will be mailed direct.
